### Part B: Suggestion

- Physical exchanges (both inward and outward) with our sister school resumed this year, allowing students to personally experience the local culture and customs of our sister school.
- To enhance the connection and communication between teachers from both schools, professional development started, such as sharing of educational philosophies in gifted education and PBL. It can be further strengthened, such as classroom demonstrations, classroom observations and evaluations and so on.
- Cultural exchange activities are worth continuing. Understanding of national security and national identity issues needs to be spiritually fostered.
