# Raising Aspirations, Achieving Excellence

As a result of excellent teaching and exemplary attitudes to learning, our international class students achieve high levels of attainment. Through profound commitment and strong leadership, they also make significant contributions to the rest of the school.

We have high expectations for all our students to enter our GCE classes where they are joined by external students. They are keen to benefit from our excellent reputation, academic standards and unique curriculum.

We are proud to offer the international GCE course from our Grade 11. This is a prestigious, world class qualification; an alternative to HKDSE. Its reputation is global and is seen as a benchmark in high quality education, which prepares students who want to progress to the best universities around the world.

Moreover, we offer other international pathways, such as UMKC High School Dual Credit Programme, OSSD Ontario High School Diploma and Waseda University Principal Nomination Programme to ensure maximum choice.

Students interested in applying for Oxbridge or Medical School have an individualised programme tailored to their needs to give them every chance of success in these competitive areas.

All students participate in some ways as leaders and role models, as class representatives or as organisers of school teams and events. Overall, our international curriculum enables all students to become life-long learners and to be fully prepared for the demands of university and employment.

## GCE A-level

Waseda University

UMKC

High School Dual Credit Programme

OSSD Ontario High School Diploma

We believe that there is no limit to what our students can achieve and every student has the power to realise their potential and aspirations. We want everyone to succeed and to do the best of their ability. High standards in attitudes, essential life skills, academic competency and etiquette will serve them well in their future, wherever that may take them.

We provide a challenging, enjoyable, rewarding and unique environment in which the curriculum is tailored to allow students to flourish and fuel students' ambitions. A-School's International Education Hub is a place where students can connect, collaborate and communicate with their peers to gain essential life skills, form strong foundations for further academic study or careers, and develop friendships that last.

## GCE A-level Global Recognition

GCE A-level is an internationally recognised qualification, adopted in over 125 countries, and is accepted as proof of academic ability for entry to universities worldwide. The syllabuses develop a deep understanding of subject knowledge and independent thinking skills. All the A-level subjects offered are administered by either University of Cambridge International Examinations (CIE) or London Examinations (Edexcel). The A-level is often characterised as a university preparatory course, and most students who choose A-level have an intention of continuing their higher education overseas.

Nonetheless, our GCE A-level students have an equal advantage in applying to local universities through non-JUPAS admission.

**CAMBRIDGE**  
International Examinations

Cambridge Associate School

**Pearson**  
**Edexcel**

Partnership Centre  
Edexcel Academic Qualifications

We offer a comprehensive curriculum supported by academic coaching to equip students for admission to the world's top-notch universities. Other than the core subjects and other learning experiences, students normally study 3 to 4 A-level subjects in order to meet the admission requirements of universities.

### Core Subjects:

English Language, Chinese Language, Physical Education,  
Other Learning Experiences(OLE)

### A-level Subjects:

Mathematics, Physics, Chemistry, Biology, Business Studies,  
Accounting, Economics, Geography, Art and Design

## Diverse Learning Experiences

We provide abundant learning opportunities beyond the classrooms, both locally and globally, to enhance students' learning.

Our signature event called Uni Tour allows students to make their way to the top universities in the UK. The process of figuring out which university best fits their needs is an overwhelming but critical task. Uni Tour transforms this experience into an enriching and enjoyable summer adventure, in which students join campus tours, meet with admissions representatives and collect information about various universities, facilities and study programmes.

## Career Immersion

We aim to connect students with employers in the real-world work setting, leading them out of the classrooms in order to expand their knowledge and gain a wider perspective of the industry. Through these immersion experiences, students will be able to know about different careers and understand the expectation from employers, enhance generic skills, and develop workplace etiquette and values which enable them to adapt to society and hence ultimately get well prepared for their careers in life.

## Entrepreneurship Inspiration

We aim to shape students into creative and innovative entrepreneurs. We offer workshops and activities which enrich students' life experiences and polish their thinking skills.

A-School has been cooperating with University of Missouri-Kansas City (UMKC) to conduct an entrepreneur programme for students. Through the programme, students will learn about innovation and entrepreneurship, market research, financial analysis, financial valuation, corporate management and other professional skills. They will also learn to create simulation companies in groups by conducting research, road-shows, and other start-up tasks and they have opportunities to communicate with local entrepreneurs and innovation specialists. We continuously keep abreast of new trends to expand student's learning opportunities, enhance students' competitiveness and promote whole-person development.

# Admission Coaching

We aim to help students define their educational goals, make informed decisions, maximise their options and prepare for admission to prestige universities around the globe.

We adopt the Three A's Model (Application, Admission & Acceptance) to provide support for students at different stages based on their needs and ambitions. Further professional support is also available to outstanding students in applying to top notch universities in the world.

## THREE A's Model

### Stage 1 Application

We provide students with an overview of further studies in local and overseas institutions, highlight important notes in making successful applications as well as prepare students to make suitable programme choices. Seminars and workshops will be arranged to all senior students by Further Studies Team. Heads-up sessions will also be arranged through Collegelink to keep students posted of upcoming events.

### Stage 2 Admission

We let students go through the details of different admission requirements, and guide them to make a successful application. We encourage students to aim high and broad with holistic planning.

Individualised consultation by our Further Studies Team teachers and our Senior Consultant in Further Studies are available to offer advice according to students' individual needs.

### Stage 3 Acceptance

We maximise students' chances of acceptance by providing individual special trainings, such as personal statement and interview preparation workshops, admission test courses, and more. Potential runners for top-notch universities, including University of Oxford, University of Cambridge, Imperial College London, Massachusetts Institute of Technology, will be offered exceptional trainings for their acceptance.

# Collegelink

Collegelink seminars serve as a platform for our students to meet with admission professionals from different higher institutions, and to learn more about a diverse range of subjects all over the world.

# Individual Consultations

Our senior consultant, former registrar of Hong Kong Baptist University, Dr. Robert Lam and our Further Studies Team will meet with students and parents individually to guide them to reflect on their learning and present the best versions of themselves for admission to the universities.

# Workshops

There is a wide range of workshops and events available throughout the year to support students in preparing for their personal statements, admission tests and interviews. Individual trainings are offered to prospective Oxbridge applicants.

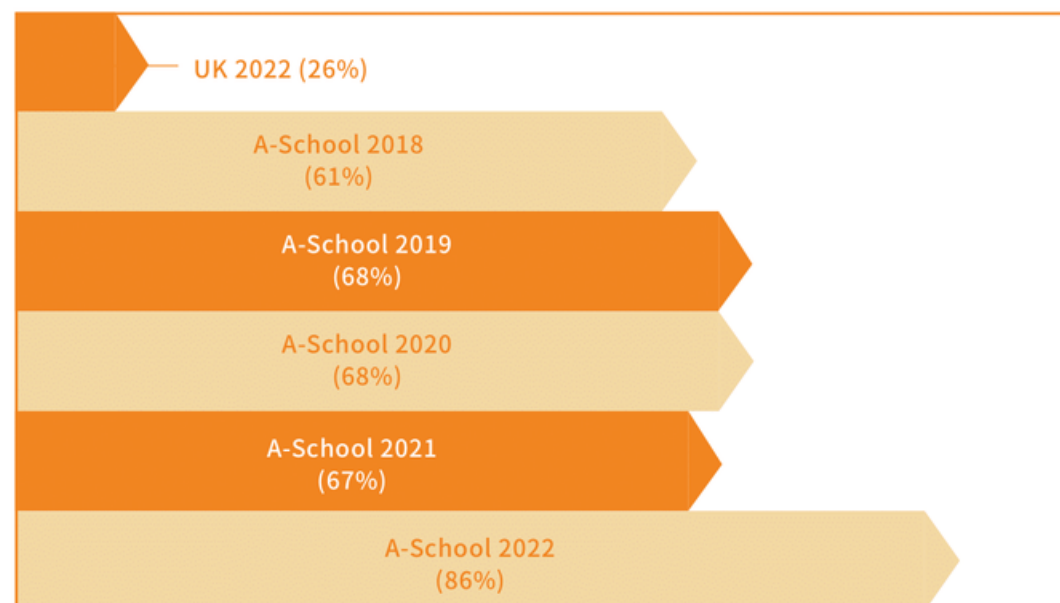

# Our students make exceptional progress and achievement in all subjects

Our students continuously achieved remarkable results in the IGCSE and GCE A-level exams, which are significantly higher than global averages, leading them to secure admission to the world's top universities.

## IGCSE

No. of entries at grade **A\*** and **A**

IGCSE- no. of entries at Grade **A** or above

## 2022 IELTS

**53%** of our candidates scored **Band 8** or above

Average score **7.7**

## 2021 IELTS

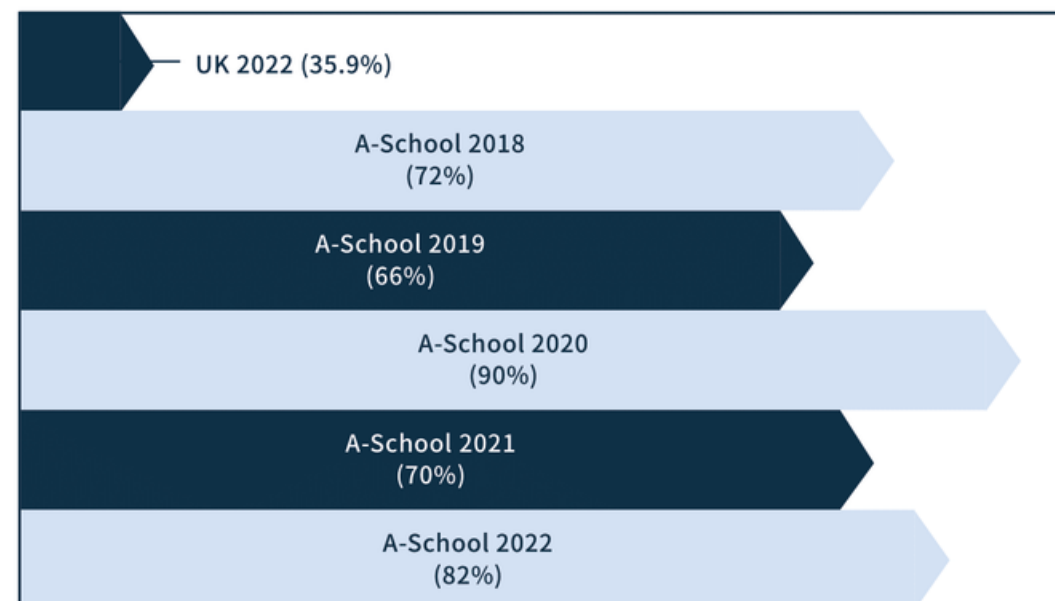

**61%** of our candidates scored **Band 8** or above

Average score **7.6**

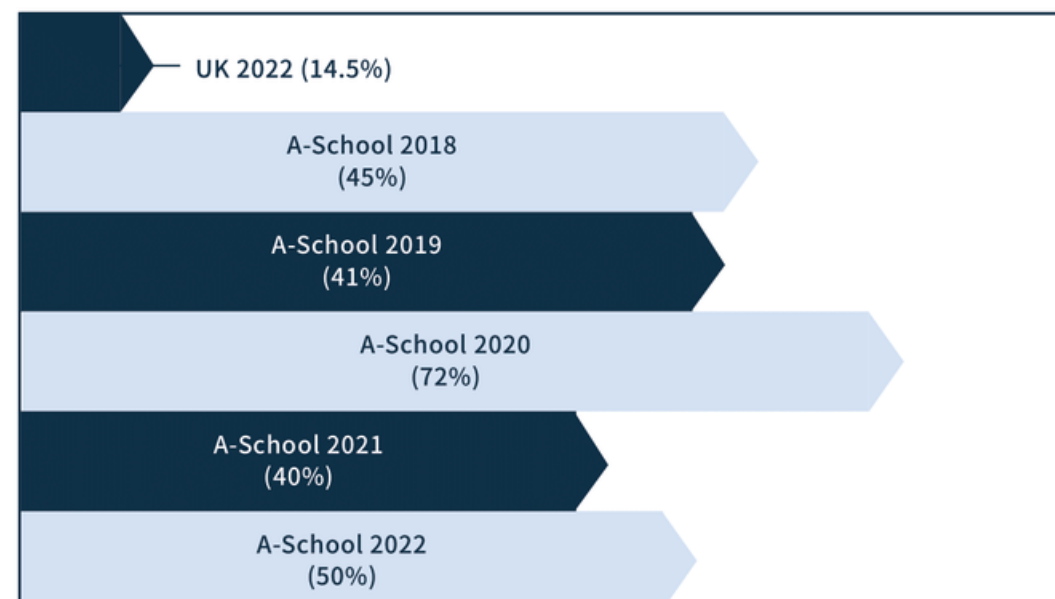

## GCE A-level

No. of entries at grade **A\*** and **A**

GCE AL- no. of entries at Grade **A** or above

GCE AL- no. of entries at Grade **A\*** or above

# Waseda University

## Principal Nomination - High School Recommendation Admission Scheme

HKBUAS is the pioneer to forge a partnership with Waseda University (WU), an acclaimed and long-established top private university in Japan, to launch the High School Recommendation Admission Scheme. Two students from our school are eligible to be nominated to the university's School of International Liberal Studies each year, with a scholarship to support their learning overseas. Other students from our school interested in applying for the designated programme will enjoy bonus points given by the university in recognition of the outstanding performance of our graduates in WU.

Founded in 1882, WU is one of the most prestigious private universities in Japan, and is consistently positioned among the top institutions in Japan university ranking. WU has been a cradle of many notable public figures, including Prime Ministers, literary giants and CEOs of international enterprises.

# UMKC High School Dual Credit Programme

HKBUAS is the first and only local school to develop a partnership with the University of Missouri-Kansas City (UMKC) in offering a Dual Credit Programme for our students who are interested in pursuing STEM-related programmes in the future.

Students enrolled in the dual credit courses can earn college credits at A-School and transfer the earned credits to most public and private colleges and universities in the US, upon receiving institutions' approval.

## UMKC

- ※ 1,122 faculty members
- ※ 95% hold the highest degrees in their fields
- ※ 2 Pulitzer Prize winners
- ※ 8 winners of Guggenheim Fellowships

# Ontario High School Diploma

Ontario High School Diploma is the province's official high school diploma offered by Ontario Minister of Education, Canada. It is well-recognised by universities around the world for direct admission.

HKBUAS has partnered with a Virtual High School in Canada, which is authorised to grant credits for the Ontario Secondary School Diploma. Students will study a dual curriculum in Grades 9-12 in A-School, followed by a self-financed online top-up programme with the Virtual High School in Grades 11-12 to gain the qualification.

**30  
Credits**

### 30 Credits

- ★ Obtain 30 credits in total
- ★ Mandatory courses: 18 credits
- ★ Elective course: 12 credits

**Pass  
OSSLT**

### Ontario Secondary School Literacy Test

- ★ Compulsory provincial literacy test in English comprehension

**40hr  
Volunteer**

### 40-hour Volunteer

- ★ Community involvement activities
- ★ Students' involvement in non-paid social activities

## Our Outstanding Alumni

**Ho Tsz Chun**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**Grade Skipper and GCE AL 4A\***  
Bachelor of Mathematics  
University of Oxford, UK

"This programme really benefits me by developing my interest and learning ability in maths. With the help, encouragement and support from teachers, I eventually obtained a place at the University of Oxford and a scholarship."

**Yuen Tin Long**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 4A\***  
Bachelor of Biotechnology  
Imperial College London, UK

"By reviewing my accomplishments today, I have to thank A-School in which I have studied for 12 years. Undoubtedly, A-School has set the stage for me to expand my academic horizons, and also equipped me with a critical mindset and motivation for learning, making me capable of taking on new challenges and seeing things with a wider perspective."

**Yuen Lok Man**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 2A\*2A**  
Bachelor of Biotechnology  
Imperial College London, UK

"Time flies! Not so long ago, I was still a Grade 1 student, excited at the school life ahead. 12 years have passed, and I am currently a Biologist in Imperial College London. Looking back, it has been a really big transition in myself—I started as an introvert, but now I am one of the most outgoing students in my class. I could never thank A-School enough for developing these changes."

**Lee Tak Yin Quinton**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 4A\***  
Bachelor of Experimental Psychology  
University of Oxford, UK

"Some teachers who poured their hearts into fostering new ideas, critical thinking – some I'd admit did so in eccentric yet creative ways — and ensuring the wellbeing of us all. There is no question that these people are the amalgamation of both their individual brilliance and the environment that A-School has created throughout its short 15-year life."

**Lai Yu Chun**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 4A\***  
 Master of Mathematics  
 University of Edinburgh, UK

"A-School always gives me an impression of innovation and open-mindedness, which has allowed me to have all these valuable experiences. I really appreciated that my class and subject teachers were keeping in close touch with me and always helped me with my problems."

**Keung Tsz Shing**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**Grade Skipper and GCE AL 5A\***  
 Master of Science - Chemistry  
 University College London, UK

"I have been fortunate enough to be the among the first few to be inducted in the Acceleration Program since primary school. Through this program, A-School delivers content above grade level to gifted and able students who are passionate about learning and have excelled in various subjects."

Every step of the way A-School has provided me with great care and molded me into the person I am today, and I am forever grateful to the many other opportunities A-School has provided me with that I have yet to remember."

**Leung Shing Fung Seth**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 4A\***  
 Bachelor of Industrial Design Engineering  
 University of Minnesota, Twin Cities, US

"I wasn't being taught knowledge from textbooks only, A-School also gave me various learning experiences which sharpened my leadership and communication skills and sculpted who I am today. During my most depressed, stressed time, the teachers and staff came to my aid. They guided me through my university application, and even recommended me to different scholarships! Now I can study the subjects I am interested in America with a full tuition scholarship! I am truly thankful that I was able to be a part of A-School, and I hope you will enjoy your time there too!"

**Cheung Hoi Tung Agnes**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
**GCE AL 3A\*1A**  
 Bachelor of Biochemistry  
 Imperial College London, UK

"Throughout the 12 years in A-School, I was provided with a vast number of gripping experiences, like excursions, competitions and workshops. I was able to explore the world, as well as my interests and talent. I am genuinely thankful for all these opportunities granted by the school. I am so excited yet somehow frustrated when I applied to UCAS, hoping that I will get into top-notch universities while worrying that I may not make it through the application processes. Luckily, A-School provided me with continuous support, ranging from classes on registering for UCAS to personal statements and interview workshops. Had it not been for these sterling supports, I would not be able to enter Imperial College London."

**Kwok Yik Hei**  
**The Awardee of Hong Kong Scholarship for Excellence Scheme**  
 Bachelor of Computer Science with  
 High-Performance Graphics and Games Engineering  
 University of Leeds, UK

**Chang Chun Hei**  
 Bachelor of Computer Science

## School Scholarship

To recognise students' talents and noteworthy performance in **Sports, Music, Performing Arts, Visual Arts, Services, Leadership or Academic Excellence**, we welcome talented students to apply for our scholarship. Each student can be entitled to individual and year-end scholarships not more than the annual tuition fee every year. Outstanding awardees would be granted up to a maximum 3-year full scholarship, which is equivalent to 3 years' worth of tuition fees. Application for an extension can be made before the end of their awarded scholarship period.
