## Visit by Prof. Alexander WAI

President & Vice-Chancellor, Hong Kong Baptist University

We were honoured to receive **Prof. Alexander Wai Ping-kong**, the newly inaugurated sixth-term **President and Vice-Chancellor of HKBU**, accompanied by the **Interim Provost, Prof. Rick Wong Wai-kwok**, for a school visit on June 11, 2021.

The visit started with an introduction to A-School, followed by a campus tour led by our School Supervisor, Prof. Frank Fu Hoo-kin, Chief Principal, Dr. Benjamin Chan Wai-kai, and other members of school management to provide an overview of our learning and teaching facilities, including the 21st Century Classroom, Indoor Gymnasium, A-Memory Gallery, Endangered Species Museum, and Performing Arts Theatre. The visit ended with a sharing by Prof. Wai who was deeply impressed with A-School's efforts in providing an inspiring and enriching learning environment for our students. Based on the shared founding principles, he was sure that HKBU and A-School would continue to work closely to foster whole-person development of our students and nurture them to become confident and caring leaders for the future.

# Opening Ceremony of *Joshua Hall*

The Opening Ceremony of Joshua Hall was held successfully on January 21, 2021. It is our pleasure to have **Mr. Raymond Kwok, the representative of the Kwok Chung Bo Fun Charitable Fund** to be our guest of honour for the ceremony.

The newly established student activity centre on the ground floor of Secondary Division received generous support from the Fund for their devoted pursuit of Christian faith. It provides multi-purpose activity space with enclosable glass doors, air-conditioning units and a billboard-size LED screen which allow year-round

comfort for students, teachers and parents alike to engage in a variety of activities such as school team training, seminars and solemn Christian congregation, etc.

Graduates from the school year 2019/2020 with outstanding academic performance were invited to the award presentation of the Dr. KK Wong Scholarship for Excellence in Further Studies 2020. The student representative gave a vote of thanks to both Ir Dr. KK Wong, GBS, SBS, JP and Mr. Raymond Kwok for their continuous support.

## Opening Ceremony of *Satellite Centre of the HKAGE at A-School*

To contribute to gifted education in Hong Kong, our school has accepted the invitation from Hong Kong Academy for Gifted Education (HKAGE) to establish a Gifted Education Satellite Centre at our school campus to host gifted education events such as student programmes, teacher seminars and parent workshops on a not-for-profit basis. An inauguration ceremony had been officially completed on January 28, 2021 to acknowledge the collaboration and establishment of the Gifted Education Satellite Centre.

Our students, G9 Lewis Gilbert and G11 Fernando Keung, who are also members of HKAGE, shared their feelings towards the establishment of the Satellite Centre during the ceremony.

Our school and teachers have always endeavored to optimize the potential of our gifted students and accommodate their learning needs. With concerted effort from both divisions, we have rich experience in promoting school-based gifted education and have successfully supported our gifted students to realize their dreams and gain access to world-renowned universities. HKBUAS and HKAGE will work closely together to cater for gifted students and conduct professional exchanges with other schools and relevant stakeholders in the region.

# Press Conference on *Gifted Education*

The Gifted Education programmes A-School offers are delivering results. A press conference to share the fruits of nurturing was successfully held on September 29, 2021, which attracted territory wide coverage by local newspaper outlets and network.

After sending 2018 graduate Ho Tsz Chun to the University of Oxford at the age of 15, Sean Kong, a 13-year-old student of our GCE A-Level lower class, has been admitted to City University's intelligent manufacturing engineering programme for his outstanding talent this school year.

The astonishing stories of our prodigies have given rise to overwhelming response from media. Journalists often asked about the details of the school's policy to unleashing students' potential of academics and non-academic pursuits as well as psychological support to gifted students to help them overcome earlier shift from secondary school to university.

## HKBUAS THREE-TIER IMPLEMENTATION MODEL FOR GIFTED EDUCATION

**Level 3**  
Off-school Support

**3E** External training courses for exceptional gifted students  
• HKAGE Satellite Centre  
• World-wide Higher Institution

**Level 2**  
School-based  
Pull-out Programmes

**2C** Pull-out programmes for more able students  
• Acceleration Programmes  
• Excel 33 Leadership Programmes

**2D** School teams for students with outstanding performances in specific domains  
• Academic  
• Sports  
• Performing Arts  
• Visual Arts

**Level 1**  
School-based Whole  
Class Teaching

**1A** Infusion of core gifted education elements for all students  
• Soft skill trainings

**1B** Differentiation  
• Students with outstanding performance in individual academic subjects  
• Students with characteristics of giftedness

2021年9月30日《星島日報》

# School Reopening Ceremony

With great excitement, the 2021-22 school year was kicked off smoothly after the completion of the School Reopening Ceremony on September 1, 2021. Primary and secondary students returned to school fully charged and were prepared to learn in the campus after a long period of zoom lessons.

During the ceremony, awards were presented to winners of the Award of Teacher Commendation Scheme 2020-21. Graduates received scholarships in recognition of their remarkable achievement in academics, including Dr. K K Wong Scholarship for Excellence in Further Studies, Wong Kam Fai Financial Assistantship and Mr. Teny Wu Scholarship for Principal Recommendation to Waseda University Scheme and Scholarship from Parent-Teacher Association We Care Fund. The Carmen Choi Gifted Education Scholarship was presented to gifted students with outstanding academic performance.

## Presentation of Awards for Teacher Commendation Scheme 2020-21

### Primary Division

#### Awardees of Teacher Commendation Scheme 2020-21

YIU Kwun Sze Cecilia	Berming KARSTEN
HUI Pak Nin	CHU Po Ki Kitty
CHO Siu Yee	CHAN Ho Kan Kan
LEE Ka Wing Kelvin	LEE Ka Wing Marcus
LEE Ka Ki Angela	CHONG Hui Li Jackie
TAI Wing Yin	

*It is my honour to get recognition from enthusiastic students and passionate educators alike. I found that encouragement for students is crucial no matter how tiny the improvement is, notice it and praise it for that. I really hope to have more chances to interact with not just the ones I am teaching this year but also those I have not taught this academic year.*

**LEE Ka Wing Marcus**

### Secondary Division

#### Awardees of Teacher Commendation Scheme 2020-21

FAN Yu Ong	MAK Ho Nam
FOK Sui Tong	TANG Siu Nam
LAM Yuk Tsun	WONG Tsz Chuen
LI Li, Mercedes	YEUNG Siu Bo
MAK CHAN Joukin Luis	YU Cheuk Yin

*It is my honour to be one of the awardees of Teacher Commendation Scheme. I feel so grateful to meet wonderful colleagues and lovely students here. They inspire me every day to be passionate and to love my job. This encourages me to be better at what I do.*

**YU Cheuk Yin Monty**

## Sharing From Some 2021 Graduates

### Further Studies:

**CHOW On Yin**

*Current Student at Biomedical Engineering, Imperial College London, UK*

Remember that I was still getting low grades half a year before the DSE exam. I had never dreamed of entering this university successfully. Fortunately, A-School teachers spared no effort teaching me and encouraged me. They were very supportive and full of positive energy. I am blessed to have them as my teachers, and I would not achieve this outcome without them. The further studies team also gave me a lot of help in preparing for my university life. I had no information about universities at the start of Grade 12. Luckily, the team held many talks and gave individual guidance to us.

Now I have entered Imperial College London, and I got more insights than in A-School. My university life is extremely splendid yet hectic, and it broadens my horizons.

Most importantly, I would like to thank A-School for everything in my memorable and cherished secondary school life.

**HONG Ching**

*Current Student at MEng Chemical Engineering, Imperial College London, UK*

I am currently in the first year of a four-year chemical engineering MEng course at Imperial.

Throughout my six years in A-School, I joined a few teams and worked as a committee in the student union. A-School encourages its students to participate in OLE while focusing on our studies at the same time. I learnt to manage my time efficiently in order to have a good performance in sports and academics. I also refined my self-studying technique, which is highly useful in university, when working on my Further Mathematics A level.

A-School offered me a lot of opportunities to meet other students and mentors outside school, these connections gave me a chance to see the world beyond the school. I found these experiences very rewarding as they allowed me to explore my talents and interests and be a part of a greater community beyond the school.

To all my fellow students, I have a tiny piece of advice - Study what you are interested in, you won't have the motivation to work hard if you are not interested in the subject you are studying. Remember to balance your academic life with your social life and manage your time well.

**FONG Siu Yin**

*Current Student at Medical School, University of Buckingham, UK*

As a former student who studied here for 12 years, it is an honour for me to share about A-School. I will always be thankful to have met many amazing teachers in A-School who have provided me guidance to pursuing my dreams, as well as the environment A-School has provided for me to discover my interests.

Personally, one of the best aspects about A-School is the vast number of opportunities provided to the students. In A-School, there are a large variety of Other Learning Experiences and school teams for students to choose, where students could discover and develop their talents. There are also overseas excursions and exchange programmes that I highly recommend students to join, as they are valuable experiences that have broadened my horizons.

For students in A-School, I would imagine most of you are in the age of figuring out your future, and some of you might be struggling with it. As someone who have experienced the same struggle, I recommend you seek opportunities and take chances whenever you can. Participate in more events, gain different experiences, and most importantly do not fear to fail. Failing is a part of the process, in fact learning from my failures made me where I am now.

At last, I hope that you will have a grasp on your future through your journey in A-School.

## HUANG Andra On Ying

**Current Student at Faculty of Law, The University of Hong Kong**

My university experiences thus far have been interesting. I have thoroughly enjoyed my classes and expanding my social circle. I also live in a hall, which has given me the opportunity of meeting students across faculties and trying new activities.

Recalling my life at A-School, I am beyond grateful for the resources and support I received. Joining school teams and service groups has given me much enjoyment throughout my secondary school years. In terms of academics, A-School's learning resources has made my learning process more manageable. The teachers here are very approachable, dedicated and — as what people at HKU often say — BJMF (搏盡無悔). They not only pass on knowledge but also help us navigate the nerve-wracking journey to public examinations. Apart from that, the further studies department has provided me with extensive guidance and advice in future planning, which made me feel more supported and less alone during my last — and most stressful — year at A-School.

I sincerely thank A-School for giving me an unforgettable secondary school experience. To the A-School graduates of 2021-2022, I wish you well in your upcoming examinations and university application process!

## NG Tsz Him

**Current Student at Business School, The Hong Kong University of Science and Technology**

Being in university implies leaving your comfort zone and constantly challenging yourself. It is not only limited to academics, but also your external commitments, social life, and more. That's when I realised that A-School taught me lessons beyond what I visualise.

For my senior years, I took the GCE A-level programme. The logicality and critical thinking emphasised in this programme are highly applicable in university life, especially when long, mundane essays and reports are due the same night. Besides, A-School's focus on fluent English and Putonghua is useful in university when I constantly communicate to international students in projects, presentations, events and gatherings. So, everyone, take your oral exams seriously.

Another thing I am grateful for was having the opportunity to join numerous groups in A-School. School teams and OLE kind of simulate university societies. I was glad I learned the fundamental skills of teamwork, communication, leadership and planning throughout my years in A-School.

I realised the beauty of having A-School teachers teach a small 20 more people class back in secondary school compared to 100 more people in university. Courses are relatively more tailor-made for students. I highly appreciate our A-School teachers' personal dedication to helping students with their studies and giving them numerous chances after their late submissions. Sometimes I wished they do that in university too.

I recall when I was in Grade 7, I heard something about "whole-person development" in a school talk. I didn't know what it was, but now I know why A-School emphasised it so much. Being in university is not just about getting good grades. It is also equally important how you become a good person.

Thank you, A-School!

## CHAN Yip Chun

**Current Student at MEng of Mechanical Engineering, University of Bath, UK**

As a mechanical engineering student, we combine physics with mathematics and put them in to applications in real life. Therefore, we have more laboratories than most of the other students in the university as well. In the University of Bath, we have 3 racing teams for engineering students to put their knowledge into physical projects and compete with other universities. I have been fortunate enough to participate in some of the jobs for the racing teams. For example, disassemble the vehicle for maintenance, review rules and regulation for FS22 and more. There are a lot of clubs and societies to join in university, in my case I have joined the HKPASS, Jiu Jitsu and more. By participating in these societies' events, I can take a break from my coursework and meet new friends from all over the world.

Lastly, one thing I wish I knew before coming to university is that I should take further mathematics and pay more attention in English lessons at A-School because those English skills are really being put to the test for me. I would like to take this opportunity to show my gratitude towards A-School for the assistance and important lessons taught for my personal development.

## YUEN Tin Wai

**Current Student of Faculty of Biology, Medicine and Health, The University of Manchester, UK**

I am currently attending university in University of Manchester. I am a freshman this year and this is my first time studying abroad. My experience is eye-opening, because I get to meet people from different countries and make friends with them. Also there are lots of different societies, such as sky-diving club or skiing club.

Apart from this, there are different events on special days. One example is Halloween, I can carve pumpkins with my friends or go to a carnival. My campus is full of historical buildings and churches. I get to have lessons in buildings that are 200 years old. There is also a museum on campus.

On the academic side, it has been a challenge for me. It is sometimes frustrating as the teaching method is totally different from secondary school. Luckily, A-School has prepared me to face different obstacles. I already have a habit of self-learning in A-School, which is applicable in university. As most content of the lectures require you to do extra readings and researches in order to fully understand them. A-School showed us lots of supports during exam times. I especially appreciate the kindness of A-School teachers. I had a good memory in A-School thanks to them. They were always there for me when I needed academic and mental support.

## HO Sze Ching

**Current Student at the Faculty of Science, The Chinese University of Hong Kong**

Studying in university is totally a new experience for me, because university life is absolutely different from secondary school life. You have more freedom and opportunities, such as choosing your most interested field of study, and joining different clubs, societies, and activities. It is exciting to enjoy university life, but I also have to face challenges that I had not experienced in secondary school. For example, the academic content is much more difficult. Apart from reading the Powepoints made by professors, I have to search for answers and extra information on the internet in order to understand the advanced concepts. Independence is self-guidance are very important.

Although it is quite hard to adapt university life in the first year, the beautiful campus environment in CUHK helps me relieve my academic stress. The university is much larger than HKBUAS, and surprisingly, there is a garden with a small pond in CUHK. As CUHK is located on a hill, I can see different wild animals resting in the garden. The natural environment and fresh air make me feel relax.

Furthermore, I am thankful that A-School provides a lot of guidance on further studies, therefore, students will have more confidence and preparations for their tertiary education life. Consultations by teachers and a number of talks provided by A-School certainly help students find their right path towards their future after graduation!

## 劉咏恩

**現就讀香港科技大學理學A組 – 延伸主修人工智能**

離開母校，踏入大學，進入的人生新階段。時光飛逝，不知不覺大學第一個學期已趨尾聲。

八月的一天首次踏入香港科技大學，從小學起就在母校就讀，對於進入一個全新的環境略感徬徨。所幸在各種聯誼活動中認識了不同的好友，在一個完全陌生的環境中至少有人相伴，也漸漸融入新的環境。

每一次跟其他人說起母校，總會感到自豪：擁有良好的設施、互相扶持的同學，以及關懷我們、努力教導的老師。疫情初期，全港學校停課，老師願意抽出大量時間授課，讓我們這群應屆文憑試考生緊貼教學進度；在休假的時候，提供大量學習支援素材和補課。最後，我能如願地升上心儀的大學。

「落其實者思其樹，飲其流者懷其源。」在未來展翅高飛的時候，也不會忘記往日母校的點滴。

## HON Yee Ching

**Current Student at School of International Liberal Studies, Waseda University, Japan**

I remember when I was in Grade 10, I attended a Collegelink Seminar in the topic of "Study in Japan (Waseda University)" organized by A-School, and for the first time I learnt about School of International Liberal Studies. I was deeply impressed by its international perspective. I was so glad that I have passed the High School Recommendation Admission to get into Waseda University and have the chance to experience a completely different culture in Japan in the coming 4 years.

In the past years, A-School provided me courses and activities from a wide variety that allowed me to gain knowledge and experiences in an expansive range, which undoubtedly broaden my horizon. These courses and activities not only well prepared me in my undergraduate education, but also helped me to understand a different dimension in the society. At the moment, one of my courses is about musicology, and I realize I have actually been to a significant place in music history when I was having excursion in Italy in Grade 11, it's just so tremendous!

It will be great to enrich yourself whenever possible! When I was in junior grade, I have started learning Japanese because I was interested in it – which I have never thought it would finally widen the choice of my pathway. So, don't care too much about what you will get in return, just go ahead if you have something in passion! (But, still, as time is limited, you have to make choices) Also, treasure your time in secondary school, especially with your schoolmates, as you will definitely miss those good old days when you entered university!

## CHAN Cheuk Wang

**Current Student at the School of Science, The Hong Kong University of Science and Technology**

Looking back at those assignments and assessments issued by my teachers in A-School, they weren't even burdensome compared to what I'm dealing with now. What my teachers told me was definitely right – stepping into university, secondary education would be like a walk in the park. Without the help of my teachers before, surviving in university courses would be impossible.

During the last two years of high school, most of us were struggling to deal with DSE. Without seeking help from teachers, some of those questions would probably never be answered. In addition, we wouldn't obtain the exam skills we needed to deal with DSE. It was all thanks to the teachers who sacrificed their personal time, allowing us to obtain higher grades in the exam.

Stepping into university life, reality is tougher than what I expected to be. Socialising, studying, time managing... all of these were a lot more challenging than before. One advice to all Grade 12 students, treasure all the time you've got. Although the public exam is one of the key milestones in your life, don't forget to enjoy your last year of secondary school life with your classmates. Good luck!

## YAU Cheuk Nam Cyrus

**Current Student at Faculty of Engineering, The University of Hong Kong**

A-School has been my school for over 10 years. During these years, A-School offered an ideal environment for me to learn and made me who I am today.

A-School provides many valuable opportunities to talented students, like the option to skip a grade or join the mathematics acceleration programmes. These opportunities helped me to reach my full potential. Besides, unlike most of the secondary schools in Hong Kong, A-School offers two different curriculums to students (the HKDSE or GCEAL curriculum). The GCEAL curriculum is very suitable for students who would like to study abroad, particularly in the UK.

Switching from secondary school life to university life is not easy. University requires students to be extremely self-disciplined, as university is full of freedom. Professors or teachers will no longer urge you to submit homework on time or ask you to attend classes punctually. Time organization is also very important because schedules are packed pretty full in university life.

My times in A-School was definitely one of the happiest times in my life. To all A-School students, don't forget to cherish and enjoy your moments here at A-School, and to all G12 students, try your best in the HKDSE or IAL exams!

## 蔡昊謙

**現就讀香港科技大學  
工學院**

以科大學生的身份上學差不多一個學期，大抵是開心的。大學跟中學最大的分別是時間上的分配。中學上學時間基本上都是週一至五，而大學則完全不同，甚至乎隨時放假不上學亦可，特別是一些不計算出席率的課堂，所以整體上多了不少空閒時間，可以說是發展興趣的好時機。

科大英文簡稱UST，坊間亦謂University of Stress and Tension，事實壓力並非如傳言所指，至少我仍可抽空打機外出。對A-School的感謝等陳腔濫調我不再一一重複，但要感謝母校邀請我回來與學弟學妹分享，祝願各位考生應考順利，取得佳績。

## LUI Wang Pok

**Current Student at School of Engineering, The Hong Kong University of Science and Technology**

Hello, I'm Lui Wang Pok, graduate of the class of 2021.

University to me is the best place for us to step out of our comfort zone to try out new stuff. With a brand new environment, we don't have to worry about how others perceive us, what's our identity in the school, we pretty much start our university life from zero. With this mindset, I finally have the bravery to try something new. Looking back, it's hard to imagine I did it. Many of them are something I wish to do for a long time but was too afraid to try it out when I was in A-School. I even got on stage to perform a rap song with a skater I met on the campus, crazy isn't it? I should've joined the A-School's Got Talent back then, what a pity.

A piece of advice for those who are considering joining the A-School's Got Talent or any other activities or school teams in general, but don't have the courage to. Trust me, stop worrying about those "what-ifs", "I'm not the type of performing person", just do it, just send it. You only live a secondary life once.

Moving on is how A-School shaped me to become a better person in general and prepare for university. The first thing coming up to my mind is my perspective and horizon. have to thank A-School for this, giving me a multicultural background. From excursion to exchange, having lessons with foreign teachers... it keeps counting. Thanks A-School.

## CHAN Sum Nga Summer

**Current Student at Department of Rehabilitation Sciences, The Hong Kong Polytechnic University**

It's been 5 months since graduating from A-School, looking back at the past, I've recalled countless remarkable memories in A-School. It has always prepared so many opportunities for bettering students' holistic development. For example, I have joined an overseas exchange programme to South Korea, which has helped me broaden my horizon and flourish my interpersonal skills. And a wide variety of service and leadership programmes, which allow students to excel in their whole-person development.

During my senior years in A-School, I have also received much supports from the school. I have received consultation from the further studies team, which guided me to explore the field that I'm interested in. Apart from consultation, alumni sharing has also been a great support to me. They have shared a lot of their own study tips and also routines that they do to relieve their stress during exam preparation. Moreover, teachers have always been providing guidance and encouragement to us, both academically and personally. During the study break, they have put countless efforts into preparing revision notes and tutorials for us. I would like to take this opportunity to express my gratitude to all the teachers again.

Thank you A-School for creating wonderful memories in the past 12 years. I am looking forward to encountering more challenges and opportunities in the new chapters of my life.

## From Growth to Achievement in 2021

**1** Five in a batch entered Imperial College London, UK

**2** 50% of the admitted programmes ranked top100 in QS World University Rankings by Subject

**3** 70% got Grade A\* in GCE AL subjects

## Sharing by Sarah Lee

*Bronze Medalist at Tokyo Olympics 2021*

The stories of successful athletes are always inspiring and worthy to learn about. It was a valuable opportunity to welcome **Miss Sarah Lee Wai-sze, the bronze medalist in both 2012 London and 2021 Tokyo Olympics** to A-School and share her experiences with our students and parents as well as the awardees of A.S. Watson Group Hong Kong Students Awards on October 26, 2021.

Her positive mind-set and energy towards pursuing sports excellence certainly motivated our students to set clear goals in establishing healthy lifestyle, as well as display and demonstrate sportsmanship and dedication in sports training and competition in the future.

### 11A NG Shun Hei

經過這次李慧詩見面會，我學會了很多東西。自己本身也是一位棒球及壘球運動員，但因為要兼顧學業，心態仍未夠成熟。但透過見面，聽到很多有用的建議，其中最令我深刻的是有關「緊張」這話題，如何可以有效處理壓力，她說到當感到緊張的時候，緊記要深呼吸去放鬆，提醒自己；雖然只係短短一句，但係對我的幫助非常大。總括而言，能夠於校內見到李慧詩感到十分榮幸，其實我還有好多問題想請教她，希望將來再有機會！

### 6A FONG Chi Yeung

I am very excited that I got a chance to meet Ms. Sarah Lee in person and ask the Olympic medallist a few questions! In this event, Sarah had a cycling challenge with some students. I also felt very nervous while I was asking questions because this is my first time meeting her and she even put her hand on my shoulder! From her sharing, I learnt that there is no age limit to be an athlete. Nobody can stop you if you have a clear goal. In the future, I hope I can get a chance to meet more Olympians or even join the Olympic Games!

## 「第十五屆周年會員大會暨家長學堂頒獎典禮」

一年一度家長教師會盛事——「第十四屆周年會員大會暨家長學堂頒獎典禮」已順利於2021年10月30日上午舉行。本年有幸邀請到**家庭與學校合作事宜委員會主席方奕展先生**到校頒發證書，更藉此機會勉勵本校家庭及新一屆常務委員，願各委員們承諾肩負起未來兩年會務發展的重任，發揚家校一心、群策群力的精神。

家長學堂已成立三年，家長參與本校家長教育活動的人數不斷攀升，2020-2021年度共超過60個家庭獲頒星級證書，可喜可賀！感謝所有家長的鼎力支持與參與，讓家長學堂繼續穩健成長，家長學校一同學習、一同進步！

### 第十五屆家長教師會常務委員會名單

蘇銘洋	主席	中學部家長
黃欣欣	副主席	小學部家長
張瑞霞博士	副主席	副校長
于瀾	秘書	小學部家長
余雅俊	秘書	中學部家長

保耀斌	理事	小學部家長
張靄欣	理事	中學部家長
戴詠賢博士	理事	副校長

### 主席的話

校長，各位老師，家長，同學：

感恩能再次成為家教會主席。過去家教會委員會、老師、家長們一直攜手風雨同行！目的是為我們的子女營造一個和諧、健康和更完善的校園環境，促進孩子健康成長，提供高質教育及發展空間！可惜每年家教會和學校合辦的活動，例如節日慶祝、親子工作坊、大旅行及慈善跑樓梯比賽等，因為疫情嚴重被迫暫停或有條件情況下有限制地舉行。雖然每次所辦的活動限制要求嚴謹，仍然沒阻一群熱心的家長和同學積極參與和支持，給予我們家教會的無限動力，希望這份動力不斷凝聚，讓家校合作精神和有愛文化繼續傳承，綿延不盡。

蘇銘洋 謹啓

2021-22 第十五屆家長教師會主席

# Play Day 2021-22

## Outing

Activities	Grades
Monopoly Dreams	G3
Ocean Park Hong Kong	G1 & G5 students

The annual event Play Day was held successfully on November 10, 2021. Different activities were arranged for different grades within the campus and outside.

Our G1 and G5 visited the Ocean Park Hong Kong together and savored an eventful and fruitful day. It was a perfect day for students to engage in some fun outdoor activities. Students were delighted to visit the iconic theme park with their peers and buddies to enjoy booth games, amusing rides and animal sightseeing. On the other hand, our G3 students visited the Peak and the Monopoly Dreams Hong Kong, the world's first Monopoly attraction. Not only do they see the beautiful sceneries, but also to enjoy exciting sections and mini games, including a 4DX theater, bigger monopoly race car and bank with gold.

### 3C WU Nickson

I had a very exciting experience visiting the Monopoly Dreams Hong Kong because this was my first school field trip with my class. I was very amused when I was visited by Mr. Monopoly inside the tremendously big, red coloured elevator.

### 5E LOO Pui Ka Nadia

It was a great opportunity to have a fun fruitful outing with my classmates. We went to the Penguin Pavilion and Shark Mystique, where we got to know more interesting facts and behaviors about these fascinating animals. We also enjoyed some rides together. Guess what? We rode on the roller coaster for 17 times! What an amazing day!

## Battle of Traditional & New Rising Sports

Activities	Grades
Battle of Traditional & New Rising Sports	G2, G4 & G6

Battle of New Rising Sports and Traditional Sports came up strongly with a meaningful theme and end with smiley faces from students in A-School.

With the theme of Battle of New Rising Sports and Traditional Sports, the whole school campus was surrounded with the atmosphere of exploration and exercising. Teachers and students treasured the time of participating in the activities together. Students can learn and explore both new rising sports and traditional sports to inspire their exploration on sports culture development. By learning different new rising sports, students can also explore their interests and potentials on other sport events.

### 4E CHAN Cheuk Ying Gloria

A-School has prepared many different kinds of sport activities, for example, dodgebee, pickleball, flyball, pitch pot, cuju, flower dart, floor curling and many other exciting activities. I was very happy today and hope I can have the fun Play Day again!

### 6E TAM Nga Man Jessie

We played Kinball and I really liked it. We first learned some basic skills with the teacher. Then, we teamed up with our friends and played few matches. All our friends respected each other and cooperated well. Although some students didn't understand how to play, no one laughed at them and we all tried to encourage them.

### 4E FONG Chi Yau

Today is a super fun Play Day. Students really enjoy playing the game booths. They will laugh and smile. Also, they participate actively in every game, especially the dodgebee game. When we were making the craft, students were focused and it's such a fun day!

# Life-wide Learning Day 2021-22

November 10, 2021

A-School always believes that learning shouldn't be limited to the physical classrooms and should be extended outside the school campus. A-School teachers are always eager to provide diversified opportunities to make learning boundless, interactive and fun. Life-wide Learning Day is one of the annual tradition events of A-School. On the Life-wide Learning Day, students enjoy exploring various learning themes by participating in different workshops, courses and outings.

## Student Union and Chambers in Secondary Division

The Election Day of the Student Union and Chambers for the secondary division was held on October 11, 2021. This year, Pixel, with 516 votes, was elected and became the 12th Student Union of A-School for the 2021-2022 school year. Also, all chamber cabinets are successfully elected. The Student Union and Chambers will take the responsibility to serve the school and all A-School students in the coming academic year and make A-School a better place to learn in.

### 10C MO Ling Man Natalie (Chairperson of Student Union)

I have always looked up to the student leaders, but never in my wildest dreams would I have imagined taking on such an important role. I am incredibly honoured that I am elected as the Chairperson of the Student Union. Long story short, the weeks during the promotional period have been thrilling, trying new things that I have never tried before, and putting blood, sweat and tears in the forum along with my fellow chamber leaders. I think the most important feature of being a leader is to step outside of your box and never be afraid to make mistakes. You will be able to grow and improve - one little decision may lead to an afterglow of life, live while you're young. So, shake off your worries and take a step forward.

## Student Union and Houses in Primary Division

Candidates for SU created posters to introduce themselves, and to let students understand their aspirations and enthusiasm in serving A-School. The lovely posters were displayed on each floor and were posted on Google link, so all the students and teachers got to know about the candidates before they voted. Various channels were adopted for students to cast their votes this year, including in-person in Atrium, via QR code and Google link. Finally, all representatives were elected. Congratulations to all!

### 6E TAM Nga Man Jessie (Chairperson of Student Union)

First, I would like to thank my schoolmates and teachers for supporting me. As I have been a member of the SU for the past two years, I will try my best to help the team as much as I could. I promise that I will be responsible for my job and help my teammates throughout this year. Our team will have many fun and interesting events, and we will listen to your suggestions if you have any. I hope that all of you can enjoy those events.

# A-Star G7 Orientation Camp

A-Star Orientation Camp was held on August 16 – 17 during summer. It was a great and memorable experience for both G7 students and class teachers under epidemic. It was a wonderful first page of our new academic year.

## 7A LAM Yin Yee Yanny

I joined the summer orientation camp for secondary division, signifying a new start to my secondary school life. Under the leading of chamber leaders, we played a lot of games and learned teamwork. The teachers share the information and culture of A-School, and they also gave some tips for us to adapt the secondary school life. On the first day of school, the teacher asked for a volunteer to be the class monitor. I raised my hand immediately because I want to serve the class and school.

## 7C TSUI Lok Yin Michael

The orientation camp was an unforgettable experience for us. We enjoyed a lot of different fruitful activities. Furthermore, we

got a chance to meet our classmates and class teachers for the first time, and also got informative information about our new Grade 7 life from different secondary division teachers. This orientation camp is precious because we only got to experience this one, and not every school has this chance.

## 7E LI Wei Li

暑假時，學校為我們舉辦了一個新生體驗日，讓我們可以適應新的學習環境。學生會為我們安排了一些有趣的遊戲，讓我們在玩樂的同時更可以認識新同學。老師們也跟我們介紹校規，並說了一些我們需要注意的事項。那次新生體驗日減低了我對升上中學，要重新在適應新環境的憂慮，也讓我學會更多關於中學生該有的正確態度。

Primary Division 小學部

# G1 Orientation Day

To help new students and their parents adapt to the new school environment, G1 Orientation Day cum Parents' Orientation was arranged on August 26 & 27, 2021. Parallel sessions were arranged for parents and students so that they could understand more about the school life. The famous storyteller, Auntie Vegetable was invited to conduct a thematic reading seminar for our G1 parents.

## 1C 鄧愉澄

我在一年級已經兩個多月，由最初我每天回校時都想念媽媽，到現在每天都期待着在校園上課、活動和小息。現在我交了好朋友，班主任和高年級的哥哥姐姐們亦很照顧我，我很喜愛A-School的生活，每天都想在這裡學習。

## 1D 林雨皓

在小學適應日那天，有很多不同的活動。我最喜歡的是參觀瀕危物種博物館，那裡有很多我從沒見過的生物標本，我很想可以再去參觀啊！我最喜歡的是體育課，希望天天都可以做運動呢！

## 1E 簡可翹

我十分喜歡小一適應課程讓我難忘的是STEAM課，可以見到哥哥的班主任梁立邦老師。他教導我們怎樣控制mace blocky，非常有趣。

# 中國文化日

2021年2月9日

今年以特別方式，透過各種網上互動，讓全校師生在疫情下仍能感受到濃厚的新年氣氛。這天活動先由陳偉佳總校長及第一城浸信會代表為同學們送上祝福和寄語。緊接著有精彩的醒獅表演，頓時為校園增添熱鬧氣氛。

小學部老師教授王安石作品《元日》，讓學生在中華文化的氛圍下，感受詩句所描寫的喜慶新春；又通過手工藝和遊戲，讓學生們可在一片歡樂中學習。

中學部舉行了「金牛獻瑞賀新春」問答比賽和「喜娃招福迎新歲」剪紙比賽。李云俠師傅為大家示範剪紙，師生積極參與，一起感受中國文化的博大精深。當天的豐富活動，增進同學們對中國文化的認識和興趣，並享受輕鬆愉快的一天。

## 6B 黃樂妍

中文科老師為了讓同學更能感受農曆新年的氣氛，特地舉辦了網上華服日。當天我們在家穿上華服，參與不同的網上活動，例如：三句半、相聲、《元日》詩歌學習等。當中我認為三句半的表演最有氣氛，由三位老師以押韻的形式說出對新年的祝願，再由第四位老師以幽默的短語回應，加上敲鑼打鼓，令氣氛更為熾熱。

## 10C 李恩穎

網上進行中國文化日的安排出乎我意料之外。我不但能夠欣賞絕妙的醒獅表演，還能參加不同的比賽，令我更了解中國文化。我最喜歡剪紙活動，一邊聆聽導師的講解，一邊剪出屬於自己的可愛中國娃娃，真的有趣極了！

# School Tour Learning Activities

We welcomed our students back to school for face to face lessons with lots of excitement. The students were greeted at the gate with a friendly robot, Pepper. A school tour was arranged for students to visit some of the signatures venues of both Primary and Secondary Divisions on February 22 and March 1, 2021.

## 3C CHAN Hoi Lee

*I would like to share about my feeling about the school tour. The first destination was the Indoor Gym running track. We used the trundle wheel to measure how long the whole running track was. Secondly, we went to visit some endangered animals. Lastly, we went to the 4th floor and read books. The weather was hot but I still enjoyed it. That day was so memorable!*

## 4B CHEUNG Markus

*On the day we toured the secondary division of A-School, we went to the sky garden and the Endangered Species Museum. When we went to the museum, there were many animal displays, such as crocodile skin handbags. We learnt that we shouldn't harm animals and should protect them. It was a really interesting experience! My favourite part of the tour was going to the sky garden because there were fish I could see up close!*

## 5C HO Isabella

*On the day of coming back to school, we all took a short tour around the secondary division. We first went to the Indoor Gym's jogging track. We all got requested to measure how long it was. Then, we went to the Endangered Species Museum. It was so much fun and it was a small and fun experience.*

# Book Character Day

March 29, 2021

One of our primary goals of developing literacy is to develop a love for reading in our children. To this end, we encourage our students to read a variety of texts, for pleasure and for critical knowledge, in effect, developing a culture of reading across the curriculum. We have a lot of wonderful activities planned for the Book Character Day. e.g. Book Character Day Parade, Battle of the Books, Story Mum and Dad etc. All the students, parents and teachers enjoy reading on that day!

## 2D CHEN Lianyu Lucas

The Book Character Day was my FAVOURITE event last year! It felt like we brought our beloved characters from books into real life, and turned the school into a fantasy world! More exciting was that our parents also dressed up like characters so they could join us at school. Oh, I forgot to mention. I was the Cat in The Hat last year! I am so looking forward to the next Book Character Day! Who should I be this time?

## 2A 潘子弘

在悅讀日，我印象最深刻的事能與媽媽一起穿上哈利波特的戲服在舞台上走秀，能扮演喜愛的書中人物，了解人物的品格強項等，令我們感到非常興奮！謝謝A-School讓我們有這個難忘的體驗！

## 3B WONG Tik Yin Jadon

Book Character Day is very fun because I can dress up as my favourite book character and introduce his character strength to my classmates. It is more interesting than a normal class. On that day, the most unforgettable activity is the Story Mum, the parents came to our class to share different stories and play games with us!

## A-Sports Challenge Day April 19, 2021

The annual Athletic and Aquatic Meet were cancelled due to the epidemic situations. In order to maintain our students' sense of belonging to their classes and houses, encourage them to stay active and exercise regularly, A-Sports Challenge Day which included handmade sports equipment, yoga experience, sports games such as basketball shooting, class relay, rope skipping kiosk challenge and standing long jump was arranged so that all students and teachers could move and sweat together. The happy faces and laughters reminded us the importance of doing physical exercises, especially when we could enjoy them with our lovely peers and teachers.

### 6D TAM Sin Man Cherry

*I think that the A-Sports Challenge Day was very fun. We had many competitions to enjoy. We could challenge ourselves, or play together as a team. The most important thing that I learned was teamwork because we had to work together to get the best results. I enjoyed the day a lot with my friends.*

### 6C TAM Hazel

*A-Sports Challenge Day was held on April 19, 2021. It was a memorable day for me because that day was my birthday. There were different types of competitions such as basketball, rope skipping and inter-class relay. At first, I was disappointed that Athletic Meet was cancelled. However, when I knew that my teachers carried out this challenge day instead, I was so thankful for their arrangement. I really enjoyed that day with my teachers and classmates.*

## Graduation

Graduating from secondary school is a huge milestone in life. It is a transition from adolescence to young adulthood, a time to plan for the next step in their further studies or careers. On March 5, 2021, we organised the Baccalaureate Service to thank God leading the graduands in the past 12 years. On June 19, 2021, we had a joyous celebration with our Graduation Class of 2021.

## 10th Graduation Ceremony

We were honoured to present graduands with the presence of our School Supervisor, Chief Principal, the school management, class teachers and parents in the 10th Graduation Ceremony. Even under the masks, parents' smiling faces told us how proud they were to see the growth of their children. Beautiful music was presented by our A-Musicians, adding solemnity to the ceremony. A photo slideshow capturing some of the best moments has recalled our precious memories throughout the years in A-School. Student representatives also gave their heartfelt vote of thanks to their teachers and parents for their endless support and care.

### 2021 Graduate CHAN Hei Tung

*Despite all the exhausting academic hardships, my memories made here and the people I met are some of the best things that have happened to me, and there is nothing I would not give to do it all over again. Other than that, I also pushed myself to step out of my comfort zone in the new environment at university and tried joining the student society of the faculty of*

*visual arts. I could apply the experience I gained when I served as a committee of Chamber Columbus to the planning of our event and am grateful that A-School provided such opportunities. have accompanied me in the critical years of my life.*

### 2021 Graduate SO Tsz Chung

*A-School assists me to familiarise myself with how life and university work in Germany, e.g. having a 1-to-1 conversation with Mr. Karsten to discuss the university system and its characteristics and more.*

*Aside from preparing for further studies, A-School also contributes to the personal growth of students. Different exchange and excursion programmes to worldwide locations allow us to develop personal management and independent skill. Various week activities bring us to get along with new cultures. A-School is an incubator to develop students' unique skills and abilities, also being an important stepping stone for exploring the world.*

## Baccalaureate Service

# APEX Visual Arts Graduation Show

Our APEX Graduation Show 2021 was successfully held on July 1-5 at the Hong Kong Visual Arts Centre. This year we had 15 DSE students, 2 GCE AL students and 2 outstanding PS students to participate in the show. We were delighted to see a lot of amazing artworks with different meaningful themes and creative ideas. Principals, teachers, parents and artists Mr. Wong Chun Hei Stephen and Miss Chu Cheuk Wai Margaret were invited to the Opening Ceremony to share the accomplishments of our student artists.

## 2021 Graduate MA Hoi Ching

*APEX is my first ever exhibition. It gave me a priceless experience to place our artwork under the spotlight and share it with classmates, teachers, and even strangers. Art is my form of expression and communication, my classmate and I can have deeper contact by sharing thoughts and feelings toward art and deep bonding with each other.*

## 2021 Graduate CHAN Hei Tung

*The APEX show was an amazing experience and opportunity for students to showcase their hard work. It also created a platform for students, teachers, parents and even the public to share and exchange creative views. APEX reminds us that art should not be limited within the examination framework and inspires us to dream big.*

# Project-based Learning Showcase

Project-based Learning Showcase was concluded successfully on July 10, 2021! Parents and students very much enjoyed the Showcase Day learning more about PBL and its involvement. Students participated in workshops, engaged in discussions, collected relevant information and addressed local or global issues engaging their interests and critical thinking. A-Innovation is the main theme this year and students incorporated this theme into their everyday lives while being innovative in applying solutions to solve their problems.

## 5 lil' eggettes (G708) | PBL 2021

**7A WONG Nga Yin, 7E LAI Yan Ching, 7E LAU Hau Ling Charlene, 7E YEUNG Tze Wing**

We had an amazing opportunity to voice out our crazy ideas and solutions to solve problems. We felt grateful for the results and the support from teachers and students.

It is an unforgettable journey which added to our life experience. Even though there were a lot of hardships along the way, we overcame them together and that made our team to grow stronger.

## ArtsLance (G915) | PBL 2021

**9B CHAU Yui Yan, 9B CHU Ka Yee, 9B FU Cheuk Yiu Tiffany, 9B FUNG See Tsai, 9B LO Yuet Yi Sophie**

"We are designing an application for freelance performers, artists or creators who cannot find a right job easily."

*Listening to users' feedback and teamwork are crucial in designing a product for our targeted users. We learnt how to design and refine our product by listening to our users, classmates and teachers. Their valuable feedback drastically improved the features and quality of our product.*

## 6B CHEUK Ka Him Torres

*It was a memorable experience for me. During this PBL, we worked on different STEAM projects. Mr. Luk led us to think from different angles allowing us to discover our weaknesses and things that needed to improve. All the groups in this PBL shared their own ideas just like a family. All of us are inspired by each other through listening to the presentations.*

## 2E NG Liana

*It was a great experience with my teachers and classmates. We had so much fun learning about the culture of Egypt. I enjoyed making "Wesekh" with paper plates, which is an Egyptian jewellery. Have you ever thought that doing a project could be so much fun? I can't wait for my next PBL project!*

# A-Sports Olympics

Due to the epidemic situations, it was the first time we have to cancel both the Aquatic and Athletic Meets, but it also paved the way for us to organise the first ever internal sports day in school – the A-Sports Olympics on July 12, 2021.

The event echoed with the upcoming of Tokyo Olympics, promoted the spirit of sportsmanship and fair play to our students. Events such as Olympism seminar and knowledge quiz, as well as cycling, relay run and rope skipping challenge using the newly introduced systems and devices which could record and compare performances of students.

## 11C MOK Molly

*When asking my chamber members to join, I had been rejected many times. I found out that it was me being too impatient, so I decided to change my mind set and got enough members to join eventually. Seeing all the members lying down with sweat in the cycling competition, they still managed to stand up and continue when their turn came. I was touched and had learned not to give up no matter how tough the difficulties you are facing.*

## 11D LAI Lok Man

*During the pandemic period, it was hard for us to organize large-scale sports events. But A-School provided us the A-Sport Olympics so that we can keep doing sports and fight for our. The Inter Chamber Cycling Challenge was really exciting, as it was a rare and new opportunity for us to try the cycling trainers and enhance our sense of belongings towards the chambers. The Inter-Class competition such as basketball shooting and relay run were also meaningful for us, these created remarkable memories for our classes to remember.*

# 十年長期服務獎

Hong Kong Baptist University Affiliated School  
Wong Kam Fai Secondary and Primary School

## 獲獎名單

Name		Position
Yip Fung Ha	葉鳳霞	Executive Secretary to Chief Principal
Chiu Yuen Ting	趙婉婷	Senior Human Resources Officer

## 陳靜怡老師

小學部助理中文科主任(高小)

感謝學校對我的工作給予認可與肯定；  
感謝各部門同事的幫助與通力合作；  
感謝學生和家長們的信任與支持，  
讓我在這10年收穫滿滿，成長進步。  
我會繼續努力，在未來提供更好的教育給學生。

## Sharing from Teachers

### 黃婷婷老師 助理中國語文科主任

大家好！我是黃婷婷老師。說起在A-School教學的日子，太多的回憶湧上心頭。我是陪伴A-School茁壯成長的一個見證人，而A-School也提供了一個廣闊的天地盡我所長。在學校教學的這些年頭，我從青澀到游刃有餘，時至今日，更有一份熱愛支持着我砥礪前行。

最近，我總在思考，如何能讓同學們直面困難，以一顆無懼之心去乘風破浪呢？學生時代最討厭上體育課的我開始了長跑、登山等運動，我磨煉了意志，更體會到攀上巔峰、衝向終點的那種無可比擬的成就感。在疫情之下，同學們面臨着前所未有的挑戰，希望同學們勇敢面對，往後的人生即使未必一帆風順，也定有沿途美景在等待着你。

### 蘇喆琳老師 資訊科技科老師

大家好，我是中學部資訊及通訊科技科的老師，同時也是這學校的畢業生。自兩年前以教師的身份回到這裏，我經歷了許多，我從一個懵懂的職場新鮮人，變得可以在某些角色上引領學生成長。

作為舊生，我希望能夠傳承一些良好的傳統給師弟妹們，特別在我熱愛的排球運動中，我更想帶領著排球隊那群有點傻氣的男生更上一層樓，即使有時候工作繁忙，但當他們總來問我可否打球時，我總是難以拒絕他們，只好在球場邊完成工作，不過看到每個球員付出越來越多，我的成就感油然而生，我希望我對事情的投入能夠感染更多學生願意付出，也成就更好的自己。

## Ms. LI Hiu Tung, Cora

### Head of OLE and PBL

Hi everyone. I'm Ms. Cora Li!

You might have seen me waving goodbye to the little ones at the Atrium or making announcements in the assemblies. I teach English, and this is my first-year teaching STEAM. It was quite a challenge for me at first, yet I understand it is a meaningful and inspiring subject that can really be instrumental in students' development. By learning to take risks, think outside the box, and combine the familiar with the unfamiliar, students are challenged to grow outside of their comfort zone. I'm surprised and also delighted to see the progress they made.

Here is something about me. I enjoy traveling during long holidays and learning about the differences between cultures. Visiting new places allows us to explore new surroundings, meet different people and be inspired to try new things. In my free time I try to relax and enjoy different activities, like watching movies, reading books, playing board games with friends to stimulate my creative thinking while also trying out different new restaurants to satisfy my foodie personality.

Teaching in A-School is an amazing journey, for we are surrounded by all the amiable, beloved and caring students every day. Their bright smiles can always brighten up my day. I truly believe that it is a blessing to be an A-School student because there are numerous opportunities for them to unleash their talents and many fun, eventful activities for them to engage and enjoy as well.

Students, always remember, "You're braver than you believe, stronger than you seem, and smarter than you think."  
- A. A. Milne.

## Mr. HUI Pak Nin, Michael

### Coordinator of Physical Development (Junior School)

I am Mr. Michael Hui, the Coordinator of Physical Development (Junior School). I have been working in A-School since 2019 and this is my 3rd year here. I still remember the moments when I was studying here and it's such a memorable period I have. Even now, I really want to go back and study in A-School again. It helps me to become the person I am now.

I want to become a teacher since I was in Grade 8 in A-School. I remember I had taken different roles in the school especially team captain of badminton team and Chamber Leader. Those roles taught me that 'Being ourselves is simple, being a leader or team player is an advanced level'. Same concept of being a single player is simple, we just have to practice hard and try our best all the time, however, it's advanced if we want to spread these spirits to peers. We need to be a person who always considerate the feeling of others.

The transformation from a student to a teacher in A-School is very meaningful to me. It always provides the best learning condition and environment for students to learn which a former students to think and explore out of the box. As student, I believe we have different characteristic and mindset comparing with the students from other schools. My learning path and experiences in A-School bring me lots of ideas and strategies to have better communication with students and I want to understand my students deeply by considering more on student's perspective. Last but not least, I hope all the students in A-School can keep chasing your dream and never give up.

Freehand - Novice A	Champion	3D	AU Hiu Chin

## A-Memory Gallery

One of the construction projects celebrating the School's 15th anniversary, A-Memory Gallery, located on the 3/F of Madam Wong Liu Wai Man Building, has opened!

The gallery showcases collections of precious and memorable items contributed by our staff, students, alumni and parents. You will find a variety of exhibits ranging from students' awards, art pieces, school publications, souvenirs, time capsule, to historical documents, etc.

Six display boards highlight our milestones in the past 15 years, with remarkable events and developments that lead us to where we are today. They also introduce our latest innovations and unveil

our future plans, including some major construction projects ahead. Besides, a series of videos were produced for different school stakeholders, including our School Supervisor, Professor Frank Fu, to share their views and feelings towards the School, that may strike a chord with you.

You will also find our graduates on the Honour Roll, who demonstrated an exemplary commitment to their studies and achieved outstanding academic results. Alongside the last display board, a campus model is set to show the landscape and architecture of the whole school.

Step by step, let us walk you through our journey of growth and achievements!
