香港回歸25周年活動

本校為慶祝香港回歸祖國二十五年，舉辦了一系列活動供師生參與，包括全校升旗典禮及旗下講話、「慶回歸廿五周年香港成就」回顧相片展覽暨網上問答比賽、硬筆書法比賽、「心連心愛香港」設計比賽、慶祝香港回歸祖國二十五周年設計展、國旗、國徽、區旗、區徽設計研究及香港回歸祖國二十五周年書展，同學反應踴躍熱烈，熱心投入參與活動，從活動中感受香港回歸祖國二十五周年的喜悅和興奮。

一系列慶回歸活動鼓勵同學多關心國家發展，培養國民身份認同，並且增加同學對國家及香港的歷史發展認識。回歸二十五周年，國家和香港面對不少機遇，同時伴隨着挑戰，但正如德育及公民教育領袖生致辭時所說，二十五歲正是人生中最充滿活力幹勁的年華，面對各種風浪和挑戰仍奮勇無懼，同時更應對未來充滿熱切的期待和信心。

8E 鄭梓妍

我剛加入德育及公民教育領袖團隊的時候，負責的事情不多。到了八年級才發現，作為德育及公民教育領袖生，我在積累經驗的同時也影響到身邊的同學，真是利人利己。今年，我常接觸到有關《基本法》的推廣活動、比賽、講座等，獲益匪淺。適逢今年香港回歸祖國二十五周年，是祖國與香港的重要里程碑，也是我成為領袖生的重要里程碑。能為慶祝香港特區成立二十五周年做早會分享是我的莫大榮幸。

InnoCave @ Solomon InnoLab

Kwok Chung Bo Fun Learning Complex, 5/F, Primary Division

The InnoCave is a room-sized immersive 3D Virtual Reality (VR) systems that enable multiple users to collaboratively observe, interact, and manipulate naturally with virtual and real-world objects on a life-size scale. While inside the InnoCave, users experience the sensation of full-body immersion and embodiment and can interact with the virtual environment with specially designed user interfaces.

The multi-sensory full-body Immersive experience is infinitely expandable through integration with a wide range of add-on systems and accessories, such as motion platforms, physical object mock-ups, haptic-feedback devices, etc., delivering users a multi-sensory true-to-life immersive VR experience.

In the InnoCave, students can

- experience the simulated environment which they cannot easily attend, like exploring Mars, observing different kinds of creatures under the sea, and visiting ancient temples in Athens.
- conduct skill training in a virtual environment, like safety in a laboratory.
- present their ideas visually by scanning or creating their own 3D models and virtual environment, like setting up a gallery of their own works, presenting their design of a smart city.
- combine light and sound, and external projections to perform.
- conduct across regions meeting, like activities with sister schools outside HK.
- use special sensors, like sensor skin, to produce some human-computer interaction animations
- conduct SMART light activities in the PS IoT (internet of Things) STEAM curriculum. The cave can be a showcase stage of the effects designed.

Multiple purposes

- Supports various modes of usage, from elementary 2D projection, like Powerpoint presentation, to immersive projection, like 360 video, to advanced 3D environments, like virtual simulations.
- Supports most industrial standard 3D models and virtual environments.
- Enables cinematic 3D experience in the classroom size real environment

Full connectivity

- Through 5G network, we may connect any devices anywhere in the world

Gabriel Hall is named after the angel Gabriel, who is the messenger of God to make God's message understandable to people and helps them to accept it with a pure heart. It is known for its powerful connotation "God is my strength".

When designing the Hall, it is intended to help students develop their passion in arts. We hope that students could experience the complete lifespan of music creation, from songwriting to appreciating a piece of music. The Gabriel Hall, which is opposite to the Solomon InnoLab, accommodates the required hardware and software to realize our vision, in collaboration with our music curriculum.

The Gabriel Hall has two fully equipped music classrooms that can better meet daily teaching and learning requirements. They can be connected into a full-featured Music Concert Hall with a 4-level riser, adequate sound dampening foam for acoustic performance, for example choir and instrumental performances. Our students may learn, practice, perform, and enjoy music all in one venue.

Gabriel Hall

Kwok Chung Bo Fun Learning Complex, 5/F, Primary Division

Opening Ceremony of Kwok Chung Bo Fun Learning Complex

The grand opening ceremony of the **Kwok Chung Bo Fun Learning Complex** set another milestone of A-School. This state-of-the-art complex, on 5/F at Primary Division, comprising of **Solomon InnoLab** and **Gabriel Hall**, will serve to aid the development of our aesthetic education and strengthen the use of technology in our teaching and learning.

We were tremendously delighted to have distinguished guests and principals joining the opening ceremony on May 28, 2022. The speeches by our guests of honour, **Miss OR Kar Lok, JP, District Officer (Shatin)**, **Mr. Raymond KWOK, representative of Kwok Chung Bo Fun Charitable Fund**, **Ir Dr. LAM Hiu Fung, Chairman of the Board of Directors for the Hong Kong Academy of Gifted Education**, and **Dr. Ray CHEUNG, Chairman of Standing Committee HK STEM Education Alliance**, were greatly appreciative of A-School's direction and effort in nurturing innovative talent.

The school is grateful for the generous donation by the **Kwok Chung Bo Fun Charitable Fund** to support the renovation of the fifth floor of the Primary Division. This important learning space provides teachers and students with facilities that instill God's love and nurture Hong Kong's best talents. May God continue to bless the A-School community with his wisdom and love.

6C WONG King Hei

The opening ceremony was a true success! I was on cloud nine that day! Many guests from different schools and districts attended this joyous occasion. Although I was very nervous before the event, it was indeed a fabulous experience for me to help with the opening ceremony.

6D ZHOU Lang Cheng

Helping with the opening ceremony was a huge honour for me. There was a mix of excitement and nervousness. The newly-built InnoLab will provide our A-School students with profound learning experiences like getting to mimic real-life experience inside the CAVE. Every single part of the event was great and I particularly enjoyed the VR opening.

6E MA Sze Ching

Having an InnoLab is a great addition to A-School! The VR technology can enhance students' learning environment and experience. The introduction of the Solomon InnoLab and Gabriel Music Hall will definitely enhance our lessons. By taking part in this ceremony, I have gained experiences on how to organize events and present with confidence.

Champion in the English Division of the

37th Sing Tao Inter-School Debating Competition

Our English Debating Team embarked on a half-year journey last November with high hopes, a journey that had witnessed days and nights of research, script writing and rehearsals. On May 4th at Queen Elizabeth Stadium, we were crowned **Champion of the 37th Sing Tao Inter-School Debating Competition in the English section!**

The team of debaters comprising four senior debaters, namely Clement Kwok, Melody Lin, Alfred Cheung and Ethan Ip, and two junior debaters, namely Tang Hau In and Eires Yuen, has made history for our school. Moreover, Melody Lin has been awarded the overall Best Debater Award of the entire tournament.

Sing Tao Inter-School Debating Competition is a new pursuit for our English Debating Team. As first-time participants, the students have displayed much commitment and resilience throughout the journey, constantly reorienting themselves amidst different difficulties in order to actualise this shared dream that we can now proudly claim ours.

11D CHEUNG Kwan Chiu

The experience of brainstorming, writing and practicing with the team was unforgettable. The most valuable thing I gained from the competition was not the award. Instead, it was the time when my friends and I came together and did something that we are all passionate about.

11E KWOK Ho Wang Clement

I never stay up late for schoolwork. My teammates probably do but I definitely don't. However, this competition forced us all to bring our A-game and that speaks volumes about its competitiveness and intensity. Although winning felt great, the strengthened bond between us is what meant most to me.

Mr. CHONG Jeff, Teacher-in-charge

I am beyond blessed to have come across this team of debaters, who are serious with what they do and more importantly, share with me the same determination and eagerness to win. This victory is the most eloquent testimony to A-School's successful all-round education throughout the years. The credit goes to every teacher in both primary and secondary divisions. Opportunity has been and will always be there - the key is to develop the vision to see it and actualise it. Thanks to the school for the unflinching trust and support throughout our journey.

11C LIN Wing Tung

This unforgettable experience has taught me the importance of a correct mentality. Yes, our debate training, intense research and late-night script writing sessions have paid off, but 80% of our success lies in the ability to withstand the immense pressure and to continue to move forward even if we mess up.

11E IP Hei Yeung Ethan

I'll never forget a single moment in the landmark occasion of participating in the Sing Tao debating competition. While I myself enhanced my critical thinking and analytical skills, this opportunity allowed us to prove our camaraderie as friends and as a team. It was a really fun and rewarding experience.

一年一度的朗誦比賽盛事——粵港姊妹學校中華經典美文誦讀比賽已順利於今年六月落下了帷幕。懷著對香港回歸二十五週年的喜悅，帶著對祖國的美好祝福，我校與姊妹學校廣州市華師附中番禺小學的朗誦隊隊員合作表演了作品《少年中國說》，並一舉獲得了**2021年粵港姊妹學校中華經典美文誦讀比賽（香港賽區）暨慶祝香港特別行政區成立二十五週年活動的金獎及最具慶祝回歸元素獎**，因為有多間學校角逐，競爭異常激烈，獲此殊榮實屬不易。

端午前夕，教育局及香港教育聯會的嘉賓到訪我校，把獎盃及獎狀親自頒發到我校校長及師生手中。當天除了舉行頒獎禮，還有記者採訪總校長陳偉佳博士、四位指導老師及朗誦隊隊員，各人在訪問中也分享了該次比賽的參賽歷程和得獎感受。

古典美文誦讀，啟發了同學們對中華語言藝術的追求；姊妹結盟參賽，鞏固了兩地姊妹學校間的深厚情誼。真所謂「經典美文朗朗上口，姊妹情誼源遠流長」，在香港回歸二十五週年來臨之際，讓我們也藉此參賽作品，祝福祖國繁榮昌盛，同賀香港錦繡前程。

粵港姊妹學校中華經典美文誦讀比賽（香港賽區）暨慶祝香港特別行政區成立二十五週年頒獎典禮

Achievements

Gold Nanorod Time Temperature Indicator

First Prize

24th Hong Kong Youth Science and Technology Innovation Competition

Our student research project "GoldIn" has been awarded the **First Prize** among 4,000 entries from nearly 400 schools in the **24th Hong Kong Youth Science and Technology Innovation Competition in the Secondary School Research and Invention (Senior Secondary) Biology and Health** category on March 26, 2022.

Our team comprises three students, LIN Wing Tung Melody, CHEUNG Kwan Chiu Alfred and WONG Kai Chung Noah, dedicated a whole year to working on nanotechnology, together they marked another breakthrough in our STEAM education.

The competition is organized by the Hong Kong New Generation Cultural Association, commissioned by the Education Bureau and co-organized by the Hong Kong Science and Technology Parks Corporation. Since its launch in 1997, the Hong Kong Youth Science and Technology Innovation Competition has been the largest and most popular STEAM competition in Hong Kong.

11D CHEUNG Kwan Chiu

We are extremely honoured to receive this award. This process of the research project not only allowed us to learn knowledge outside our textbook, but also taught us how to deal with adversities and challenges. To me, these skills are just as important as the technical aspect of the project.

11E WONG Kai Chung

Presenting our work to the judges, who are professionals in science, is the most challenging part of the project. Every detail of the project has to be well acquainted to show that every step of the project was taken logically. During this valuable experience, we strengthened our time-management, communication, and planning skills.

Tennis Teams

Time flies and it is already the 10th year since the Tennis Team's establishment in 2012-13. With the team's hard work, the boys' team tasted their first championship in the **New Territories Secondary Schools Tennis Competition** in 2014-15. In 2018-19, both boys' and girls' tennis teams won the champion in the inter-school competition together for the first time.

Due to the pandemic, the inter-school competitions had been cancelled for two years. Nevertheless, **both boys' and girls' tennis teams** kept being very competitive and won the **champion** in the inter-school competitions together again after the resumption of the competitions this year.

9D MA Tsun Hang Nathan

It has been difficult for all teammates this year due to the short training time before competition. Throughout the entire journey, we had overcome many obstacles. I am thrilled and extremely happy to tell everyone that we won the inter-school tennis competition. We wouldn't have won this title so easily without the help and encouragement of Ms. Pak, Mr. Sunny and all the teachers and schoolmates.

11A CHAN Kwok Shun Dason

I'm glad that we won the inter-school tennis competition for school this year. Our teammates, coach and teacher had been working so hard to achieve this goal. Under this difficult situation of pandemic, our teammates didn't stop working, we did training and set goals to achieve better results. I hope we can keep working hard and get the champion again next year.

12D CHAN Wing Yan Emily

Due to the pandemic, we need to change our tactics in this year's competition since there was a change of competition system. We faced different challenges all the way through the competition, but at last, we overcame them. Winning this competition is not just because of our talent but also our teamwork.

This is my last year representing the school tennis team. I am so grateful that I could participate in the competition during this hard time. I am also thankful that the competition brought me tremendous memories before I graduate.

Mr. YU Sunny, Team Coach

Thank you A-School for giving me the opportunity to be the tennis team coach for nine years. I am so happy to see my team winning many trophies especially for the last few years.

Because of COVID-19, the team could not join the inter-school competitions for two years. This year, even under so many uncertainties, all the players were still playing their best performance on the court and cheered up to support their teammates for every match in the long-awaited competition. Hope the team can continue their hard work and get more champions.

Ms. PAK Eva, Team Teacher-in-charge

Forming and leading the Tennis Team has always been one of my best memories in A-School. In the past decade, I could see the members' enthusiasm and dedication in playing tennis. They never stop trying to do their best and show support to each other as a team. Members have surprised me so many times by letting me know how talented our students can be and there is no limit for them to go further and achieve more. I am really lucky and grateful to witness the team's development as well as the growth of every individual member over the years. Can't wait to see more surprises from the team in the coming future!

中學部女子 羽毛球隊 三連冠

中學部女子甲組羽毛球隊自丙組成軍起，一直全力應戰，每次出征學界比賽皆問鼎冠軍。過去兩年賽事因疫情而取消，今年疫情稍緩，羽毛球場風雲再起，已升至甲組的女甲隊伍繼續稱霸，一舉取下本校首個沙西區女子甲組羽毛球冠軍，為本校體育創下光輝紀錄。

11D 蘇芴潼

我們終於成功了，拿下校際羽毛球比賽女子甲組冠軍。回想當天的比賽，心情既期待又緊張，但根本沒有太多時間去想，唯有不理會對方是強是弱；心裡只有一個目標，就是盡力去打好每一分。比賽過程中，我們有領先過也有落後過，幸好有老師和教練在場指導，再加上我們一班隊友的支持和鼓勵，最後終於得到勝利！希望在接下來的比賽中我們繼續為學校爭取更好的成績。

11D 駱健晴

經過幾波疫情後，慶幸今次比賽終於能如常進行，值得高興的是我們在比賽中獲得良好的成績，以及大家都發揮到最佳的狀態。當中要感恩的是一直在我們背後指導的老師和教練，令我們有清晰的戰術，加上隊友的支持和鼓勵，才能取得今次的勝利。作為一個羽毛球隊能夠這麼團結上下一心齊上齊落，遇到一群有共同目標的隊友是我最感恩的事。無論成績是好與壞，從中我們亦能獲益良多，今次賽事令我有更多的啟發。現時每一個比賽又或者訓練，對於運動員們來說是得來不易，要好好珍惜所擁有的一切和認真對待每次的比賽，在此在將來，我希望羽毛球隊的團結能夠一直承傳下去，我會盡我所能為學校爭取更多的優異成績！

11C 洪富淇

今次比賽因為是疫情緩和後首個學界賽事，我們在體力和心理上都有所下降；可是每個隊員都積極訓練，務求能夠盡快回復最佳狀態迎戰。過程雖然辛苦，但是隊員之間互相鼓勵、互相扶持，在經歷每場比賽的勝利過後，亦令我們士氣大振。與此同時，我們感到自豪和光榮能夠為學校奪得首個女甲冠軍，這是一次意義非凡的成就，也促使我們更加勤奮和努力，希望下次能夠蟬聯冠軍！

官惠慈教練

這隊女子羽毛球隊是我從丙組開始帶起，記得第一次比賽大家非常緊張。後來一場一場經歷，當中不乏激戰，分數非常緊湊，好幾次都要打到第三局才贏得決勝分！今次比賽最後能奪得冠軍，除了球員堅毅意志和發揮非常出色的技術之外，還表現出互相鼓勵的團結精神！真的令我感到喜出望外！

這支隊伍一直抱著認真積極的態度去練習，沙西學界比賽一年比一年贏得輕鬆，直到今年升上甲組已經連續三次取得冠軍！我對她們的成績非常滿意，希望她們可以保持積極的心態，繼續發光發亮！

許柏年老師 負責老師

慶幸今年度的中學甲組羽毛球比賽能夠順利舉行，期待已久的女甲隊員事隔兩年終於可以再次踏上比賽場上，盡情展示她們的能力，並於這次的比賽中為本校取得歷史性的沙西區學界冠軍，創下了難以取替的紀錄。還記得我還未正式成為本校的老師時，我是以一名舊生的身份去協助教練與她們訓練，直到現在不論在心態還是技術上看著她們和羽毛球隊的成長和發展，實在別有一番感受。

本校女甲羽毛球隊能夠於逆境下迎難而上，我相信她們不會停下腳步，為更宏大的目標繼續努力練習，再創佳績！

本校女子乒乓球隊在沙田及西貢區中學校際乒乓球比賽甲組賽事首奪冠軍。在各輪賽事越戰越勇，分別打敗培僑書院、體藝中學，並在決賽擊敗以局數3:0大勝林大輝中學，成功拿下本校首枚沙西區女甲乒乓球金牌，為本校女子乒乓球寫下光輝新一頁。

鍾麗娜老師 負責老師

還記得初賽在聯和墟體育館時已感受到女甲隊員爭勝的決心，她們各司其職，認真對待每一場比賽；也許亦時因為緊張，初賽未能完全發揮，最後以次名進入複賽。及後我們重整旗鼓，決心爭標。看到每位女甲隊員互相支持，每次落場雖然是一個人，但全隊人在場給予的吶喊聲及支持；我相信落場奮戰的代表一定感受到。複賽時每一場都是硬仗，隊員們咬緊牙關，越戰越勇；分別戰勝培僑書院、體藝中學，成功進入決賽並重遇初賽讓我們嘗敗仗的林大輝中學。全隊上下一心調整策略，而出賽隊員有超水準發揮，最後本校以局數3:0完勝林大輝中學，第一次取得學沙西區學界冠軍！以上佳績全賴隊員、教練蔡sir，老師及學校的團結和支持才能達成。近年香港學界乒乓球水平越來越高，本校亦不敢怠慢，會繼續努力提升；希望各隊員努力不懈，以團體精神打贏每一仗。

9D 方心愉

我很榮幸能獲得今年沙西區乒乓球學界甲組的冠軍。我衷心感謝老師、蔡sir以及隊友們的鼓勵和支持。雖然我們未能在小組以首名出線，但在決賽贏了同組首名出線的林大輝中學，多虧隊友們強大的心理素質，才能獲得冠軍。因為這次的獲獎，增加了隊友們和我之間的凝聚力和默契。希望明年的學界我們繼續能保持，再接再厲！

蔡漢銓教練

今年本校女子甲組首次勇奪沙西區乒乓球學界冠軍，作為本校教練的我感到十分驚喜及感動，完成中學男女隊伍也得到冠軍的歷史任務！回想過去幾年因疫情減少訓練時間，無奈令到不少球員球技生疏。在分組賽時本校曾經以二比三敗走林大輝中學，僅以小組第二名進入複賽淘汰賽階段但隊員們沒有懷疑自己的能力，一直逆流而上打入決賽，重遇林大輝中學。我們出奇不意的策略，包括調動丙組女隊主力出戰，結果湊效！隊員憑著堅毅不屈的精神，勇挫該校勇奪冠軍！這場絕對是一場非常難忘的戰役！不知不覺已執教本校接近十年，為我帶來很多成就，例如在2018年為學校帶來非常卓越的成績，中學男子甲組及小學男子組同樣歷史性首次勇奪學界冠軍，為學校創下光輝的一頁！最後，希望各隊員能夠繼續勇往直前，為校繼續爭光！互勉之！

Rope Skipping Team

The epidemic might have caused suspension of many activities, but the determination to come through is unstoppable. For the first time taking part in an inter-school competition since the resumption of sports events, our Rope Skipping Team showcased their acquainted skills and snatched the **2nd runner-up** in the overall results in Sha Tin and Tai Po District in the **2021-2022 Sha Tin District Epidemic Prevention Inter-School Rope Skipping Competition**.

Mr. HUI Michael, Team Teacher-in-charge

Time flies and the first face to face competition of rope skipping finally happened after the two years of suspension. I could still remember the feelings of hand shaking once I noticed that it's the first face-to-face rope skipping competition for our students to join as it's time for our students to show off their talents and ambitions. Finally, our stars brought us a good news by achieving the 2nd Runner Up in the overall results in Sha Tin and Tai Po District.

During the pandemic situation, our students showed excellent efforts and perseverance during the online training and self-practicing at home. I could see they were both physically and mentally ready for the competition. Moreover, they also showed their passion on rope skipping and treat it as their lifelong habit to be a role model to other A-School students. I strongly believe that our Rope Skipping team will not be satisfied by achieving the trophies they have now. A-School Rope Skipping team will keep fighting for honours and revealing their potentials around Hong Kong.

4E FONG Chi Yau

I got the Overall Individual Champion, and the Champion award in the 30-second Forward Skip event, 1st Runner Up award in the Cycling Event, and 1st Runner Up award in the 30-second Cross-open event in U10 Girls Group. I learnt that self-confidence is very important. If you think your opponents are stronger and you will lose before trying, you already failed. We got 20 medals in total and a we won Inter-School Overall 2nd Runner Up. It's the power of teamwork!

Welcome all of you to join the Team if you enjoy this sport. Let's play together and represent A-School together. See you all next year!

6D POON Wu Coral

It was an honour to join the Competition which I have received a championship on 30-second Cycling style and two 2nd place on 30-second Forward Skip and 30-second Cross Forward Skip style. I enjoyed the feeling of winning!

I started joining the Rope Skipping Team since Grade 2 and I have learnt a lot in these four years such as different styles of rope skipping, communication skills and self-initiative during training and competition. I hope I can still join the Rope Skipping Team when I promote to Grade 7 and keep the passion on.

6E LAW Sum Yau

I have got three trophies and we also got the 2nd Runner Up of the overall results in all primary in Sha Tin and Tai Po District. I learnt to be brave and not being embarrassing to showcase myself during the competition.

I start joining Rope Skipping team since Grade 2 and it's a memorable experience by meeting new friends and new coaches. Learning how to cooperate with others as a team is very fun and joyful and it makes me a team player. I can feel I have started growing and becoming a 'better me' as an A-School student.

A-School students have excelled in various aspects including aesthetics, kinesthetics and linguistic development, and they made a lot of achievements.

Visual Arts

To further develop students' ability on art appreciation and creation, the school organized exhibition visits and artist workshop our students. Through their artwork, students can express themselves creatively with meaning using different art mediums and techniques.

G4 HO Wan Ching and LAM Tsz Ching, their artworks were selected for exhibit in "Exhibition of Student Visual Arts Work 2021/22" out of 1,100 entries. Wan Ching's artwork "Protect our Endangered Deer" is awarded "Certificate of Merit".

G1 NGAI Chak Sum Anson and CHAN Wing Sum were presented with Gold Award, "Little Hearts. Great Minds" – 3rd Asian Youth & Children Art Competition 2022.

Junior students won Gold Awards & Silver Awards in the **Robotic Design Drawing Competition**.

Sports - All Hong Kong Schools Jing Ying Badminton Tournament

Despite limited training opportunities and strong rivals in competitions, two students from our Primary Division, 6C TAM Hazel and 6D TAM Sin Man Cherry, participated in the **All Hong Kong Schools Jing Ying Badminton Tournament** and achieved good results. Hazel entered the quarter-final by defeating the strong opponent and **ranked 8th place** in all Hong Kong Primary Schools.

STEAM - Guinness World Records "The most people programming robots simultaneously"

We have received the official certificate from **the Guinness World Records** for our participation in the record event "The most people programming robots simultaneously".

Five A-School students from G4 to G8 are proud to have participated in this spectacular event with approximately 600 students in Hong Kong. The whole process was rigorous as it involved plenty of training, rehearsals, and selections. However, our outstanding and stable performances ensured our team had a chance to participate in the final stage. Once the international judges approved the result, everyone cheered for the success achieved.

Outstanding Awards

才藝 - 中國舞隊

第五十八屆校際舞蹈比賽

三人舞 - 優等獎：馬詩澄、李巧津、歐卓盈

三人舞 - 優等獎：李熙蕾、鄧可睿、黃樂妍

獨舞 - 優等獎：歐奕希

獨舞 - 優等獎：李熾亨

獨舞 - 優等獎：李巧津

現代舞 獨舞 - 甲級獎：楊凱兒

舞蹈是身體對美的言說，也是內心與美的對話。王錦輝小學中國舞隊無論是參加區際、校際舞蹈比賽，或是全港公開舞蹈大賽，甚至到鳳凰盃、香江盃、全方位比賽或舞蹈世界盃資格賽等各類比賽，都能用她們努力的汗水、精湛的舞姿，一次又一次為學校屢獲殊榮。

由教育局及香港舞蹈協會舉辦的第五十八屆校際舞蹈比賽：獨舞、雙人舞及三人舞已圓滿結束。小學部今年共有四支獨舞、兩支三人舞參賽。在是次比賽中，高小五支舞蹈全部獲得優等獎即第一名的佳績。低小楊凱兒同學在現代舞比賽中獲得甲級獎即第二名的好成績。

宋潔老師 負責導師

時光荏苒，歲月如梭。轉瞬間在王錦輝小學中國舞隊任教已有十四個年頭，能夠讓我多年來堅持在A-School教學的動力，來自於與學校、學生及家長們的同頻共震。十多年來，中國舞隊的成長就好像一部精彩蝶變的舞蹈發展史。孩子們用她們努力的汗水，將一齣齣舞蹈作品，綻放為一座座閃耀的獎盃！

寓教於樂，沒有什麼比成就孩子們的夢想感到更有意義。

STEAM - 首屆香港青少年航天創新大賽

近年中國致力發展航天科技，神舟十三號、天問一號、嫦娥四號等相繼完成任務，取得重要的科研成果。為加深學生對中國航天發展的認識，本校除了舉辦講座邀請航天員及科學團隊到校分享外，亦安排同學參加相關比賽，提升同學的航天科技素質。

由新一代文化協舉辦的「首屆香港青少年航天創新大賽」共獲得130個項目參賽，本校小學部陳雋諾、吳臻曜、李家悅，以及彭禧年、鄧沛匡、黃竟瑋組成兩支隊伍，分別於「火星家園主題賽」及「未來太空工程挑戰賽」獲頒優異獎。

Swimming Pool Building Project Contract Signing Ceremony

21 January 2022

Contract Signing Ceremony of Sports and Aquatic Complex

Out of the School's aspiration to nurture students' talent in aquatic sports within the campus and to further enhance our in-house facilities for physical education in general, this project was kicked off by commissioning an architectural firm to conduct a feasibility study two years ago. Throughout 2021, a series of tendering exercises had been conducted to seek for the best deal in the form of Design and Build Contract for realizing the project. After having gone through an intense period of presentation, assessment and negotiation, the School had finally reached its final decision in December, 2021. As this particular contract signing marks a very significant milestone in the development of the School, a ceremony of contract signing was held on January 21, 2022 at Joshua Hall witnessed by the School community. With this official launch of the project, it is anticipated that the project will be completed in the first quarter of 2024.

Up to late June, 2022, the main site works that have been carried out are those related to foundation of the building. In simple terms, the contractor now is constructing six reinforced concrete piles measuring about 35m in average so that they are to be socketed firmly in the bedrock below ground for supporting the new building.

Kwok Yat Wai Sports and Aquatic Complex Groundbreaking Ceremony

After a range of preparatory work for the Sports and Aquatic Complex, the building work finally has been kicked off with a groundbreaking ceremony to commemorate the occasion.

The groundbreaking ceremony of the much-anticipated Sports and Aquatic Complex took place on July 22, 2022. We are deeply grateful for the generous donation from Kwok Chung Bo Fun Charitable Fund and the Complex is renamed **Kwok Yat Wai Sports and Aquatic Complex** in appreciation of their support.

Mr. Raymond KWOK, representative of Kwok Chung Bo Fun Charitable Fund officiated at the Groundbreaking Ceremony. Representatives from contractors, School Supervisor Prof. Frank Fu, SMC members, Chief Principal Dr. Benjamin Chan, and the school senior management also joined the ceremony.

The new building echoes our commitment to offering diversified learning opportunities and whole-person development. With extensive sports facilities, we aim to nurture students' kinesthetic intelligence and physical fitness, training them to be mentally and physically strong persons.

The ceremony marked another key milestone of the project's construction phase. Let us wish it all the best and look forward to its completion and opening!

Illustrative concept

2021 - 22 Whole School Faculty Staff

Music Marathon

Our school hosted the **Music Marathon** at the school hall on December 18, 2022, and it was a huge success. All 30 classes dressed up in festive costumes and sang three songs: a hymn, a Christmas carol and a song of their own choice. Inspired by our event's music consultant, Uncle Carl, a famous music director and producer, with his musical passion and professionalism, and the support of class teachers, students could show off their talents and shine on stage. This event was really enjoyable for students, parents and teachers, and all of us were empowered with Christmas love and joy.

4B IP Chloe

We had so much fun preparing for the Music Marathon. We had a few bumps along the way, but we still managed to put on an excellent performance for everyone. Our first song was "O Come All Ye Faithful", then we sang a Chinese hymn called "滿有能力". At last, we sang "Believer", which was the pop song I sang solo for.

6E TAM Jessie

This year, our school organized the Music Marathon. Every class participated and sang lovely songs. My class performed three wonderful songs, and my role was to play the piano for the last song "紅日". We tried our best in every rehearsal. I felt grateful for having a chance to participate in this event.

5E LAU Melody

The music marathon was not only having fun singing together with classmates, but also sharing the beauty of music on the stage during the Christmas season. I was part of singing three songs with my classmates accompanied by the violins and piano. Our class all wore beautiful Christmas hats and held shakers singing with some simple movements to make our performance more perfect. We all had a great time and unforgettable memories.

4D YEUNG Kaden

We sang "Can you feel the love tonight?", "Joy to the world" and "Give thanks". Some students in my class played the instruments. It was all thanks to the ensemble teachers and class teachers for teaching us. I deeply appreciate their hard work and effort. My classmates did great and listened to the teachers so we performed nicely and were filled with confidence.

Up Close and Personal with Prof. Tsui Lap Chee

徐立之教授

Members of the Excel 33P successfully invited **Professor Tsui Lap Chee, a world-renowned geneticist and the 14th Vice-Chancellor and President of the University of Hong Kong** to share his valuable experience in the programme's signature forum "Up Close and Personal with Prof. Tsui Lap Chee" with the team and conduct a talk for our students.

Prof. Tsui shared about his good habits, childhood, and his journey to success. As a well-renowned scientist, he embraces strong sportsmanship, stimulating our interest in science and inspiring us to face challenges and overcome difficulties.

6E CHEUK Torres

Prof. Tsui's attitude surprised me. He is humorous but can be very serious sometimes. We, the Excel 33P members had participated in the preparation proactively, such as visiting a Mini-Expo, filming a promotion video, and lots more. It was a very special and remarkable experience for all of us.

6E WONG Pak Ho

We got a lot of inspiration from the sharing, especially when he told us "There is no hope of success if you give up". All of us can achieve if we strive for our dreams without hesitation.

6C TANG Yui

In order to welcome Prof. Tsui, our Excel 33P members even recorded a video. Not only that, we also practiced our questions to make sure we did our best in the interview! I would like to thank our teachers, principals, and of course, Prof. Tsui for this wonderful experience!

Sharing by Vivian Kong Man-wai 江旻博

Our students met with **Ms. Vivian Kong Man-wai, the top fencer in Hong Kong**, at her sharing event in December 2021. During the activity, Vivian shared her experiences on how she became a more mature and better fencer today, including how she managed her diet, study and training. She also led a training session for our students with some special warm up and training drills.

Vivian has achieved remarkable results in the last few years, including two-time individual Asian Champion, and joined the 2016 Rio de Janeiro and 2020 Tokyo Olympic Games respectively. She is also the first Hong Kong fencer to win a World Cup title in the FIE Women's Épée World Cup held in Havana, Cuba in 2019.

6A FONG Chi Yeung

It's my pleasure to meet my super idol Vivian Kong. One of her messages impressed me a lot, "the value of an athlete focus not only on being the winner or winning medals, but it's the spirit, the spirit to keep going until the end."

I learnt from her the importance of balancing studies and sports, and how to control my emotions during competitions. I will try my best as she said.

11D LI Sheung Long Charon

"Impossible is nothing." Seeing Vivian Kong in real life for the first time, I was amazed by her attitude towards her life. By balancing her studies and being a professional player, she has become my role model. Thank you for this opportunity to meet Vivian Kong.

中國文化體驗活動

為慶祝香港回歸祖國二十五週年，小學部於6月30日舉辦了「中國文化體驗活動」。活動內容十分精彩，包括雜耍表演、中國傳統民俗手藝攤位遊戲，例如中國剪紙、織草蓼、彩虹書法、面譜繪畫等等，透過有趣的活動，增加學生對中國文化的認識，提升國民身份認同，進一步了解和體驗中華文化的精髓。

4A 何允程

我感到十分興奮，因為疫情關係，我們少了很多接觸新事物的機會。當天，學校安排了許多精彩的表演和各式各樣的攤位，讓我們有機會體驗和了解中國的文化和歷史。例如變臉和雜耍表演，剪紙和風車製作，還有面譜設計和昔日小朋友玩的推鐵環等活動，真讓我們大開眼界！同時，也讓我對中國傳統文化有了更濃厚的興趣。

中國文化日

一年一度的文化日又來了！雖然今年的活動在網上進行，但同學對這天的期待依舊不減。當天洋溢著濃厚的節慶氣氛，除了有代表吉祥如意的醒獅表演，還有精湛的武術和雜技表演，令人拍案叫絕。

當日小學部舉行了社際揮春設計比賽頒獎禮，老師和家教會成員錄製了賀年短片，為大家送上祝福。此外，中文科老師還以相聲的形式介紹了中國文字的奧秘，讓同學在這歡樂的氣氛中感受中國文字的趣味。

中學部則安排了同學還跟隨水墨畫師傳畫水仙，一筆水墨，既蘊含著文化的精髓，為今年的文化日畫上了句號。

4A 李熾婷

雖然未能親身見面，但透過班主任主持的班級活動，讓我們對中國賀年文化有更深刻地認識，從「賀年猜猜猜」遊戲中領略了文字的趣味和奧秘。我們還在「網上許願牆」為虎年許下期望和寫下祝福呢！

9A 劉子馨

停課通知再次將我們與鬧騰的攤位和賣力的吆喝阻隔，我們只能相約在螢幕前。然而，活動的喜悅卻未減去分毫。灰諧的表演、技藝高超的雜技，還有畫水仙的活動，均匯成洋洋喜氣從螢幕中溢出。螢幕後的新年，同樣值得回味。

Hong Kong Arts Development Council Award for Arts Education in Schools

The 16th Hong Kong Arts Development Awards Presentation Ceremony organised by the Hong Kong Arts Development Council was held through a live broadcast on May 22, 2022. We are excited to announce that, after 2014 and 2017, this is the third time that our school was presented the **"Award for Arts Education in Schools"**.

Visual Arts always stays as one of the core values of the aesthetics education in A-School.

With the power of arts education, we nurture our students to be more creative and inspiring persons throughout their life. The pandemic may have caused us lots of challenges in teaching, but it cannot stop our passion to develop and organise new arts programmes including two Artists in Residence programmes, artists sharing sessions, art exhibitions of different themes and also published a booklet showcasing students' artworks. These events in the past year have involved over 5,000 participants including students, teachers, staff, parents, alumni, arts educators, etc. Through students' creative works, we wish to inspire an appreciation for art in a wide audience and re-establish relationships among people in the community.

We would like to take this opportunity to express our deepest gratitude to A-School for the continuous support in arts education. Visual Arts team will keep playing the important role to inspire students and strive for another milestone.

2022 APEX Graduation Show

The **2022 APEX Graduation Show** was presented at **Hong Kong Visual Arts Centre** on July 7-11, 2022. Visitors all had a great time enjoying the art pieces and were impressed by the creativity and vitality of the up-and-coming artists from A-School. Apart from our own students, we have also invited two local artists, Eastman CHENG Shuk Yee and FUNG Ho Yin to participate in the show.

The show was a record of creations of how our young talents have evolved during their 3-year senior secondary study against the background of COVID-19. As our Chief Principal, Dr. Benjamin Chan, said, "The power of the arts is tremendous. It is something that envelops our life each and every day and is at our fingertips. Arts inspires, soothes and motivates us, as well as connects people with each other." Through their creative works, we wish to inspire an appreciation for art in a wide audience and re-establish relationships among people in the community.

12D MAK Pui Ching

I am honoured to be a part of 2022's APEX, where my hard work was showcased to the public in the Hong Kong Visual Arts Centre. This special occasion has given me not only the opportunity to display my art, but also to decorate and build up my exhibition in my unique way, which made me feel like a real curator. I also got to meet various art enthusiasts and present my artwork to them. The idea of having my art displayed and introduced to strangers was initially quite intimidating. Yet, I was proven wrong when my art has only led to great smiles, appreciation, and my speeches have sparked interest in visitors and brought me useful feedback. Some strangers even took photos with my art! My language and presentation skills were surely put to the test, too. This learning opportunity will surely benefit me in my future art career.

12B SUEN Tsz Yan

Can you imagine a secondary school art student having a graduation exhibition? Can you imagine the exhibition in Admiralty? There are souvenirs created by students themselves? It is all like a dream, APEX made my dream come true. Setting up an exhibition venue is not easy as it seems, punching the pins on the wall using the spirit level seating the angle of the spot lamp. I am thankful that A-School provide us full support. APEX is a stage for Visual Art students to shine. During the exhibition period, I have met a lot of local artist, I treasure this memorable experience that we all built the exhibition from head to toe.

12D CHAN Chin Ying

As an ordinary secondary school student, APEX is a precious opportunity to launch a public art exhibition. It has enhanced my art and design ability, from the exhibited artwork to the poster and souvenirs design. Moreover, it trained my public presentation skills when attempting to be the speaker and docent in the exhibition. I could share my views with them and learn from their opinion. The most exciting part was that I met local artists and conversed with them. They shared their perspectives and interpretations of my artwork, which I did not realized myself. I would try to apply the professional skills, for instance, layering paint, that they taught to level up my art in the future and think out of the box. I have a great time with my peers at the exhibition as well! Thank you, A-School, for giving me such an opportunity!

APEX Graduation Show

Retrospect and Prospects

APEX graduation show, representing "Aiming at Pursuing Excellence", is one of the highlight events of arts education in A-School. The show celebrates a selection of creative works from G12 students and outstanding primary students.

Visual Arts is always the core elements in our aesthetics education in A-School. We had our first APEX Graduation Show in Hong Kong Arts Centre in 2013. This year to celebrate its 10th anniversary, the APEX posters collection was displayed in the graduation Show, it is the amazing journey of the development of A-School Visual Arts.

Winter Concert

The **Winter Concert** this year was successfully held at **Heung Yee Kuk Grand Theatre** on December 16, 2021. The power of music is always mesmerizing that all of our musicians and teams have overcome the challenges with the constraints of the pandemic. Their flair is simply unstoppable and resonates with the music they created, reaching the hearts of the audience. With thanks to everyone, especially our supportive principals, students and teachers, our performers were honoured to have this much-cherished moment to share their music and endeavors with everyone.

3C KWOK Baden

It was a great honour for me to participate in the winter concert. Thanks to principals, teachers and all A-School students for their hard work and dedication.

This is an incredible experience for me to study music and perform at this event. I enjoy practicing and performing whenever I get an opportunity. I learnt to be a team player in the orchestra and ensembles. Everyone did their best, the show was incomparably managed, and it was a successful performance.

5B YU Paak Yin, Pasco

In the Winter Concert, I was very excited as it was my first time performing in the Senior Choir. With lots of constraints, it was not an easy task to arrange the practice sessions, but we managed it. I've learnt the spirit "practice makes perfect"! We performed some Christmas carols to share the blessing and bring the "Joy to the World". It was a good learning experience!

10D KWOK Hei Tung

"This is why we sing." The music performance of the choir was spectacular. Being the chairperson of the choir, I enjoyed performing with my fellow members, who always gave it their all. Besides, the concert was a very memorable experience as it was my first time performing in a duet. I was ecstatic to perform the duet alongside Colin and share a wonderful piece by the famous composer, Saint-Saëns. What a delightful moment it was!

Thanks to the graduation committee members and students who sacrificed their time for organizing various graduation activities for the class of 2022, the last year of secondary school life was filled with memories. In the G12 Farewell Assembly, G12 students expressed their gratitude towards teachers with performances and personalized gifts. Another symbolic event – the Graduation Run, was held in school this year. Students started their journey from Primary Division Playground and ran to the Secondary Division campus, which symbolized their development throughout these 12 years in A-School. The Baccalaureate Service was successfully held on the last school day of G12. Thanksgiving moments were shared among teachers and students. Blessings were given to students as encouragement for their challenges ahead.

12C 王天欣

Farewell Assembly (Jan 10)

時間如流水匆匆消逝，如影隨風而行，如沙從指縫而流。十二年的歲月就像電影劇情般白駒過隙，充滿笑淚的日子隨著青春的大合唱而畫上句號。青蔥的光景就此落幕，當中的不捨和遺憾雖還烙在心中，更多的卻是感恩和幸福，更有幸能以音樂將自己及同儕的心聲道盡。二二錦輝，雖美中不足，但卻承載著我們青春中最深刻的回憶和課堂，最親密的友伴和師長，最珍貴的校園點滴和印記。

12B 趙正宏

Graduation Run (Jan 26)

今年是變動很多的一年，正當十二級同學以為可以在運動會進行Graduation Run之際，防疫條例便修改了導致運動會取消。大家感到失望之時，學校都花盡心思讓我們可以在校內完成Graduation Run，圍繞中小學一圈，令到所有學生的中學生涯能夠圓滿，衷心感謝學這個安排。

12E LEUNG Shing Fung Seth

Baccalaureate Service (Mar 4)

The Baccalaureate Service is a staple for G12 students. It is an occasion where students are blessed by hymns and words from the Bible for success in their public exams. Most importantly, it is a time for students to know that they have the full support from peers, teachers and principals!

A-Live Musical Alice@Wonderland

Each year, our school's English musical team brings us an exciting adventure and stories to be told. Despite the global pandemic causing classes to mostly be held on Zoom, last year was no exception. Through the efforts of many teachers and students alike, an adapted version of Alice in Wonderland was created. We added a twist to the well-known 18th-century English classic to create **Alice @ Wonderland** the musical, which was filmed and later broadcasted in a movie theatre in Tsim Sha Tsui. Our students persisted and, with the support of parents, principals, teachers and our peers, managed to finish the musical on a splendid note.

5A LEE Hei Nga Lynette

English Musical Programme is a fun, gleeful, and rewarding experience and I am grateful to be part of the team. Apart from the acting training, we also participated in singing and dancing practices which involves a lot of effort and hard work. I enjoyed accomplishing all these three skills in the musical scene. Thank you teachers and the marvelous team for supporting us along the journey. We all looked gorgeous on stage.

8D CHAN Fong Yu Lyris

Being the lead role can be exhausting sometimes, I had to be there for most of the scenes but I've definitely learnt the most this year. It really helped me grow more confident and made me step out of my comfort zone. Thanks to everyone who makes the experience so much fun.

PERCCI Bear

價值觀是學生教育中不可或缺的一環，更是全人教育的重要元素。時代瞬息萬變，新世代要面對的挑戰不容小覷，而正面的價值觀——堅毅 (Perseverance)、同理心 (Empathy)、尊重 (Respect)、承擔精神 (Commitment)、勇氣 (Courage) 和誠信 (Integrity) 能幫助學生面對不同成長階段所面對的難題和挑戰。

A-School PERCCI熊的出現正正是回應了現今學生的需求。PERCCI熊的名字來源於以上六大正面價值觀的英文縮寫。配合學生的成長心理，設計出可愛的形象和故事，將正面的價值觀以有趣的方式滲透到學生的日常生活中，深入淺出，讓抽象的價值觀變成了學生的日常的生活實踐。

故事的開始——PERCCI熊的冒險旅程

為引入PERCCI熊，讓小學生初步認識六大核心價值以及這位卡通人物，A-School邀請了學生以六大價值觀為主題，圍繞PERCCI熊及牠的老師和同學編寫了三個故事。故事以校園生活和家庭生活為背景，貼合學生成長環境。PERCCI熊在故事中做了很好的示範，透過故事教導學生如何在與朋輩及家人相處中將正向的價值觀加以實踐。

故事的發展——PERCCI熊閱讀冊及相關閱讀伸展活動

為深化學生對六大核心價值的認識，A-School編排了清晰的學習進度，學生每個月會就該月份的重點核心價值作進一步的學習和實踐。為配合學生的深化學習，閱讀組教師推出PERCCI閱讀冊，搭配中英文閱讀篇章故事，協助學生從閱讀中學習正向的價值觀，同時提升學生的中英文閱讀理解能力。除此之外，價值觀的學習更延伸至課外讀物。圖書館老師鼓勵學生從書籍中更深入地分析當中所帶出的道理和意義，PERCCI閱讀冊的電子書推薦以及圖書館的主題書籍展覽有效配合主題，透過鼓勵學生書寫閱讀反思，將所學內化為自身的價值觀。

於此同時，圖書館設計了不同PERCCI的活動，例如書籤設計、個人分享、投稿活動和閱讀計劃等，鼓勵學生用自己的方式將其所理解的六大核心價值與全校師生進行分享。活動目的在於為學生提供不同表現的平台，從而獲得愉快的學習經歷，提升學習動力。

故事的高潮——PERCCI熊3-2-1 Challenge

為避免突如其來的暑假打亂學生的學習進度，A-School推出「3-2-1 Challenge」，引導學生持續學習及實踐所學，鼓勵學生在面對疫情嚴峻的挑戰下，仍然堅持用正面的態度面對生活。PERCCI挑戰計劃包括鼓勵學生每天運動、學習，以及對身邊的人表達關愛。若學生能在假期期間持續實踐，便能獲得PERCCI熊作為獎勵。在PERCCI熊的熱潮之下，活動迴響高漲，最後有超過300位學生能堅持完成30天的連續挑戰，再一次向大家證明了正向價值觀的力量。

6E HONG Marcus

The book, PERCCI Bear's Journey, contains six interesting stories from which I learnt about the importance of the six core moral values: perseverance, empathy, respect, commitment, courage and integrity. These six values helped me get through all challenges to achieve my goals of academic and personal growth. I will always remember and use the value of perseverance to take part in more competitions and try my best to win them. In the PERCCI Bear Journey book, our Chief Principal, Dr. Benjamin Chan, wrote that the teaching of the six core values including commitment and perseverance will guide students through all challenges and opportunities that come their way. The Bible has much to say about the importance of perseverance. For example, "The one who endures to the end will be saved". I will always bear this in mind as I strive for excellence.

6E CHUNG Ching Sum

I believe the students of A-School are all very familiar with the innocent, adorable mascot, the PERCCI bear. The school so far has strengthened PERCCI values in us through reading materials such as monthly Reading Logs. Every month, the school hands out a colourful booklet that talks about one of the values of PERCCI. It recommends books, offers reading comprehension, and short and fun questions, all related to the theme of the value. In October, we were taught about Perseverance. There is no shortcut to success, you have to be persistent to succeed, as the saying goes "Rome wasn't built in a day". Perseverance assisted me through tough homework, exams, debate competitions, projects... the list goes on. We learnt about Empathy in November. It helped me realize that I am extremely fortunate compared to a lot of people and that I should appreciate and treasure what I have.

Sharing from Teachers

Mr. Fok Chin Chung Gray
Physics Panel Head

I am Mr. Gray Fok, a physics teacher. I have been teaching in A-School for ten years. It's my pleasure to share my own story in the school newsletter.

I love science and nature. The wonder and power of nature always surprise me. Every time I look into the sky, giving a glimpse of the majestic universe in which stars shine and twinkle, I notice how tiny human beings are. Yet, no matter how insignificant we are, we never stop our exploration. We landed on the moon. We sent probes to planets and galaxies. We keep advancing and discovering laws of Physics which, in turn, humble us and teach us to fear Mother nature.

Before becoming a physics teacher, I once thought of devoting myself to conserving wildlife. It's so enjoyable to be in the midst of a forest and be surrounded by amazing animals. Even now, I still envision a place like the Garden of Eden as my home, where everyone lives without worries and sadness.

Being a Christian and a Science teacher, I am filled with awe and reverence through appreciating the beauty of nature. I genuinely hope we can all share the joy of studying science and understand its wisdom.

Cats are my siblings

Mr. Chong Chun Yu Jeff
English Language Panel Head

What we, English teachers, do is sometimes pretty...petty. We discuss the meaning of words in practice papers and explain all those subtle answering techniques only to pray that the real thing, the public examination, will miraculously include items that we have covered. But years of paper-setting experience has made me realise that papers that require higher-order thinking or critical thinking often come with answers that are almost absurd to the eye, as there are just countless ways to look at the same thing. One question I always have as a teacher is whether I should, or should not, guide students to believe in the one-way, irrefutable, inviolable model answers.

My practice is I always let my students make a well-informed decision. A big part of my job is, for sure, to teach English. But most of the time, I'd say I prefer teaching students how to think instead, for an article analysed is an article gone, and what is to remain from that is immaterial. But ideas, concepts and logic can stand the test of time.

Another responsibility that I hold dear is to teach what I preach. I am more than fortunate to have studied in the best university in the world and worked with the brightest people. This is exactly why every event in life is a humbling experience to me, for I know how much I lack and how much I can learn from others. Diligence and humility go a long way. A genius without hard work is nobody.

2021.10.26

2021.11.18

老師分享

楊楠老師

圖書館主任兼家校事務統籌

在這座優美的校園裏有一間特別寬敞明亮的房間。這房間甚麼都有，有破案奇才福爾摩斯，有童話製造工廠，連準備升空的火箭也都裝在裏面……這神奇的房間就是我的辦公室——王庭聰圖書館。

我熱愛我的工作，不僅因為學校提供了豐富的資源和極大的發揮空間，還因為「推廣圖書、培養學生閱讀興趣和習慣」意義非凡。

母親培養了我的閱讀習慣——休息時閱讀，遇到難題時，我也會選擇揭開書頁去尋找答案。書，是成長冒險中最優秀的同行夥伴，它能提供知識養分，亦能撫慰人心。因此我希望我的學生也能得到書本的護航，在未來的人生路上乘風破浪。

Mr. Luk Shing Yeung Wes

Assistant Head of STEAM Education

Hi everyone! I am Mr. Wes Luk! As you know, I have been a STEAM teacher in A-School for more than 10 years. I really enjoy being a STEAM teacher because I can see a lot of creative product designs and innovative solutions which are coming from students' creativity, and all of these meant a lot to me.

I am in charge of the school robotics team. To strengthen the skills and knowledge about robotics, I have my own Lego EV3 workshop at home. Although it is not a big place, I can investigate various robotics techniques to help our school team participate in different competitions. It is a very unforgettable memory that our A-School students experienced their success in getting the 1st runner-up in the international robotics competition which is held in USA.

Moreover, I love to travel, play TV games and especially, soccer. I remember I practiced my soccer skills every day when I was in secondary school. I also got the champion with my teammates in the Inter-School Soccer Competition when I was in the secondary school soccer team!

Finally, please remember that learning STEAM is not that difficult. What we are facing in the lesson is just like what we are meeting in our daily life. Difficulties may come but remember there are also many ways and partners around us to help overcome all these obstacles. Just focus on your life and never say "Give up" to yourself!

PS Playground

The renovated PS Playground is designed with diverse patterns and vibrant colours, attracting everyone's attention. Blue, orange, and green coincide with the theme colours of A-School.

Various sports activities such as PE lessons, OLE lessons, Sports Teams training, school-based sports activities are in line to be staged.

PS Playground functions in two directions, namely vertical and horizontal. When used vertically, it includes a standard 5-a-side soccer pitch, with a 38-to-42-meter length and a 20-to-25-meter width, which provides both PS and SS Soccer Teams with the best training platform to prepare for competitions. Moreover, it also supports PS and SS Baseball and Softball Teams training with the catcher's box in the corner.

Horizontally, it supports various Sports Teams training and sports activities. For example, a standard basketball court facilitates our Basketball Team training, and students can have shooting practice during Sports Recess. It increases the chances for students to refine their basketball skills and enhance their kinesthetic development. Two standard volleyball courts can be seen from the Playground horizontally. It makes both PS and SS Volleyball Teams training sessions possible. Meanwhile, a wide range of other Sports Teams training and activities, including Kin-Ball Team sessions, inter-class Dodgeball Competition, Battle of Traditional and New Rising Sports Day and Sports Recess, are underway.

The Playground is surrounded by two jogging tracks as the boundaries, which allow students to perform slow running warm-up exercise during training and PE lessons. The tracks also allow students to run anti-clockwise during Sports Recess, providing more chances for them to exercise. Along the edge of the Playground, there are three straight running tracks which provide an ideal training ground for both PS and SS Athletic Teams.

The renovated Playground gives rise to the sports development of A-School, which takes us a huge step forward to achieve our mission - whole-person development, and lays the cornerstone for sports activities as well as for developing student talent, potential, physical strengths and health habits.

Background

Towards the end of 2019, the condition of the outdoor playground in the Primary Division was rather worn out. Hence refurbishment works of this playground had been included as one of the subvented items in the Major Repairs Programme administered by EDB.

In October 2021, the refurbishment works were finally completed. The result is a magnificently looking multi-court playground in striking colours, suitable for different games such as basketball, volleyball and five-a-side soccer. The main works of this refurbishment include resurfacing the entire playground with coloured synthetic rubber granules known as EPDM and readjusting the ground surface to facilitate better drainage.
