公開試連環報捷
DSE狀元劉子浠披白袍讀醫

本校在今年香港中學文憑試（DSE）誕生創校首位狀元劉子浠，於GCE A-Level放榜再傳捷報，應屆考生羅啓嘉考獲5A*佳績，成為超級狀元。

劉子浠立志入讀香港中文大學醫科，專攻腦神經專業，日前已披上白袍，踏出成為醫生的第一步；羅啓嘉年僅16歲，早獲牛津大學物理系無條件取錄，九月赴英升學。

本校今年整體成績同樣亮眼，整體升學率達100%。四分三DSE畢業生升讀香港八大；95% GCE A-Level畢業生入讀QS首百名大學，逾四成同學成功獲得英國G5大學（牛津大學、劍橋大學、倫敦帝國學院、倫敦大學學院及倫敦政治經濟學院）錄取。

歷年來，多位畢業生獲世界知名醫學院錄取，並在醫學專業領域中表現出色。應屆畢業生除子浠入讀中大醫學院外，亦有同學入讀香港大學醫學院及英國King's College London修讀醫科。

此外，2023年畢業生張鈞朝考獲7個5**加1個5的「超級榜眼」佳績，憑藉優異成績升讀英國牛津大學物理系。

立志讀醫　專研腦神經

劉子浠自小學一年級起於本校成長，小五跳級直升中一，成績優異，積極參與各類型學校活動，她曾於醫院實習，並擔任文化大使領袖，游泳表現亦見出色。子浠現已入讀香港中文大學醫科，有志專攻腦神經科學專業，期望以專業知識與仁心服務香港社會。

劉子浠在學校活動擔任司儀。

A-Level超級狀元 羅啓嘉16歲獲牛津取錄

英國GCE A-Level（普通教育高級程度文憑）考生羅啓嘉年僅16歲，是本校的資優跳級生，以5A*成為超級狀元，獲牛津大學物理系無條件取錄。

啓嘉對量子物理深感興趣，深信物理是社會進步的基石，冀望未來能在該領域深入研究，以科學貢獻人類。考獲佳績的啓嘉同時獲頒「香港卓越獎學金計劃」，該獎學金競爭激烈，申請者須通過多輪嚴格評核，除學術表現外，亦須展現領導才能、研究潛力及明確願景。目前啓嘉已遠赴英國，入讀牛津大學物理學碩士課程。

羅啓嘉獲頒「香港卓越獎學金計劃」。

羅啓嘉中四時參加校內爬繩網活動。

Highlights of 2026 Graduates:
Varied Experiences, Diverse Perspectives

LIU Zitian

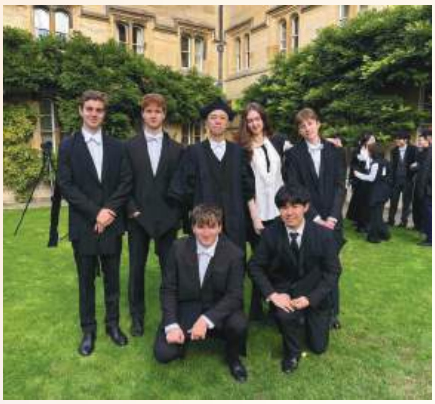
Current Student at Faculty of Medicine, The Chinese University of Hong Kong

Stepping into university is like getting thrown into a state of liminality. Secondary school life seems so far away, yet much time is still needed to get accustomed to unfamiliar schedules and new faces. Lately, I frequently find myself staring at my 50-page lecture slides, wondering what exactly would be my next step. I suppose, however, this feeling is what makes a new chapter exciting – the freedom to exercise full control of your life coupled with the ambiguity that lies ahead is really what makes our time here meaningful. But I also have to remind myself, more often than I'd like to admit, that it's important not to just stare at the lecture notes and get carried away in thought, because next week's exams cover too much to allow daydreaming.

LO Chi Chia

Current Student at the Mathematical, Physical and Life Sciences Division, University of Oxford

Going to university overseas has been an eye-opening experience, the ability to interact with talented people, learn about different cultures and learn from top professionals. I am glad my hard work in the IAL has allowed me to gain access to these opportunities. Going to university marks the first time I have been independent, so not only do I have to study hard for the difficult content in Oxford, especially since university really emphasized independent learning and problem solving unlike IAL, I also have to learn how to start "adulting" and how to coexist with strangers. University has also really emphasised the need for discipline and time management, where lectures stacked on labs, tutorials, late night study sessions and social events will get overwhelming if I don't plan out my day. Other than the vast and endless libraries and the beautiful landscape in the Oxford city area, my favourite part of Oxford is the people. I have met so many friendly and supportive people who helped me understand difficult topics. One piece of advice is that you should spend more time outside your room than inside, as becoming a hermit can cause loneliness, whereas participating in social events can improve mental health and decrease stress.



YEUNG Edison Man-hon

Current Student at Faculty of Life Sciences & Medicine, King's College London

New things are opportunities, and how you use them is up to you.

Some people like to party, some like to lock in and study, some like to delve into love, and some like to practise photography.

In university, there is greater freedom and schedules are more flexible. Even with an intense degree like medicine, there's a lot of downtime, working a while, going out some nights, and learning new things every time.

It makes you realize life isn't just about following a path someone else set for you. You get to choose how to fill the quiet spaces and the late nights. Right here, right now, the choice is completely yours.

LEE Yan Wah

Current Student at Jockey Club College of Veterinary Medicine and Life Sciences, City University of Hong Kong

Who would've thought vet school would be such a blast? Prior to enrolling in CityU veterinary medicine, I was expecting hefty coursework and assignments…which honestly aren't that far off from my current situation. What I've failed to account for is that studying what you love is surprisingly fun. Despite the information overload, I'm genuinely enjoying myself. The constant field trips only make it so much more enticing (as long as I don't get kicked by a horse).

Of course, the friendly professors and seniors helped make the transition this much easier. And how could I forget the people in my cohort! Not only is there something to learn from each of these talented individuals, but everyone is super nice and inclusive. Despite initial reservations about failing to find friends, I was very quick to bond with them. Nowadays, we spend much of our time chilling in the vet common room or enjoying CityU's famed ice cream.

Change is always daunting, yet with a fresh start comes the opportunity to encounter sides of you that you never knew existed. Remember though, don't eradicate your values just to better fit in. And just because the nature of your relationship with old friends have changed doesn't mean they won't be here if you need them!

CHAN Fong Yu Lyris

Current Student at Faculty of Law, The Chinese University of Hong Kong

A month into university, life looks completely different, but still feels the same. Swapping out sciences and math for law is as challenging as expected, but it's equally as exciting to be studying something I'm passionate about. My calendar is filling up with social events, and I'm fully responsible for managing my own schedule. I've also met friends from all over the world, and I love getting to know different cultures and bringing them to experience local Hong Kong culture and food. Despite all the change, none of it feels foreign — the newness has settled in faster than I expected. At least one thing doesn't change: the grind never stops.

LEE Ka Chun

Current Student at School of Business and Management, Hong Kong University of Science and Technology

It's honestly hard to believe I'm already a university student. I still feel like I'm the Grade 9 kid who's messing around and playing jokes. Just a year ago, I was still struggling with academics and feeling extremely frustrated about my future studies. Luckily, I got into HKUST's Quantitative Finance programme. This path was never smooth sailing. The sky-high admission scores, the fear of limited admission places, and the tricky interviews have always tested my resolve to embark on this arduous journey. Moreover, the rise of the medical era has caused a tremendous shift of interest among students from business to medicine-related programmes. Surrounded by peers who are interested in medicine, I feel a bit lonely and out of place. Is studying business still the right choice? To be honest, I still do not have a definite answer, but I trust my future will come together as time goes by. There are rumours about how intense and arduous the education at HKUST is, but I'm ready to face it and grow from it. To all schoolmates, I hope you will treasure your sweetest secondary school life and trust yourself. Don't let others underestimate you. Prove they are wrong with your strength. You're on your own, kid — you can face it, and you always could.

CHAN Hillary Hey Yin

Current Student at Faculty of Social and Behavioural Sciences, University of Amsterdam

Moving from Hong Kong to the Netherlands to study Communication Science at the University of Amsterdam has been both exciting and challenging. For the first couple of weeks, I felt lost and lonely. It was hard to get used to the little things, from the unpredictable weather to train schedules that could change at the last minute. Everything around me was new. I missed the people, the food, the routines and the comfort that I had in Hong Kong so much.

Going to university was a new challenge as well. The courses require more independent study than I thought. I had to learn how to keep up with readings, assignments and working with groupmates from different cultural backgrounds while adapting to a totally new environment. I also had to adjust to a different culture, language and way of communicating with new people.

However, this diversity and these experiences have made me more independent and adaptable. I am slowly learning to cope with new situations, meet new people and build a routine. Through meeting new friends and exploring Amsterdam, I am also starting to appreciate this opportunity to grow outside my comfort zone.

TO Man Chit

Current Student at Department of Management, London School of Economics and Political Science

After spending the past 17 years of my life in Hong Kong, coming to London for my university studies feels like stepping into a completely new world. The sudden shift from strict secondary school schedules, disciplined learning, and comfort from the teachers to total, unfiltered freedom in university is both thrilling and slightly terrifying. I realized I'm no longer just preparing for my future, but instead actively building it, one brick at a time.

Yes, it's stressful to study here. Being one of the best schools in the world for social science, university lectures move at a breakneck pace, and I am piled with readings, essays, and independent research every day. It's also particularly tough competing with other classmates for internships and committee applications while chasing deadlines. This forces me to master time management and build resilience not seen before in secondary school.

However, every hurdle of my degree was entirely worth it. Studying here gave me the time of my life: wandering London's endless streets, building a global circle of friends, and enjoying a lifestyle far more balanced and connected than the one I had during my days in Hong Kong. University shaped me far beyond my degree; it became a deeply personal journey of self-discovery and growth.

Image: LSE

CHIM Tak Hei

Current Student at Faculty of Health, Medicine and Behavioural Sciences, University of Queensland

Receiving my unconditional offer from The University of Queensland has been an exciting milestone, and I am now counting down the days until I begin my studies this February. Although I have not yet set foot on campus, the journey already feels like a new chapter full of possibilities. I am especially looking forward to meeting classmates from all over the world—something I know UQ is known for—and learning from people with different backgrounds and perspectives.

Beyond academics, I am eager to explore the many clubs, societies, and campus events that UQ offers. I hope to make new friends and settle into student life, and I believe these experiences will help make my transition smoother and more enjoyable.

Of course, academics remain essential. I know university offers far more flexibility than secondary school, with a timetable that gives you more control over your time. But this freedom also means building self-discipline—staying on top of my learning, attending classes, and managing my time wisely.

Before I begin this new chapter, I want to thank my alma mater, HKBUAS Wong Kam Fai Secondary and Primary School, for laying the foundation and giving me the confidence to pursue my dreams so far from home.

LIN Pin You

Current Student at School of Chinese Medicine, The Chinese University of Hong Kong

As a first-year student at The Chinese University of Hong Kong, I found my first week filled with chaos, exhaustion, and excitement. The chaos came from the fact that, as university students, we had to design our own timetables, and unlike in secondary school, there were no teachers constantly reminding us of assignment submission deadlines. The exhaustion came from CUHK being known as a "mountain campus": we often had to walk up and down many stairs on the way to classrooms. When taking the campus shuttle bus, we also had to fret over the complicated bus routes, which added a bit more chaos: I took the wrong bus and it took me to the top of the mountain. The excitement, naturally, is because I have the chance to meet many interesting classmates from different majors and to find friends from all walks of life.

This transition made me appreciate what I learnt at HKBUAS even more. I'm truly grateful to have been a student at HKBUAS, where teachers gave us plenty of opportunities to express ourselves. Being the Head Prefect has also helped me develop my communication and time management skills, which are some of the key soft skills in university. Therefore, I felt better prepared for the transition, and I credit A-School for that.

Thank you, A-School. Treasure your time here.

LOO Hiu Hong Matt

Current Student at Business School, The Chinese University Of Hong Kong

Image: CUHK Visuals

Starting university at The Chinese University of Hong Kong has been a completely new experience for me. My first month was full of surprises, especially the chance to meet friends from all over the world. For instance, our professor randomly assigned us into groups of six, and my group included students from Indonesia, Mongolia, and Taiwan—places I knew little about before. This gave me a valuable opportunity to learn about different cultures and broaden my horizons.

As a freshman, I've also had no shortage of society, club, and college events to explore. In August, I joined two orientation camps, where I experienced CU culture firsthand and played games like CU hunt and detective games. These activities helped me feel more connected to campus life and made the transition smoother.

Of course, academics remain essential. Unlike secondary school, university offers a far more flexible timetable, even days off, giving you more time for yourself. But this freedom also means building self-discipline—staying on top of your learning, attending classes, and managing your time wisely.

CHEUNG Yu Yuet Jamie

Current Student at Business School, The University of Hong Kong

It feels like months have already passed at university, but it's only been two weeks of this crazy journey filled with classes and orientation events. Switching to a new environment is not easy, and finding classrooms between classes is even more hectic. However, the people that I've met during the time I've been here have made going to University a bit more enjoyable.

With a lot of freedom in my hands to try everything, I always have to remind myself to never be too shy to be yourself. Exploring societies that pique your interest is the best way to loosen up and enjoy the vibe. I had the best time in Danso Ocamp, met so many amazing dancers, and shared the energetic atmosphere in mass dances with seniors and freshmen.

Juggling activities and studying has already become part of the university rhythm. Always, always, always read the syllabus and mark down assignment dates, because the fun you'll have will make you forget all the long-dreaded deadlines. It's quite bittersweet leaving the familiar faces and routines of A-School behind, but a fresh new start as a business student is what makes the coming four years count.

XIAO Zhun

Current Student at Faculty of Architecture, The University of Hong Kong

Leaving a peaceful, four-month summer hibernation for the lecture halls of HKU was less of a gentle wake-up call and more like getting hit in the face by a tidal wave of information. As a surveying student, I will eventually specialize in one of six professional streams—such as quantity surveying, land surveying, or general practice surveying. Right now, I am actively exploring my options, and attending talks organized by the Department of Real Estate and Construction has provided valuable insights into the industry.

Surveying is inherently interdisciplinary: we learn ordinances, urban planning, economics, law, and a bit of everything in between (well, everything except physics, chemistry, and biology). Having been a science student in secondary school, adapting to this entirely new domain of knowledge is both challenging and rewarding. Although I initially struggled to keep up with the coursework, working alongside supportive group-mates who are always ready to lend a helping hand made the transition seamless.

Built-environment professions are great for character development; they place immense value on communication, responsibility, and mutual understanding. After a month into my university journey, I am excited for the opportunities ahead and eager to see how much I will grow.

CHAN Kin Chung

Current Student at Faculty of Arts, Faculty of Engineering & School of Computing and Data Science, The University of Hong Kong

Becoming an AI and computing student has always been my goal, and I'm so glad I achieved it. Starting off, I jumped into three orientation camps where I met like-minded people and had a blast without any stress. Those sleepless nights created memories I'll hold onto for a long time.

The biggest highlight of my university life so far is definitely my hall life. I've made really strong connections with both seniors and peers by spending time with them every day in and out. We had different sports training every night followed by a lovely dinner which elevates the team's bonding. We also hang out sometimes after lectures to make every minute spent in the hall memorable. The most remarkable outing must have been the night hike at the Peak after a day full of lessons. I am excited for more to come.

While having fun, studying is also a key factor for me to achieve my ideal career. That is why I attend lectures actively, raise questions, and use my spare time to do research and readings to deepen my understanding. I do find certain fields of study interesting and insightful.

Adapting to university life hasn't always been easy, but my time at A-School equipped me really well. Joining competitions and outreach programmes transformed me into a presentable person. Being a Digital Sergeant and the Vice-Captain of the Football Team sharpened my leadership skills. These experiences helped me to step out of my comfort zone and tackle whatever comes next.

TSOI Lok Yin

Current Student at Faculty of Social Science, The Chinese University of Hong Kong

Image: CUHK Visuals

I've only been at CUHK for two months, but it's already been quite a journey. At first, I wasn't familiar with the environment and didn't dare to approach others proactively. But joining the orientation camp changed that — I met so many new friends there, and slowly I became more outgoing, someone who would take the initiative to chat with people instead of waiting for them to come to me.

Academically, I'm majoring in Urban Studies. I've already been on a field trip to Tai Po, where we had to free-hand draw the mapping of the area. It was a hands-on way to see what I'm learning in real life, and it made me even more interested in my major.

What I find most special about CUHK is its college system. It reminds me of the chambers at HKBUAS, but on a much bigger scale. Instead of just a few floors, it's a whole community with hundreds of people. There are always activities and gatherings, so there's always someone around.

I'm still adjusting, but I'm glad I stepped out of my comfort zone. I'm looking forward to seeing what comes next!

CHIAH Ming Yan

Current Student at College of Biomedicine, City University of Hong Kong

Image: CityU

Entering university marked a fundamental shift in my academic journey, as I moved beyond textbook knowledge and began to apply what I learnt to real-life situations. Studying Biomedical Engineering at City University of Hong Kong has been an incredibly enriching experience for me, giving me a fresh perspective on how biology and engineering can work together to improve people's lives.

The transition was not easy at first. Coming into biomedical engineering with no prior background in biology, I initially found it challenging to keep up with my lessons. However, through the guidance of dedicated professors and the support of my peers, I gradually overcame these difficulties and developed a strong passion for the subject.

One aspect of university life that I value the most is its cultural diversity. My classmates came from a wide range of countries and backgrounds, each bringing their own unique experience and perspectives. This diversity makes group discussions so much more dynamic and engaging. Beyond the classroom, collaborating with peers from different backgrounds has helped me become more adaptable and develop a truly global mindset.

Looking ahead, I am excited to apply what I have learnt to the real-world healthcare industry, developing innovative healthcare solutions that can make a meaningful impact across different communities.

CHENG Tsz Yin Nicole

Current Student at Faculty of Health and Social Science, Hong Kong Polytechnic University

When I first got the offer to study Bachelor of Science in Occupational Therapy at PolyU, I was elated. However, setting foot in PolyU felt like the first day of primary school all over again, all alone in a completely unfamiliar environment. I started worrying about all the possibilities of how these 4 years will unfold. Luckily, the first few weeks of university have treated me rather nicely. It was packed with opportunities to meet new people from different backgrounds, make fun memories, and attend mildly intriguing lectures.

Twelve years in A-School taught me communication and organisation skills that turned out to be crucial to my university life. From balancing assignments and fighting deadlines to stepping out of my comfort zone to join the Kenjutsu Club, and even taking part in organising an event for my fellow OT freshmen, all these new experiences have done nothing but enrich my new journey ahead.

I am beyond grateful to have friends around me with the same beliefs of serving the community and being professional occupational therapists. I believe with my trusty old Chromebook and an undying dream, I am ready to tackle what the future has planned for me.

IP Sum

Current Student at Faculty of Science, The Chinese University of Hong Kong

As a freshman at university, I have yet to discover countless opportunities and meet more people with diverse backgrounds. For the last few weeks in August, I have participated in orientation activities, including academic talks and camps. The academic talk of my major programme provided me with a broader perspective of study, as well as a complete list of future careers. I also got to know potential lifelong friends in the orientation camp, which will enrich my university life, as we can support each other during the study period.

As entering another chapter of life requires qualities built up in the previous chapters, I would like to thank A-School for training and assisting me to develop such qualities. By joining service and leadership programs such as Digital Sergeants and Campus TV, I learnt collaboration and communication skills. For example, during important school activities such as the Winter Concert and Variety Show, I participated as backstage crew. We helped to organize the rundown and make sure everything was smooth. I believe that these qualities help me overcome difficulties in university, creating a better learning atmosphere. Thank you, A-School, for these 12 fruitful years, shaping me into a future leader and responsible person.

LO Ho Yau

Current Student at Faculty of Health and Social Science, Hong Kong Polytechnic University

I am now studying in the Occupational Therapy programme at PolyU, under the Department of Rehabilitation Sciences.

Time at university flies fast, but it is really enjoyable. While writing this sharing, I have already finished two quizzes. Balancing interest and a heavy workload is not easy, yet I feel thrilled when new knowledge is absorbed into my brain. This is a feeling implying that I have finally chosen what I am interested in and have the chance to delve deep into it — the operation of our body, psychological theories, anatomy and physiology.

University is not just a place for studying, but a place where you can explore new interests. I have joined an Iai Kenjutsu club where I can practise with a traditional Japanese sword. This is a totally new experience. How could I have imagined I would actively do sports one year ago?

At PolyU, there are recorded lecture videos. This means we can manage our time to do internships, part-time jobs, and explore other interests.

However, we also need to be cautious while enjoying this captivating freedom. I am currently adapting, and I believe I can manage it well very soon.

POON Justin Jon

Current Student at Department of Music, The Chinese University of Hong Kong

Image: CUHK Visuals

Stepping onto the CUHK campus as a first-year Music student still feels a bit weird. The green hills, the natural wildlife, the quiet corners of the library, and those late-night practice sessions in the music rooms have already started shaping how I see the next few years. I chose music because it's the one place where everything slows down and makes sense, whether I'm working through a new piece or just listening to someone else play.

The Faculty of Arts has been welcoming in a low-key way. Professors are approachable, classmates share the same mix of nerves and excitement, and there's this quiet understanding that we're all figuring it out together. I'm still early in the journey, so my "career path" is more of a hopeful outline than a fixed map. I want to keep performing, maybe teach one day, or find ways to bring classical and contemporary music to people who don't usually get to hear it. For now, I'm just trying to show up every day, practise properly, and keep an open mind.

University so far has taught me that it is not only about getting a degree. Sometimes it's just showing up to class tired, staying an extra hour in the practice room, or talking with someone who loves the same less well-known composer. I'm grateful to be here, and I'm looking forward to seeing how these early experiences shape whatever comes next.

CHAN Hiu Ki

Current Student at Department of Fine Arts, The Chinese University of Hong Kong

My first semester as a Fine Arts student at CUHK has been an immersive dive into the fundamentals of art-making. The core courses, particularly in sketching and Chinese calligraphy, have been both challenging and rewarding. I've learnt to truly see — to understand the play of light and shadow, the weight of a line, and the structure of forms. The discipline of calligraphy, with its emphasis on brush control and the rhythm of each stroke, has taught me a new kind of patience and precision that now informs my sketching.

The environment of the Art Museum and the dedicated studios has been crucial. Being surrounded by such focused energy and having access to specialist facilities creates a unique atmosphere of learning. It's not just about producing work, but about living within the creative process. The hands-on guidance from professors and the quiet intensity of the studio have fundamentally shifted my perspective on art. I'm not just learning techniques; I'm cultivating a deeper, more thoughtful approach to visual expression, building a foundation that I know will shape my entire artistic journey here.

CHANG Hoi Fung

Current Student at Faculty of Medicine, The Chinese University of Hong Kong

I have successfully survived 1.5 months in university. As I began my first semester in CUHK, I realised that the biggest challenge wasn't having to hike between venues. Rather, it was the intimidating transition from my secondary school life.

Being in university means that you are no longer in a safe controlled learning environment. You will be responsible for scheduling your lessons, keeping up with the pace of lectures, and completing studies independently. But worry not, the workload isn't as demanding as you might imagine. The lectures and tutorials are actually quite engaging, and I am excited to learn topics that I am passionate about. I also took the effort to step out of my social comfort zone to connect with remarkable peers. If I ever feel troubled, I would take a quick hike around the campus and spot the fascinating wildlife. It's a really great but simple way to soothe your mind.

The career path for this programme is quite clear. As a nursing student, I will continue to hone my professional knowledge and skills so that I may serve the community in a healthcare setting. Additionally, the flexibility of managing my own timetable gave me much more freedom to pursue interests beyond the curriculum, such as adventure activity qualifications.

Anyways, adjusting to university life might sound daunting. But once you start embracing the change, you'll find everything so much easier. Good luck and wish you all the best!

SO Hoi Ting

Current Student at Faculty of Education, The University of Hong Kong

Growing up watching films like *Pitch Perfect* always made me fantasize about what university life would look like. Luckily, my reality has not fallen far from my imagination. From attending tutorials in the iconic main building and meeting people from all around the world to learning from prestigious professors, studying at HKU feels like an absolute dream come true. Of course, this excitement came with its share of nervousness. Having spent 12 years at A-School, stepping out of my comfort zone was a true challenge. Adjusting to being entirely on my own meant embracing the freedom to manage my own schedule and explore different societies. At the same time, this newfound independence meant navigating new responsibilities on my own, which felt very demanding at first. Yet, whenever I feel challenged, I remind myself how lucky and grateful I am to live the life I once only prayed for. Looking back at the stress of university applications just a year ago, I am deeply thankful for the support from A-School that helped make my dream a reality. To my juniors currently navigating the application process: best of luck, and believe that everything will work out in the end.

馬希偉相片來源：馬希偉IG

本校六人出戰
愛知名古屋亞運

第20屆愛知名古屋亞洲運動會已於2026年10月4日正式閉幕，歷時16天的賽事圓滿結束。今屆賽事本校共有一位學生及五位校友入選，代表香港出戰。

六位代表分別為：		
黃若澄(七年級)	滑板	
鄭宇軒(校友)	棒球	現效力臺灣體大富邦公牛成棒隊
郭澄(校友)	小輪車競速	現任職中學英文老師
李懿茵(校友)	女子足球	現效力沙田體育會女子足球隊
陸愷晴(校友)	女子足球	於美國麻省理工學院畢業，現於英國牛津大學攻讀博士課程
馬希偉(校友)	男子足球	現效力中國足球甲級聯賽球會陝西聯合

六位代表在亞運舞台上全力以赴，展現了運動員堅毅不屈的精神，亦為本校寫下光輝一頁。無論成績如何，他們敢於挑戰、勇於追夢的態度，已是最佳榜樣，值得全校同學學習。

12歲黃若澄成港隊最年輕代表之一

七年級黃若澄同學年僅12歲，首度代表香港出戰亞運滑板項目，成為港隊最年輕代表之一。

若澄於七月中才確認參賽資格，其後更遠赴南京集訓。在父母鼓勵與室友支持下，她一步一步走過這段艱辛旅程。為了備戰，若澄甚至缺席首個中學開學禮，度過非一般的開學季。

首次踏上亞運舞台，若澄坦言既緊張又期待。首輪賽事因壓力影響未能發揮水準，但她迅速調整心態，在後兩輪愈滑愈好，印證成長往往源於重新站起的勇氣。雖然最終未能站上頒獎台，但若澄的勇氣、毅力與成長，已贏得全校師生的由衷讚賞。

若澄表示非常享受這次大型賽事，並已以下一屆亞運為目標，決心更努力訓練，務求在滑板場上不斷突破自我。

星島日報

郭澄(右二)出席中國香港代表團授旗典禮。

唯一小輪車競速代表 郭澄克服天雨濕滑賽道

郭澄是今屆亞運港隊唯一參加小輪車競速賽事的運動員。賽後她指比賽當日因天雨影響，場地濕滑出現水窪，與訓練有所不同，不過她已即時調整心態，全力以赴，並對於可以與高水平選手競賽感到高興。

郭澄非全職運動員，她目前任教中學英文科，為代表香港參加亞運特意請假。她希望可透過是次經驗宣揚小輪車，讓下一代認識這項運動。

陸愷晴首戰亞運 由MIT到港隊 赴牛津攻讀博士

出戰女子足球的陸愷晴(Sean)在本校就讀期間，最難忘的是四年級的專題研習(PBL)，以及雲南交流時教當地小朋友唱英文歌的溫馨場景。移居美國後，她繼續在綠茵場上追逐足球夢，大學時代加入麻省理工學院女足隊；2023年更首次披上港隊戰衣，出戰U20亞洲盃，司職中場及翼鋒。Sean今次首次出征亞運，運用海外作賽累積的經驗，全力發揮，為港隊爭光。

Sean在球場上大放異彩，學術追求上同樣出色。完成亞運賽事後，她前往英國牛津大學升讀博士，專攻生物工程研究，冀開發新藥物造福人類。

陸愷晴(前排右三)及李懿茵(後排右一)代表中國香港女子足球隊出戰。

12B LAU Sum Pui

I am pleased and grateful to receive this award for the first time. To overcome the unstable weather of beach volleyball wasn't easy, I am proud to have my teammates staying along with me to achieve this remarkable result. Thanks all of you for believing in us and pushing us to be our best for the whole journey.

10B LOK Chun Kiu

I want to express my deepest gratitude to my school for all the support and encouragement throughout the year. To my coach – thank you for your patience, guidance, and for pushing me to be my best. To my Mom & Dad- thank you for your support and taking care of me all the time. This achievement would not have been possible without you.

8A 季倫熙

感謝教練的悉心栽培、家人的無私支持，以及隊友的一路陪伴。熱愛從不停止，未來我會繼續努力訓練、堅持拼搏，在乒乓球的路上不斷進步，不斷突破自己。

11D LEE Yik Hang

Receiving this award is such an honour. All our sweat, teamwork, and dedication finally paid off. Huge thanks to my coaches, teammates, and family for always supporting us

9A 張嘉鈺

第二次獲頒傑出學生運動員獎，我既興奮又心懷感激。這份獎項證明了長期重複訓練付出的汗水並沒有白費。感謝教練們悉心教導與鼓勵，也感謝學校和隊友一路相伴扶持。這份榮譽只是起點，未來我會繼續努力不懈，力爭為學校和香港爭取更佳成績。

11E CHUNG Hoi Ying Janice

Looking back, I have grown and flourished immensely thanks to the unwavering support from my peers, coaches and most importantly the school. This award not only serves as a recognition but also a constant reminder for me to stay humble and keep pushing myself to achieve greater results.

12B 潘樂恩

第一次獲得這個獎項，我的內心充滿激動與感恩。這份肯定令我覺得每天苦悶又重覆的訓練是沒有白費的。我最想感謝我母親每天辛苦照顧我，在我低谷的時候都會陪伴我身邊，當然也少不了教練們的支持和栽培，讓我繼續發揮所長。
我會繼續全力以赴，代表學校、香港爭光。

11C 彭皚淇

非常榮幸獲得這個獎項。這份榮譽是對我的肯定，亦見證了無數汗水與堅持。衷心感謝教練的栽培、家人的支持，我將帶著這份鼓勵，在球場上繼續突破自己，我會繼續努力，追求卓越！

Champion and Best Debater
Hong Kong Bar Association Debating Competition 2026

On August 8, 2026, in the High Court, eloquence still did what it has always done: it changed the room. The HKBUAS English Debating Team left as **champions of the Hong Kong Bar Association Debating Competition, and Grade 9 YEUNG Pok Hay, Ernest as Best Debater.**

Left to right: 9D YEUNG Pok Hay, Ernest (Best Debater), 11D CHAN Ho Him and 11C LAU Ka Ki, Sophia (Captain)

Our English Debating Team defeated Diocesan Boys' School on the motion "This House supports a fused legal profession in Hong Kong." Arguing for the Affirmative, the team did not merely win a ballot. It showed, before judges and barristers, that clarity still carries authority.

The path to that afternoon had already been exacting: a preliminary victory over Maryknoll Convent School, the defending English champions; a quarter-final win against Hong Kong Munsang College; a semi-final against St. Paul's College; and then DBS, in the Grand Final. The English final was judged by High Court Deputy Judge Grace Chow Chiu-man, District Judge Harold Leong Kwok-on, and Mr. José Antonio Maurellet, Chairman of the Hong Kong Bar Association.

The judges praised the team's flawless fluency, meticulous research, commanding poise and sharp articulation, and spoke of exceptional promise for the law. In an age of noise, a well-made argument can still hold a courtroom. Eloquence has not gone out of fashion. It has only become rarer — and, for that reason, more decisive.

大律師公會辯論賽｜聖若瑟書院及王錦輝中小學奪中英文組冠軍

社會 更新時間：15:22 2026-08-09 HKT

高等法院 THE HIGH COURT

香港大律師公會年度中學生辯論比賽，昨日下午（8日）在高等法院舉行總決賽，香港浸會大學附屬學校王錦輝中小學奪得英文組冠軍，隊員兼得最佳辯論員獎項；中文組由聖若瑟書院奪魁，嘉諾撒聖方濟各書院辯論隊隊員則獲頒最佳辯論員獎項。

星島日報

The result follows a longer argument the school has made for years. In the Sing Tao Inter-School Debating Competition, the English team won in 2022 and 2023, finished first runner-up in 2024, and reclaimed the title at the 40th edition in May 2025.

9D YEUNG Pok Hay

Having the opportunity to participate in the prestigious HKBA matches was a tremendous experience, which allowed me to further develop both my debating skills and teamwork. Additionally, winning the finals and being awarded Best Debater in an actual courtroom not only reflected our team's debating ability but also our teachers' dedication to training us. It was the teamwork and mentorship that brought me triumph and a lasting memory, and I truly owe it to them.

11D CHAN Ho Him

Being part of the trailblazer team that won the HKBA Debating Competition 2026 was both challenging and stressful, but also extremely rewarding. Facing off against one tough opponent after another was difficult, and I was always nervous when I went into battle. However, throughout this journey, my teammates and I prevailed under the guidance of Mr. Chong and became much better debaters as a whole. I can still remember the exhilaration when it was announced that we had won the final round against DBS. It was truly an unforgettable experience.

雙雙奪銅 為校爭光
「旭日文學之星」作文大賽佳績報喜

本屆「中國中學生作文大賽旭日文學之星獎（香港賽區）」，我校兩位同學從全港參賽者中脫穎而出——9B洪懿以〈我讀懂了霧〉、11E顏嘉誼以〈消失的白石溪〉，雙雙榮獲銅獎，為我校爭光。

作文大賽以『印記』為主題，吸引全港多間學校踴躍參與，參賽作品眾多，競爭相當激烈。兩位同學能脫穎而出，文學實力獲得認可，實在可喜。

一字一句，盡顯才情；一思一悟，書寫青春。期待更多同學以筆為舟，在未來的文學航程中乘風破浪，讓我校的文學星光繼續閃耀香江！

9B 洪懿

很榮幸獲頒旭日文學之星銅獎。文學於我，是看見廣闊世界、安放內心情緒的窗口。衷心感謝各位老師長久以來的啟發與提點，也感謝身邊人的鼓勵。這份榮譽不是終點，而是全新的起點。我願繼續與文字為伴，多讀多思，用心沉澱，用筆記錄生活裡每一份微小而珍貴的感動。

11E 顏嘉誼

很榮幸能獲得文學之星銅獎。對我而言，文學是照進生活的一束光，讓我在字裡行間找到共鳴與力量。這份獎項不僅是對過往努力的認可，更是我繼續前行的動力。我會保持對文字的敬畏與熱愛，用筆尖傳遞更多溫暖與思考。

Four of our exceptional student athletes have excelled in rope skipping, taekwondo, and football — sports as diverse as the talents they represent. Through dedication, discipline, and countless hours of training, they have achieved remarkable results in both local and international competitions, bringing honour to themselves and our school.

Their journeys remind us that success is never accidental. It is built on perseverance, resilience, and the courage to keep going when progress feels slow. We hope their stories inspire every student to pursue their own passions with the same commitment — whether on the field, in the dojo, or wherever their ambitions lead.

亞洲跳繩錦標賽2026

- 團體全能12-15歲團體女子組金牌
- 團體四人交互繩花式比賽(75秒) 12-15歲團體女子組金牌
- 團體四人單人繩花式比賽(75秒) 12-15歲團體女子組銀牌

8A AU Hiu Chin, Ashley

Representing Hong Kong at the Asian Rope Skipping Championships was an unforgettable experience. Standing on the stage tested my limits, and although I was nervous before the routines, my teammates cheered me on, helped me stay calm and focused. Hearing our names called as the 12–15 Female Team Overall Champion was an unbelievable feeling—all our hard work and practice had finally paid off! Winning first place fills me with great pride, and I am excited to keep aiming higher on the international stage.

- 中國香港跆拳道少年搏擊代表
- 馬來西亞「武館跆拳道錦標賽跆拳道」金牌

6A NG Yat Hin

It was an unforgettable experience to represent the Hong Kong, China Taekwondo Team for my very first overseas match. Competing on an international platform brought new challenges, strengthened my mindset and growth as an athlete. Countless hours of training over the past year proved worthy after all. The power of perseverance and the attitude of never-giving-up, kept me going even when things were difficult. I am deeply grateful for the unwavering support from my school, coaches, friends, and parents!

- 中國香港U14男子五人足球代表隊成員
- 「2026年全國五人制足球青少年錦標賽（男子U13組）」冠軍（6戰全勝、攻入44球）

7B 葉朗希

作為全隊最年輕的球員，這次的經歷讓我獲益良多，體會到香港五人足球在這幾年不斷進步，已經有能力與國內頂級球隊一拼，未來我定會繼續努力訓練和競爭，為學校與香港爭光。

8E CHOI Shun Ki Ezra

I am truly honoured to be selected for the Hong Kong, China Representative Team and to compete in the 2026 National Youth Futsal Championship (Men's U13). We became champions, and I received the Best Goalkeeper award. I feel incredibly happy to take part in such a high-level tournament. The opponents were very strong. This experience motivates me to always keep working hard and improving.

Aesthetic Education Achievements

A-School Shines on the Global Stage

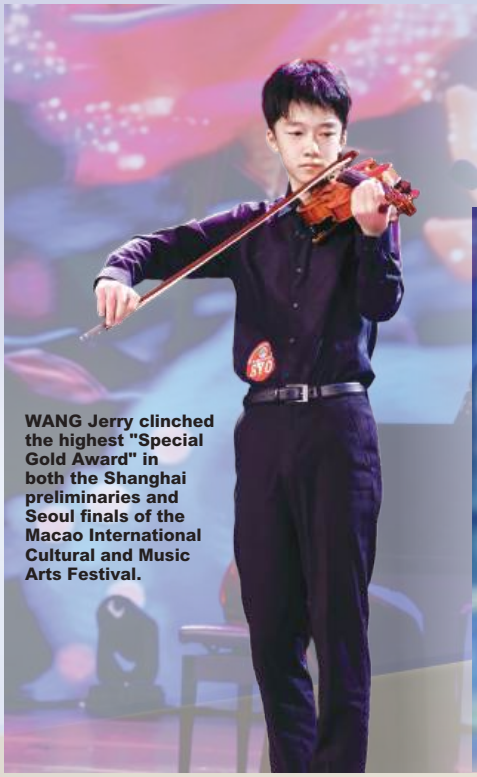
The remarkable achievements of four A-School students over the summer of 2026 stand as a powerful testament to the school's exceptional aesthetic education. From instrumental performance to ballet and music composition, these young artists have proven that A-School's commitment to holistic arts training produces world-class talent.

These stellar accomplishments are not merely individual triumphs; they represent the outstanding quality of A-School's aesthetic education. The school's rigorous yet nurturing environment provides the perfect platform for students to explore their artistic passions, develop technical mastery, and build the confidence to compete globally. By fostering such diverse musical and artistic talents, A-School solidifies its reputation as a premier institution for holistic arts education.

10E CHEUNG Wa Sing

"Winning the Special Grand Prize in Oxford was an unforgettable milestone. Performing Kabalevsky's difficult Sonata required immense focus and emotional depth. I am incredibly grateful to my teachers and A-School for their unwavering support, which gave me the confidence to shine internationally. This award is not just a trophy; it is a reminder that dedication and a genuine love for music can break boundaries. I will continue to strive for excellence and share the beauty of piano with others."

CHEUNG Wa Sing secured the Special Grand Prize at the Oxford International Piano Open Competition, performing at the Royal College of Music.



WANG Jerry clinched the highest "Special Gold Award" in both the Shanghai preliminaries and Seoul finals of the Macao International Cultural and Music Arts Festival.

8D WANG Jerry

"Earning the Special Gold Awards in Shanghai and Seoul is a dream come true. Wieniawski's Polonaise is technically demanding, and performing it on an international stage was both nerve-wracking and exhilarating. I want to thank my violin teacher and A-School for believing in me. This experience has taught me that true artistry comes from perseverance and heart. I am inspired to keep refining my craft and to use my music to connect with audiences around the world."

10E AU Yik Hei

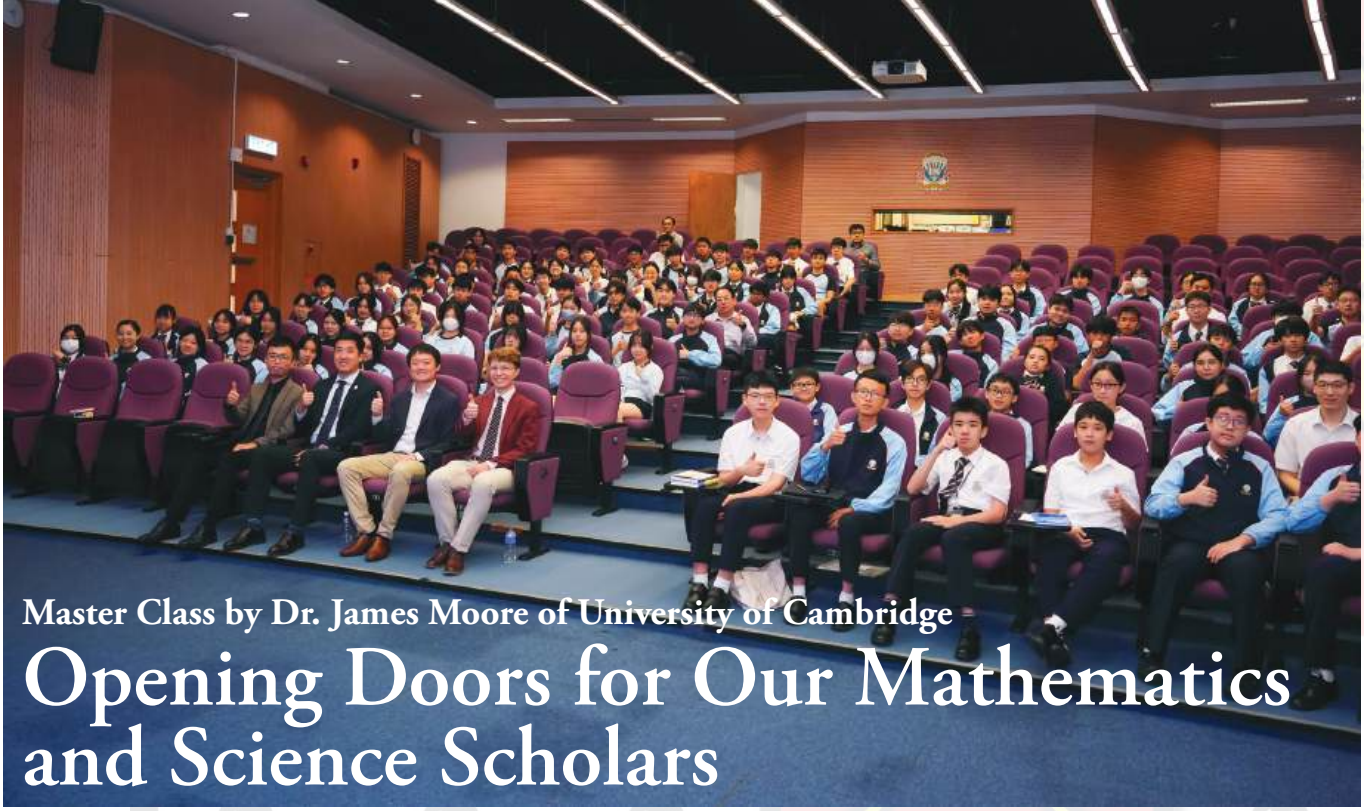
"Competing in Singapore, Taipei, and Malaysia was an unforgettable journey. I feel honoured to have received medals and scholarships, yet I value the growth and learning more than the awards themselves. The many days and hours of training taught me resilience and self-discipline. I also met many talented young dancers from different places, and seeing them perform inspired me greatly. Throughout the journey, I had a wonderful experience and tried my best in every competition. I will continue chasing my passion and striving for further progress ahead."

AU Yik Hei swept three major international ballet competitions across Singapore, Taipei, and Malaysia, earning multiple golds, bronzes, and prestigious scholarships.

9A KWONG Chung Chi Michelle

"Having my song recognized by CASH is an inestimable honour. I wrote My Voice - Your Score to express my genuine artistic identity, so witnessing it resonate alongside professional critics and audiences is deeply moving. Even though it is a challenge for me to balance my schoolwork with composing and performing, it is a journey I gladly undertake, because music is my deepest passion. I am immensely grateful, as I couldn't possibly have achieved my goals without the diverse platform that A-School provides for me to pursue my dreams. This recognition encourages me to keep writing authentic music and to continue growing as an artist."

KWONG Chung Chi Michelle had her original song accepted by CASH for the Golden Sail Music Awards, making her one of Hong Kong's youngest composers to receive this professional honour.



Master Class by Dr. James Moore of University of Cambridge

Opening Doors for Our Mathematics and Science Scholars

September 15, 2026

Dr. James Moore of Lucy Cavendish College, University of Cambridge

A-School recently had the honour of hosting a distinguished delegation from the Clarkson Institute alongside **Dr. James Moore of Lucy Cavendish College, University of Cambridge**. Designed to broaden horizons and challenge our top Mathematics and STEAM talent, the visit unfolded in two engaging parts. First, our Grade 10 and 11 DSE and GCE A-Level mathematics and science students attended an insightful keynote led by Dr. Moore, followed by an overview of international academic opportunities presented by the Clarkson Institute.

The visit concluded with an exclusive deep-dive session for our mathematically gifted students. Participants explored advanced topics, engaged in spirited intellectual discussions with Dr. Moore, and gained valuable guidance on navigating competitive pathways to world-class universities. At A-School, we remain steadfast in our commitment to empowering future global leaders and providing our scholars with extraordinary educational opportunities.

9D ZHOU Richard

The meeting and Q&A session with Dr. Moore was very insightful and informative. I had not heard of the Clarkson Institute before, and I am excited about the potential chance to experience life at Cambridge if I score well in the Clarkson Institute Mathematical Competition. During the Q&A session, he shared his experiences as a researcher, what led to his current career, and gave me new insights into the applications and limitations of AI in mathematics and physics.

10D LEI Yirui

This face-to-face meeting with Dr. Moore from Cambridge was an unforgettable experience and broadened my horizons. I had the chance to sit with Dr. Moore and several outstanding peers from different grades and discuss my future paths and ambitions with a professor from Cambridge University, one of the UK's and the world's most renowned universities. During this in-depth meeting, I learned a lot, including more details about the Clarkson Institute Summer program, information about Dr. Moore's career and research, and professional advice on my future goals. Overall, this was a meaningful experience, and I thank the school for giving me the valuable opportunity to join such an event, which shows strong recognition and support for my personal development and career path.

SECONDARY DIVISION
ATHLETIC MEET

Sep 28-29, 2026

After two days of exciting and intensive track and field events, the **19th Athletic Meet** successfully concluded with sweats, tears, smiles and laughter. The sun was shining, overheating the track but our athletes delivered great performances with determination. A lot of records and great performances have been achieved:

Record-Breaking Events:

- Girls A High Jump – 11A CHU Long Huen Colette
- Boys A Discus – 12B SIU Ka Yu
- Boys A High Jump – 12A CHAMBRIN Elwin Philippe
- Boys A Long Jump – 11D LEE Yik Hang
- Boys A 1500m Run – 10C WU Hoi Ming, 11C LAM Pui Kin
- Boys B 1500m Run – 10B LEUNG Pak Hey
- Boys B 800m Run - 10B LEUNG Pak Hey
- Girls B Javelin – 10C CHAN Sum Yau
- Girls B Long Jump – 10E YUAN Pei-yu
- Girls C 400m Run – 7C CHOW Wing Ching Kady
- Girls C 800m Run - 7C CHOW Wing Ching Kady
- Girls C Long Jump – 8C KWOK Cin Tung

Overall Boys: Da Vinci
Overall Girls: Aristotle
Overall Champion: Da Vinci
Cheerleading Champion: Aristotle

The Closing and Prize Presentation Ceremony commenced with the traditional marching competition among the uniform teams and the **HKAC and Scouts** got the Co-Champion with their great rhythm and uniformity displayed. We were also happy and honoured to have **Mr. LAI Chun Ho (黎鎮浩), the former Men 100m Run HK Recorder Holder** to share his inspiring story and experiences of joining the Asian Games and Olympic Games, what it meant to represent Hong Kong, China by showing the never-give-up attitude to strive for excellence.

10C CHAN Sum Yau

I'm honoured to take home Individual Champion and break the Girls B Grade Javelin record at our Athletic Meet. My Sunday morning practices finally paid off, every throw during these sessions helped me polish my form and build confidence. I really appreciate my coach's advice and all my schoolmates who cheered me on! This win fuels my motivation. I'll keep training hard to maintain my standard and continue to improve my javelin technique.

18th PRIMARY DIVISION ATHLETIC MEET 2026-2027

The **18th Athletic Meet** was held successfully at Ma On Shan Sports Ground on October 14, 2026!
From the moment the first race began, the sports ground was filled with excitement, encouragement, and true A-School spirit. Our students gave their very best — sprinting on the track, competing in field events, cheering passionately for their teammates, and supporting their Houses with full hearts. Whether they were competing or supporting from the sidelines, every student contributed to making the day special through their effort, teamwork, and sportsmanship.
A heartfelt thank you to our Guest of Honour, **Ms. LEUNG Kwan Yi (梁筠宜), current representative of the Hong Kong China Athletics Team**, for joining us and inspiring our students with her experience and encouragement.

香港短跑運動員梁筠宜向學生分享，鼓勵同學從運動中學會永不放棄的精神。

Congratulations to **House Kindness** by **winning the Overall House Champion** while House Faith and Justice won the Inter-House Cheering Competition and Inter-House Excellent Behavior Competition respectively. Thank you for being part of this special occasion.
Congratulations to all the award winners and, more importantly, to every student who took part and gave their best. Your effort and attitude are what truly make us proud.
Well done, students! Keep supporting your Houses, schoolmates, keep trying your best, and dare to challenge.

G4 Shanghai, China 中國上海

5C 孫慧欣

在上海的研習團中，最難忘的是跟當地學校的交流。我們交換禮物，參觀他們的校園，也走進他們的課堂。坐在別人的課室裏，才比較看得出另一所學校怎麼上課、同學之間怎麼相處。這趟行程最值得部分就是一起上課時建立的友誼。

A-School's excursion programme carried students beyond the classroom and across Mainland China, Asia and Europe — to Shanghai, Chengdu, Singapore, Kuala Lumpur, Madrid and London. Away from familiar routines, they discovered new ways of living, making and thinking, and began to see their own place in a wider world.

In each city, learning took place in the streets, studios, schools and communities around them. They traced how art and technology sit side by side in a Chinese metropolis, how tradition and green practice meet in Sichuan, and how a dense city such as Singapore holds many cultures together. In Kuala Lumpur they listened to local stories and joined community work; in Madrid and London they read architecture and everyday life, and set Chinese and European culture beside each other.

What the journeys shared mattered more than any single stop. Students used language where it is actually spoken, noticed how places care for their resources and heritage, and met with people who do not share their habits. Service, exchange and careful observation turned the trips into something that lasts: a sharper sense of other cultures, a clearer view of how places care for their environment, and a feeling of connection that students carry home.

The programme widened academic horizons. It also gave students a habit of learning in the world itself — and of carrying that world back into school.

Grade 5-6 Singapore 新加坡

6D CHAIR Yui Yui Calista

Singapore was enjoyable because the learning sat in the places themselves. The Merlion's name joins the old sea town with the lion city, and districts such as Little India and Chinatown showed cultures living side by side, and at River Wonders I learnt that animals deserve protection even when they are not endangered. I also learnt I could look after myself, work with others, and not drop out. That was the gain I am most proud of.

Grade 5-6 Kuala Lumpur, Malaysia 馬來西亞吉隆坡

7C LI Pak Kiu

The National Mosque was worth the visit because we learnt it from the inside, not only from photographs. Its clocks mark prayer, fasting and sunrise, and the building's story sits in that daily rhythm.

I also learnt that Malaysia's kingship rotates among nine rulers, a duty that calls for commitment. Mister Earnest kept teaching us on the bus. What stays with me is how many cultures share Kuala Lumpur, and how much there is to learn once you start noticing the difference.

PS EXCURSION

Grade 5-6 Chengdu, China 中國成都

6B 余晉彥

經過這次遊學，我才真正看見香港和成都有多不一樣。成都的食物大多很辣，城市也大，沿途卻很繁榮，和我熟悉的香港很不一樣。令我最記得的是成都大熊貓繁育基地。在那裏我也明白了保護珍稀動物的方法，以及牠們有多重要。這是整趟行程最難忘的部分。在研學團中，我學到的是另一個城市的生活習慣和文化，也是離開家人之後要懂得適應和照顧自己。自理能力強了一點，對成都的印象也深了很多。

Grade 5-6 United Kingdom 英國

6E WU Yi Shan

The day at Caterham and Copthorne showed me how learning looks in an English school, and how different that can feel from home. Lessons sat alongside time outdoors. In the woods we split into teams and built different items from materials we had collected. It was the part I enjoyed most. The task needed teamwork, clear communication and the patience to fix things when they went wrong.

What I gained from this trip was practice in working with others, a clearer sense of how another school day is put together, and the feeling of being more at ease in a place that is not my own.

Grade 5-6 Madrid, Spain 西班牙馬德里

7D CHAN Jalie

The day in Segovia was the part of the trip I enjoyed most. The paintings and the castle were beautiful, and looking at them made the history feel closer than it does in a textbook. Our guide showed us that Segovia is more than a small old town, and that its buildings still carry the heritage of the centuries before us.

We enjoyed the Spanish lessons. The activities were light and engaging, and I learnt a little more about my classmates while using the language. I got to see both the city and my own group a little differently. It was breathtaking, and it was also a journey of learning.

SECONDARY DIVISION

北京及天津研學團

了解北京與天津的歷史文化遺產，並增強學生的國民身份認同。

Melbourne, Australia

To learn aviation principles and flight operations, and explore aerospace careers through hands-on training with licensed instructors.

Seoul, Korea

To understand Seoul's environmental protection and sustainable development practices and its government's related policies.

In June 2026, the vibrant spirit of learning and exploration converged **as over 300 students** embarked on an unforgettable journey during the A-School Excursion Week. This extraordinary event transcended traditional boundaries, transforming classrooms into global portals of discovery and enlightenment.

Spanning across diverse destinations like **Beijing & Tianjin, Seoul, Kuala Lumpur, and Melbourne,** students delved into immersive experiences that went far beyond textbooks and lectures. Their educational odyssey encompassed cultural immersion, environmental stewardship, university visits, sister-school exchanges, aviation insights, railway network mechanisms, and artistic expressions.

The global classrooms also unfolded at prestigious events such as **the Venice Biennale Arts Exhibition, Cultural Exploration in Xinjiang,** and the highly competitive arenas of the **Microsoft Office Specialist World Championship 2026 and The World Scholar's Cup 2026 Global Round.** Each moment became a brushstroke in the canvas of their educational voyage, painting a picture of diverse perspectives and boundless opportunities awaiting in the global landscape of knowledge and understanding.

Kuala Lumpur, Malaysia

Pre-college taster programme, cultural activities, and community service — fostering learning, cultural appreciation, and social impact.

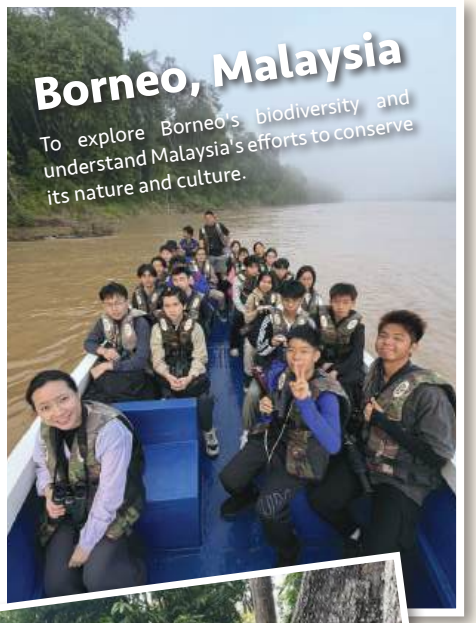
Singapore

To learn transportation system management and public transportation operations.

SS EXCURSION

中國敦煌

了解敦煌的藝術價值與絲路上的文化交融。



新疆維吾爾族文化研習交流團

United Kingdom

To visit UK universities and explore the country's heritage and culture.

A Summer in Italy: Visual Arts Students Journey Through Venice, Florence and Rome
威尼斯雙年展及意大利視覺藝術考察團

Our G7–11 Visual Arts students had a spectacular summer this year. They took on a journey to Italy — from July 16 to 26, 2026 — immersing themselves in **art, history and contemporary practice across Venice, Florence and Rome**. From the national pavilions of the **Venice Biennale** to the masterpieces of the Renaissance, the tour broadened students' global perspectives through direct engagement with artworks and architecture, bridging classroom theory with lived experience.

A monumental highlight of the tour was the exclusive opportunity to be accompanied by **Ms. Angel Hui Hoi-kiu (許開嬌),** who joined fresh from her prestigious role as a featured representing artist for Hong Kong at the 61st Venice Biennale. Students gained unparalleled, firsthand insights into the global art world as Miss Hui shared her personal creative journey and professional expertise directly on-site.

Throughout the journey, students documented their experiences through sketches and journals, gathering primary research to inspire the APEX Visual Arts Annual Show 2027. Guided discussions along the way developed their visual literacy and advanced critique skills, cultivating the critical thinking that will shape their future work. It was a summer of discovery, inspiration and artistic growth — and one our young artists will long remember.

8D NG Chung Him

I am grateful for the teachers and the tour guide taking us to so many different places with different kinds of artworks while still giving us a chance to visit historical sites during this tap to different cities. What struck me most on this journey was the realisation of time's infinite drift — as I looked at and felt the artworks, and the meaning behind them, during our visit to the 2026 Venice Biennale.

11B 毛芷霖

這次旅程，我最深的感受是許開嬌老師帶領我們前往威尼斯雙年展中的香港館，她的作品融合了威尼斯和香港的特色，讓我學習到了以後創作的思路。

2026 World Scholar's Cup (Seoul Global Round)

Scholars from the Secondary Division delivered an extraordinary performance at the **2026 World Scholar's Cup (WSC) Seoul Global Round,** held from July 23 to 30, 2026. The World Scholar's Cup is a worldwide competition that celebrates the joy of learning, motivating students from diverse backgrounds to explore new strengths, hone new skills and foster a sense of community among future scholars and leaders worldwide.

Our young scholars achieved record-breaking results, bringing home 6 major trophies, **76 gold medals and 55 silver medals.** The Senior Division proved a powerhouse, earning **1st Place Champion** in the Scholar's Bowl, 3rd Place Overall Team, 4th Place in the Team Challenge and 4th Place in Team Debate, while one scholar ranked **9th Overall Champion Scholar** globally — with multiple top global individual rankings in the Scholar's Challenge. Our Junior Division rising stars also shone, securing 7th Place in Collaborative Writing, top global placements in the Scholar's Bowl, **multiple gold awards in Writing and Debate, and standout leadership in History and Art.**

We have high hopes for our young scholars as they continue to strive for excellence and prepare diligently for the upcoming global round of competition, ultimately aiming for the Tournament of Champions at Yale University in November 2026. Congratulations to all our awardees — we wish them every success in the next stage of their journey.

2026-2027 開學禮
SCHOOL REOPENING CEREMONY

香港教育城主席李漢祥先生，MH致辭勉勵學生。

The School Reopening Ceremony marked the official beginning of a new academic year and reminded us of the importance of setting fresh goals.

We were honoured to welcome **Mr. LEE Hon Cheung, Armstrong, MH, Chairman of Hong Kong Education City** and **Mr. LEUNG Sing Lung, Edric, JP, District Officer (Kwai Tsing)**, as our Guests of Honour. Their inspiring speeches encouraged students to embrace challenges with confidence and strive for excellence in all pursuits. During the ceremony, the **appointment ceremony for the third term of the School External Advisory Committee** was held on stage.

The ceremony also served as an excellent opportunity to recognise our graduates who achieved outstanding results in public examinations. Their hard work, perseverance and commitment to learning truly reflected our school's spirit of excellence. They served as inspiring role models for all students.

葵青民政事務專員梁乘龍先生，JP擔任主禮嘉賓。

王國強博士卓越升學獎學金及王錦輝助學金代表金城營造集團王沛芝女士進行捐款支票移交儀式。

愛比施慈善教育基金主席黃林趣玲女士進行捐款支票移交儀式。

本校校外顧問黃子文先生進行捐款支票移交儀式。

捐款人高文傑先生代表3B游康銘家長進行捐款支票移交儀式。

捐款人徐燕琴博士頒發「國際、洲際及全國優秀運動員獎學金」。

本校校外顧問沈慧林教授，JP向兩位公開試狀元贈送陀飛輪手錶以作表揚。

本校校外顧問胡臻霆先生(右一)頒發「胡臻霆生物及醫療科技升學獎學金」。

家長教師會成員進行捐款支票移交儀式。

新一屆校外顧問上台接受委任狀。

Teacher Commendation Scheme

To celebrate the remarkable achievements of our students in the 2025-26 academic year, PS & SS Divisions held year-end Convocations to honour their success! We are extremely delighted to have **Prof. LEUNG Wing Cheung, William, GBS, JP (梁永祥教授, GBS, JP),** Chairman of Legal Aid Services Council & Advisor of Our Hong Kong Foundation, to grace the SS Convocation and **Professor YAM Cheuk Sing, Jason (任卓昇教授)**, Professor, Department of Ophthalmology and Visual Sciences, Faculty of Medicine, CUHK, attended the PS Convocation and presented prizes to awarded students.

Primary Division	Secondary Division
LEE Ka Wing, Kelvin	LI Li, Mercedes
CHAN Wai Ngai, Steve	WONG King Wai, Tommy
CHEUNG Hoi Tung, Bella*	Dr. CHAN Wai Kai, Benjamin
ROBLES, Arvin	MAK Ho Nam, Eric
FU Lam Lam, Fanny*	CHAN Hau Yin, Christine
CHOY Fu Chee, Jeff	YEUNG Siu Bo, Ashlee*
Dr. CHAN Wai Kai, Benjamin	CHAN Lai Kwan, Katherine
WONG Yin Chun, Sebastien	LAM Yuk Tsun
PRADHAN, Winnie	CHAN In Lam, Tina*
LIU Lang, Emily	FAN Yu Ong, Cally

Ranked by the number of votes received
*Commended Teachers under the 31st Teacher Commendation Scheme

Prof. LEUNG Wing Cheung, William, GBS, JP (梁永祥教授, GBS, JP) graced the SS Convocation and delivered an encouraging speech.

Professor YAM Cheuk Sing, Jason (任卓昇教授) attended the PS Convocation and presented prizes to awarded students.

2025-26 HERO FEAST

The Hero Feast Cum Sports & Arts Scholarship Presentation Ceremony 2026 was successfully held this July, marking a grand celebration of our students' remarkable achievements across diverse fields. This annual highlight not only recognizes excellence in academics, arts, music, performing arts, and sports, but also embodies the spirit of Strive for Excellence that defines our A School community.

We were deeply honored to welcome **Mr. TANG King shing, GBS, PDSM, Chairman of the Board of Directors of the Hong Kong Sports Institute (香港體育學院主席鄧竟成先生, GBS, PDSM)**, as our Guest of Honour. **Mrs. Bally Wong, Chairman & Director, ABC Education Foundation (愛比施慈善教育基金創辦人及主席黃林趣玲女士)** also joined the stage to present scholarship to awardees of the ABC Education Foundation Sports and Arts Scholarship.

香港體育學院主席鄧竟成先生致辭勉勵學生。

黃林趣玲女士向獲獎學生頒發獎項。

Celebration luncheon was held after the presentation ceremony, where awarded students shared their joy and success with their teammates and coaches. The atmosphere was warm and lively, with students expressing heartfelt gratitude to those who had supported them along the way — coaches who pushed them to improve, teammates who stood by them through every training session and competition, and teachers and parents who cheered them on.

Hero Feast offered a meaningful opportunity for the school community to come together, celebrating not only individual achievements but also the collective effort and team spirit behind every success.

總校長陳偉佳博士, MH 向黃林趣玲女士致送紀念品 。

頒獎典禮後，獲獎學生與教練導師共進午餐，分享過去一年的收穫與喜悅。

6C KWAN Ching Yi

The Hero Feast was a joy to watch so many talented schoolmates being recognised on stage for their hard work and achievements. Standing on that stage was an honour I will never forget. This ceremony reminds us that every effort counts. I hope to see even more heroes from our school shining on stage in the future, and I hope we can all continue to strive for excellence and bring more glory to our school.

10D FONG Pak Chun

It is my great honour to be an awardee at the Hero Feast. As a volleyball player, I have learnt that success never comes alone. Every achievement is built on teamwork, persistence and the support of teachers and teammates. This award is not just for me, but for everyone who has walked this journey with me. I will keep striving on and off the court, carry this spirit forward, and continue to give my best for our school.

學生得獎作品在約書亞堂展出。

小學集誦隊演出作品《拼圖》，背景由沙畫師即場創作，聲畫交融，為觀眾帶來一場別開生面的視聽饗宴。

林曉鋒教授太平紳士伉儷蒞臨主禮，向獲獎學生頒發獎學金。

學生林品佑在古箏的伴奏下，朗讀得獎作品《寫給十年後學弟學妹的信》。

禧年墨旅 Footprints In Time
Madam Daphne Lam Literature Award
林馬思蘊文學獎 2026

灼見名家傳媒社長及行政總裁文灼非先生在頒獎禮上致辭。

為深耕校園文學教育，培養學子文學素養，年度校園文化盛事——**林馬思蘊文學獎頒獎禮活動**已於7月8日圓滿舉行。本年度主題為「**禧年墨旅**」，學生們磨墨練筆，共同印證學校20周年校慶的豐碩成果。

林馬思蘊文學獎由林曉鋒教授太平紳士伉儷善心捐贈、鼎力支持設立，是專為學校打造的年度專屬文學獎項，於2024年開始從未間斷，為熱愛文字、熱愛創作的學子搭建展示自我、交流學習的專業平台，讓文學種子在校園落地生根、茁壯成長。灼見名家傳媒社長及行政總裁文灼非先生亦蒞臨主禮。本次活動集優秀作品展覽、師生文學展演、年度頒獎典禮於一體，氣氛溫雅莊重、文韻濃厚，充分展現學子的文學風采與人文素養。

本年度頒獎禮內容豐富、層次多元，除備受矚目的頒獎典禮外，學校每年皆精心籌辦盛大的學生得獎作品主題展覽，成為活動一大亮點，學校特別誠摯邀請全體得獎者家長親臨現場，觀賞孩子的創作成果，一同見證學子在文學路上的點滴成長與閃亮蛻變。

總校長陳偉佳博士, MH向林曉鋒教授太平紳士伉儷致送紀念品。

PBL Showcase Day 2026

PBL Showcase Day 2026 brought parents, students, teachers and the wider school community together on July 4, 2026, under the theme **"A Dream Come True — Elevating Everyday Life".**

Design Thinking has long anchored Project-based Learning in the Secondary Division, and remains firmly in place across Grades 5 and 6 for a second year. This continuity deepens learning, with students growing in the same way of thinking as their problems grow larger.

Grades 5 and 6 carried the habit from care for the environment to care for healthy ageing. Secondary projects followed the same thread — empathy first, then a design that makes an ordinary part of the day easier, as in Grade 9's "Bite 360".

The theme asked students to begin a better life in ordinary places. When we learn and build as one, we prepare the next generation for a brighter, more connected world.

香港理工大學食品科學及營養學系副教授方家熙教授於開幕禮致辭，其團隊亦指導小學部PBL活動。

3D LAI Pui Nga

My group presented on ocean habitats, creating colourful mind maps and charts to organise our ideas. We learnt to share ideas, listen to teammates and work together so everyone had a part to play. Seeing our work come together on presentation day made me proud. I can't wait for this year's PBL — to learn more, cooperate well, and share our ideas with confidence.

6D CHAN Yik Hei Hazel

Working on our social entrepreneurship project helped me understand the needs of different people in society. To support elderly people with dysphagia and diabetes, we used the design thinking model — understanding needs, brainstorming solutions, and building prototypes step by step. Through hands-on food experiments and our professor's guidance, we refined meal plans meeting dysphagia and nutrition standards.

10D YAU Chi Hei Hailey

PBL taught us the importance of empathy in understanding our users' needs. Interviewing people from diverse backgrounds gave us insight into the struggles of the invisible workforce—a community we had long overlooked. Our interview with a taxi driver was especially moving; revealing challenges faced by we had never considered. This inspired us to design WayWell, an app that addresses physical discomfort, loneliness, and unstable income. Along the way, we also sharpened our problem-solving and critical-thinking skills.

APEX

Visual Arts Annual Show 2026

The APEX Visual Arts Annual Show 2026, organised by the school's Visual Arts Department from both Primary and Secondary Divisions, **welcomed over 5,000 visitors** during its run at **The Pao Galleries in Wan Chai** from June 3 – 8, 2026. The exhibition featured works not just by our G1–12 students and alumni, also invited kindergartens, and seven guest artists.

From the playful energy of "Balloon Dialogues" and "Tape Talk" to the tactile poetry of "Muddy Dreams" ceramics and the mature visions of our G12 graduation portfolios, every artwork offered a different way of seeing the world. Together, our students, alumni, kindergarten partners, and professional guest artists transformed the galleries into a collective landscape of possibility—where creativity became a language for imagining tomorrow.

Special thanks go to our collaborating artists—Terrence Chan, Ting Yu, Fong Wing Lam, Tse Chun Sing, Lau Hong Lam, Hui Hoi Kiu, and Fanson Lam—for opening new creative pathways for our students.

Though the exhibition has ended, the inspiration it sparked will continue to illuminate our students' artistic journeys.

6A CHENG Pak Shun

I am thrilled to win the Mini Turner Prize! Standing in front of my artwork, *My Face in 2046*, at the APEX show made me feel both happy and honoured. It was a rewarding moment that boosted my confidence. I want to thank my family and teachers for supporting me. This experience encourages me to stay brave and keep exploring art!

LEE Ka Chun (Class of 2026)

As a student who has studied art for more than a decade, my dream has always been to hold an exhibition to showcase my artworks. I am deeply grateful to my visual art teachers and the school for giving me this invaluable opportunity to realise this long-awaited ambition. The APEX Visual Arts Annual Show 2026 is a milestone in my life and an event that celebrates art in the community. I hope this spirit and energy will continue to inspire prospective students.

香港藝術發展局藝術教育主席陳雪儀博士(左二)及本地藝術家許開嫣(右二)擔任開幕禮主禮嘉賓。

2025-26 Graduation & Grade 6 Promotion

The Graduation Ceremony and High Table Dinner were memorable occasions that celebrated the achievements, growth and dedication of our Grade 12 graduates.

The High Table Dinner was honoured to have **Mr. CHEUNG Wai-wah, Kelvin, PMSM, Regional Commander of New Territories South, officiate** at the ceremony together with **Mr. YIP Cheung-chun, MH, Member of Kwai Tsing District Council.** Graduates spent a pleasant evening with their classmates and teachers before moving to a new stage of learning.

The next day, at the formal Graduation Ceremony, graduates stepped onto the stage to collect their graduation certificates, marking the completion of their secondary education at A-School. Valedictorians and graduate representatives presented heartwarming gifts to the school, accompanied by reflective speeches and an ingenious artwork as a symbol of farewell.

香港警務處新界南總區指揮官張惠華先生, PMSM於高桌晚宴致辭勉勵畢業生。

葵青區議員葉長春先生, MH蒞臨頒獎。

沙田民政事務專員李愷嵩女士, JP(左三)及校外顧問蔡加敏女士(右二)擔任升中高桌晚宴主禮嘉賓。

校董李秀慧女士, JP擔任升中禮主禮嘉賓。

The Grade 6 Graduation and Promotion Activities celebrated our Class of 2026 cohort's achievements, growth, and readiness for the next stage of learning. The activities began with the High Table Dinner, where we were welcomed **Ms. LEE Hoi Lun, Leonie, JP, District Officer (Sha Tin),** as our Guest of Honour, alongside **Ms. Carmen CHOI, External Advisor**, bringing together principals, teachers, students, parents, and guests to honour outstanding achievements and reflect on primary school memories.

The Promotion Ceremony followed, with **Ms. LEE Sau Wai, Cecilia, JP, our School Manager,** officially conferred the promotions. Heartfelt speeches by student representatives highlighted the gratitude, resilience, and confidence they had developed throughout their six years at A-School. These memorable occasions not only honoured the students' primary school journey but also strengthened the bonds within our A-School community as they prepared to embark on their Secondary Division journey.

Thank you to everyone who offered suggestions and feedback, your input helped us refine our year plan and develop better welfare ideas. We are also grateful to everyone who took part in the voting. To those who trust us, we promise to fulfil our pledges and won't let you down, and to those who didn't, we'll prove our commitment through our actions. Let us bud and bloom together this year!

Head Prefects

11A 劉仲朗

歷經無數訓練與考驗的淬鍊，我很榮幸能擔任今年的總領袖生。在領袖生團隊這五年的經歷，讓我深刻體會到互助與合作的意義。未來一年，我會帶著熱情與同伴們並肩作戰，攜手共寫校園的輝煌新篇章！

11A TANG Ho Yui

Having served as a Prefect for nearly seven years and taken on various leadership roles, this opportunity truly means a great deal to me. I promise to lead with integrity, support my fellow students, and work closely with our service and leadership teams. Throughout the coming year, I will strive to remain consistent, listen carefully, and uphold our school's values in everything I do.

6D CHAK Paak Shun (Chairperson of Student Union)

Taking on the role of the student union Vice Chairperson last year taught me the power of teamwork. Now, as your Chairperson, I am honored to serve the A-School family. Let's bring our school theme to life: "Be Smart, Choose Wisdom" by lifting each other up. Let's make this an unforgettable year together!

Head Prefects

6D TANG Ho Yeung

I have come to realize that maintaining order is not merely about enforcing rules, but rather about ensuring that every schoolmate can learn in a safe and joyful environment. "Helping others is the source of happiness." Whether it is picking up dropped books or helping up a schoolmate who has tripped, seeing the smiles on their faces fills my heart with genuine joy.

6E CHAN Wing Sum

This position aligns perfectly with my goal of helping to build a positive school culture. It will also help me overcome my fear of public speaking, learn how to share responsibilities with others, and become a more confident leader.

Strengthening Global Ties:
A Warm Welcome to Headmaster Ceri Jones

On September 23, 2026, our school community was honoured to welcome **Mr. Ceri Jones, Headmaster of Caterham School (London, UK),** for a memorable visit that reinforced the strong bond between our two institutions. This visit follows the signing of a Memorandum of Understanding (MOU) in January 2026, when our delegation travelled to London to formalise our partnership—marking a significant milestone in our commitment to global education.

Campus Tour & Assembly
Student ambassadors Samantha Chai, Heison Wong, Charlotte Tong, and Wil Tam led a tour of the school, sharing their daily experiences and immersion stories from Caterham. During assembly, Mr. Jones inspired students with a powerful message: learning is about asking great questions, not just finding the right answers.

Strategic Discussions
Chief Principal Dr. Benjamin Chan and senior leadership from both divisions held productive talks with Headmaster Jones on future collaboration, covering teacher professional development, student exchange & summer immersion, AI in learning and teaching and pastoral care & student well-being.

Looking Ahead
Our sincere thanks to Headmaster Jones for his visit. We look forward to deepening our partnership and creating more exciting opportunities for our students and teachers!

《閱讀．夢飛翔》
湖南教師交流團

憑藉對閱讀教育的深耕與熱忱，本校**小學部早前榮獲第三屆《閱讀．夢飛翔》「傑出閱讀學校」大獎。**這份肯定，也促成了9月11日下午一場意義非凡的港湘交流。

當天，我們接待由**《閱讀．夢飛翔》文化關懷慈善基金組織的「湖南教師交流團」**。團內集合了約三十位來自湖南各地的教育部領導、校長及閱讀教育骨幹教師，與我校團隊進行深度參訪與交流。

交流團在圖書館主任的導賞引領下，參觀了創科中心、體育館、游泳大樓等校園特色設施，並重點走訪了這座獲獎的學校圖書館。

在壓軸的經驗交流座談會上，雙方圍繞閱讀推廣策略與教學實踐展開了熱烈討論。

京港學生交流
北京育才師生訪校

10 月 8 日，我校熱情接待**北京育才學校師生代表。**早上於約書亞堂舉行歡迎儀式，隨即安排兩校同學結對配對，展開一整天的校園體驗。

來訪的七年級、九年級同學跟隨結對夥伴進入對應班級，體驗中文、英文、綜合人文、體藝等科目的教學，親身感受香港課堂的學習氛圍與教學模式。課堂之中，兩地同學互相回應、共同參與課堂活動。小息時段同學們交流尤為熱烈，圍坐暢談兩地校園生活、學習方式與風土文化，彼此分享見解，談笑甚歡。

短暫的相處打破地域隔閡，讓京港青少年拓闊眼界，結下珍貴情誼，搭建起兩校溝通的橋樑，為未來進一步的交流合作打下良好基礎。

Igniting Innovation:
A-School STEAM Innovators Shine!

Our Primary STEAM teams recently achieved brilliant success across two major regional events.

2026 AI Innovators Summit
香港 AI 創科高峰會

Theme: Human-Centered Solutions through Design Thinking

Two teams presented design-thinking solutions to university academics and educators. They not only won the **GRAND Award, a Gold Award and a Bronze Award**, but remarkably secured personal financial backing from an esteemed professor to continue their project! Soon, they will take their innovation dreams to the global stage at the EduTech Conference in Singapore.

學與教博覽2026 InnoSTEAMer展區

Theme: Algorithm Simulation & Architectural Projection Mapping

Our PS students hosted two incredible booths for global educators. Grade 6 students wowed all visitors by visualizing complex algorithms through DIY AI simulations. Meanwhile, a Grade 4-6 team delivered a stunning live projection mapping show on a 2-meter-tall model—the largest ever built for a K-12 school project!

6C LAU Ho Yeung

It was an unforgettable and genuinely fun experience. We learnt to use art-and-technology tools like generative AI, an AI chatbot, and professional light-sculpture software to create our own DIY designs. We also presented our learning outcomes at the Learning & Teaching Expo 2026, which made us feel proud and motivated to improve.

6E CHAN Wing Sum

Seeing teachers struggle with so many assignments sparked my empathy and turned my anxiety into determination. Building the homework robot was like an emotional rollercoaster. At first, endless coding bugs and glitched submission logs made me feel frustrated and defeated. But whenever I solved a tricky issue, relief and excitement surged through me. The experience I gained from the summit shows that hard work truly pays off.

心繫家國
Love Our Home
Treasure Our Country

第二屆粵港澳大灣區青少年模擬政協活動

HKBUAS

由本校主辦的《第二屆粵港澳大灣區青少年模擬政協活動》於2026年7月13至16日順利舉行，是次活動獲教育局列為「心繫家國」冠名活動。本屆首次由香港任東道主，**匯聚粵港澳24支隊伍、近200名師生**，涵蓋7所香港、2所澳門及11所內地學校。

在活動中，粵港澳三地的同學模擬政協委員，圍繞「十五五」規劃與民生議題協商建言，並聽取政協委員講座。此外，他們也考察香港地標，並參與「一國兩制」分享會，與九龍城民政事務專員蔣志豪及區議員交流。重頭戲是最後一日的提案展示、頒獎禮及閉幕式，由**教育局副局長施俊輝博士，JP、政制及內地事務局副局長胡健民先生，MH，JP**主禮。施俊輝副局長在發言中更形容活動為一次「真實的學習」。典禮焦點為旗幟交接，在胡健民副局長見證下，**總校長陳偉佳博士，MH將旗幟移交第三屆主辦方澳門培正中學高錦輝校長**，象徵薪火相傳。

我校更獲得了「最佳演繹獎」銀獎，同學們都表示獲益良多。活動加深了大灣區青年對國家制度與香港治理的理解，促進三地交流友誼。隨著旗幟移交澳門，三地輪流主辦傳統將延續下去，為更多青年開啟認識國情、建言獻策之門。

第一天：報到與活動預備

來自粵港澳大灣區近200名師生抵達本校，參加預備大會及出席歡迎晚宴。

全國青少年模擬政協活動創辦人張梧華先生在歡迎晚宴致辭。

第二天：界別協商與專家講座

各參會小組分別於多個課室進行界別協商會議，每間會議室由同一界別的三個提案小組組成。學員模擬政協委員角色，從所屬界別立場出發，圍繞”十五五”規劃、民生建設等社會焦點議題深入討論。會議採用”三分鐘提案陳述、多方提問及回應”的協商模式。

全國政協委員講座分別由港專學院校長陳卓禧教授分享愛國主義教育理念及政協履職實踐，以及精英匯集團創辦人梁賀琪博士分享推動內地與港澳青年融合發展的經驗與願景。

參會師生於校內享用香港傳統盆菜宴，親身體驗香港地道飲食文化。

第三天：戶外研學與社區探索

參會師生走出校園，展開香港戶外研學與社區探索之旅。

九龍城民政專員及一眾九龍城區議員舉行「『一國兩制』在香港的偉大實踐分享會」，向參會學生深入講解地區治理與民生服務的實務運作。

第四天：成果展示與閉幕儀式

各組別分別於演講廳、約書亞堂及中學舞蹈室同步進行提案展示，並接受評委點評與互動問答。

大會總評審、全國政協委員譚允芝資深大律師，SBS，JP高度讚揚各隊表現，強調此類活動對培養青年家國情懷與社會責任感具有深遠意義。

教育局副局長施俊輝博士，JP形容本屆活動為「真實的學習」，勉勵學員關心國家發展。

最終三甲隊伍登上禮堂舞台，於頒獎禮及閉幕式上進行提案展示。

主禮嘉賓教育局副局長施俊輝博士，JP（左一）政制及內地事務局副局長胡健民先生，MH，JP（右一）見證並主持旗幟交接儀式。活動旗幟由本屆組委會主席陳偉佳博士，MH（左二）移交至第三屆主辦方——澳門培正中學校長高錦輝博士（右二）手中，象徵這項極具意義的青年盛事薪火相傳，延續至澳門，為下一屆活動揭開嶄新篇章。

學生接受來自大灣區多家傳媒採訪，分享參與本屆模擬政協活動的收穫與感悟。

新華網

香港電台

深圳衛視

10B 温青琳

參加模擬政協，我認識到兩地並非缺乏人才，而是專業資格不互通，導致資源錯配。因此，我與團隊共思方案，關係更融洽，並結識內地朋友，學會相處。最難忘的是共同研究與排練演講的時光，雖然辛苦，卻充實快樂。

10C 陳品喬

模擬政協交流活動讓我獲益良多。它不但使我更關注大灣區發展，也讓我認識到香港與內地往來便利下仍存不足，並發現許多發展機會。此外，活動既要準備方案，也讓我了解內地與香港同學關注的不同方面，從而增廣見聞。

11A 王朗妮

參加模擬政協時，我們先研討香港畢業生就業困境，繼而結合灣區人才政策策劃方案。與各校同學交流時，彼此就方案落地性提出批判建議，從而鍛鍊思辨。此外，活動不僅拓寬視野，更讓我體會灣區青年共謀發展的意義。

11D 吳悅嘉

參加模擬政協令我獲益良多。首先，協商提案時，我認識了各地同學，學會溝通合作，並感受大灣區青年的連繫。其次，我更深入了解國情與挑戰，體會政策制定需平衡利益，並非紙上談兵，因此更關注社會。

✯ SECONDARY DIVISION

Dr. CHEN Chen, Jason

Science Teacher

I am from mainland China, and I have been in Hong Kong for almost 20 years. I studied physics and received my PhD in theoretical physics from HKU.

My first job after graduation from HKU was actually in the financial sector, serving as a quant analyst for a macro hedge fund first and then at the research desk of Deutsche Bank.

I like anime and manga. My favorite characters are Hatsune Miku and Reze (from Chainsaw Man). And I strongly believe knowing their stories will be inspiring for us to learn physics.

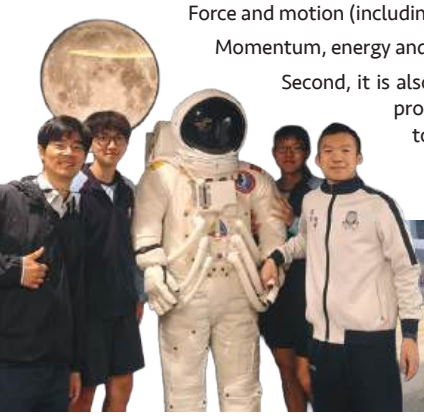
Here, I really want to take this opportunity to talk about how to study physics. For secondary school physics, we have seven very thick textbooks. If I had to summarize all of secondary school physics in one word, that word would be "vector". One hurdle that many students encounter when they migrate from G9 physics to G10 physics, is the use of vector.

It is a new mathematic structure we have had zero experience with. But just like when we learnt integers in our primary school, once a new mathematic structure is founded, we will try the arithmetic, i.e. addition, subtraction, multiplication and division on them. For vectors, we do the same thing, and the whole book of Mechanics follows the same story.

Force and motion (including projectile motion and circular motion), is about vector addition and subtraction.

Momentum, energy and moment of force, are about three types of vector multiplications.

Second, it is also about the way of thinking. We are so accustomed to the stereotype of "one formula for all" in problem solving, e.g. we choose a correct formula, and then plug in the numbers given by the question to get an answer. But when the system becomes complicated, we should think in terms of system of equations. How many unknown variables are there in the system? Are they governed by conservation laws or by Newton's law directly? Are they subject to certain constraints?



KONG Ling Wing, Cannes

Academic Coordinator and Head of Humanities Faculty, IH and GE Panel

Hello everyone! As a geography teacher, I love the world far beyond maps, diagrams, and textbook definitions. I'm genuinely fascinated by the natural world—its rugged landscapes, complex climate systems and unforgettable trails. Geography isn't just something I teach in the classroom; it's a passion I carry with me every day.

Outside of school, I'm almost always outdoors. Running and trekking are my favorite ways to explore the world. Over the years, I've been lucky enough to complete full marathons across Asia, including Hong Kong, Japan, Korea, and Singapore. Each race brought its own terrain, atmosphere, and challenge. On the trekking side, highlights like Mount Siguniang, the Tour du Mont Blanc, and Peru's Andes are unforgettable, but Hong Kong's iconic 100 km MacLehose Trail still holds the top spot for me. Whenever the weather is nice on holidays, I love taking my dog along to explore different hiking trails.

There's something special about reaching the top of a mountain pass after days of hard climbing. It teaches lessons that no textbook can. Distance running and trekking have helped me build resilience, patience, and humility. There were moments on the trail when I felt exhausted, the incline seemed endless, and giving up felt tempting. But pushing through those physical and mental limits showed me a simple truth: our potential is much bigger than our doubts.

Geography is about understanding the world, but these journeys also helped me understand myself. That's the mindset I hope to share with my students here at A-School. Learning—just like running a marathon or trekking in the mountains—is a long journey. It includes steep climbs, challenges, and setbacks along the way. My biggest wish is that you discover your own passion, whether it's in academics, sports, arts, or exploring nature.

Stay curious, embrace every challenge, and never stop trying—because believing in yourself is where every great journey begins. Keep moving forward, one step at a time!

CHEUNG Hoi Tung, Bella

Mathematics & STEAM Teacher

Hello everyone! I am so happy to share a piece of my journey with our wonderful A-School family. As a STEAM and Mathematics teacher, I am curious, open-minded, and always eager to explore new ideas—both inside the classroom and out in the wider world!

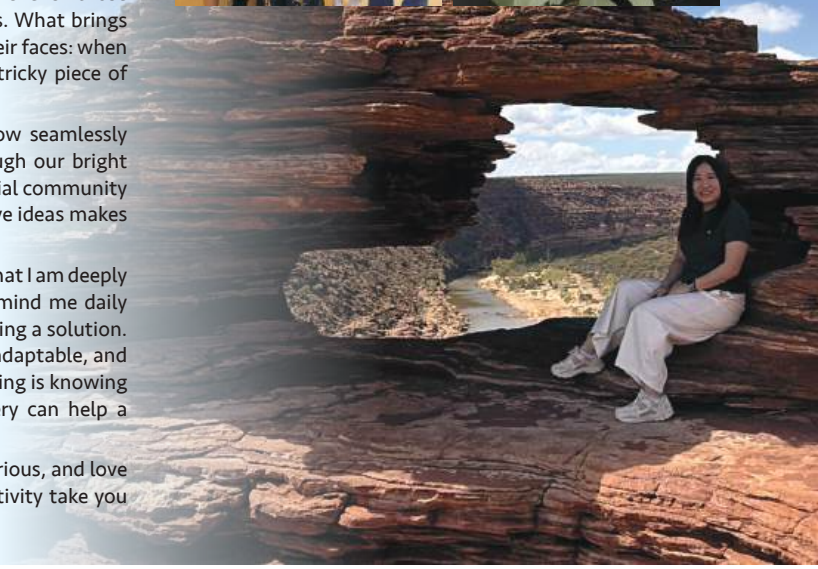
When I am not in school, you will often find me travelling to new destinations or spending time with animals. Exploring different cultures keeps my mind fresh and open to new perspectives. I also have a deep love for animals; their simple joy never fails to brighten my day. These passions fuel my teaching style as I bring real-world adventures and practical examples into my lessons.

The highlight of my school day is sitting down and talking with students. I cherish those heartwarming chats where we brainstorm ideas or discuss their dreams. What brings me the greatest joy is seeing that priceless look of pure satisfaction on their faces: when they solve a tough math question through teamwork, troubleshoot a tricky piece of code, or watch their creative ideas come to life in a STEAM project.

What I find most truly captivating about being part of A-School is how seamlessly our school blends academic curiosity with genuine care. Walking through our bright hallways and hearing eager student greetings reminds me of what a special community we have built together. The willingness of everyone to embrace innovative ideas makes our campus an inspiring hub of constant learning.

Working closely with our students has also taught me a profound lesson that I am deeply grateful for: the power of keeping an open, resilient mind. Children remind me daily that every mistake in a math problem is just an exciting step toward finding a solution. They have taught me to welcome unexpected results with a smile, stay adaptable, and remain a lifelong learner at heart. What keeps me motivated every morning is knowing that a warm conversation, an encouraging word, or a shared discovery can help a student build confidence and achieve their goals.

To all our dear students: my door is always open! Keep exploring, stay curious, and love the world around you. I can't wait to see where your curiosity and creativity take you next on this A-School journey!



傅琳琳

中文老師及圖書館老師

很多人問我，為何從教多年依然充滿活力？秘訣是把每次挑戰都當作有趣的探險！從幼稚園轉到小學十年來，我深信「學習可以很好玩」。我喜歡把課室佈置得充滿色彩，帶孩子唱歌跳舞、玩轉音樂馬拉松。今年，我接手了充滿挑戰的圖書館工作。

在圖書館，我和家長義工們種下「狀元樹」，設計了「追光· 尋寶」計畫。看着孩子們拿護照集章、掛上葉子書籤、抽盲盒時眼裏的光芒，就是我最驕傲的時刻。我想說：只要找到對的光，每個孩子都能發光。

親愛的同學們：你不一定要很厲害才能開始閱讀，但只要開始閱讀，就一定會變得很厲害！讀書不僅為考試，更是為了讓你成為有趣、勇敢、有溫度的人。

我很榮幸在A-School這個溫暖的大家庭，感恩學校對我的栽培與信任，給我發揮特長的舞臺；感恩家長們的大力支持，你們是我前行的動力！我會繼續做孩子們閱讀的引路人。讓我們一起在書海追光而行，尋寶而樂吧！

梁歐陽美蓮劇場
Leung Au Yeung May Lin Theatre

本校一直致力為學生提供全方位發展的優質環境，其中位於王廖惠文大樓地下的「**梁歐陽美蓮劇場**」與「**梁榮基體適能訓練中心**」正是展現學生才華與鍛鍊體魄的兩大重要地標。

「梁歐陽美蓮劇場」是一個集藝術與文化於一身的舞台。劇場配備專業級的音響與照明設備，為學生提供優質的表演與交流空間。無論是戲劇表演、音樂演奏，還是演講比賽，同學們都能在此盡情釋放創意，展現自信風采，涵養深厚的文藝氣息與美學素養。

「梁榮基體適能訓練中心」則是培育健康體魄與堅毅意志的搖籃。訓練中心配備現代化且多元化的健身及體適能設施，旨在幫助學生建立良好的運動習慣，提升身體素質。在專業指導下，學生不僅能增強體能，更能在汗水中鍛鍊不屈不撓的精神與團隊合作精神。

這兩大設施一動一靜、相輔相成，完美體現了學校「文武雙全、德藝雙馨」的全人教育理念，讓每位學生都能在這片充滿機遇的校園裡，勇敢探索潛能，綻放獨一無二的光芒！

「梁歐陽美蓮劇場」及「梁榮基體適能訓練中心」獲**梁榮基先生慷慨捐款**進行優化工程，特此命名，以感謝梁先生鼎力支持學校設施發展。
